LINCOLN
A V I A T O R

Aviator leather-trimmed interior in Camel with available heated and cooled seats.

Aviator in Ivory Parchment Tri-Coat with available roof-rail crossbars.

The Heart of an Athlete.

With all the right proportions, and a 4.6L DOHC 32-valve V-8 engine pumping out a full 302 hp and 300 lb.-ft. of torque, Lincoln Aviator is the SUV of choice for the ultimate blend of responsiveness and agility. Exceptional poise comes standard, thanks to Aviator's AdvanceTrac® with Roll Stability Control™ (RSC)*. By automatically applying the brakes and modulating engine torque, AdvanceTrac gives you more control in adverse conditions. Class-exclusive** RSC utilizes a gyroscopic sensor to monitor the vehicle's condition and engages AdvanceTrac as soon as an unstable situation is detected.

Inside Aviator, luxury meets technological genius. Crisp, white LED lighting; satin-nickel accents; and rich, American walnut burl wood please your eyes. And for your ears, Lincoln Aviator is pleased to be the first in its class to offer a cinema-quality sound system created exclusively for an SUV. Just like THX® technology at the movies, the available Lincoln Soundmark™ THX-Certified Audio System is fine-tuned with 9 speakers, 300 watts of power, a 6-disc in-dash CD changer and 3 listening modes. This sonic treasure is packaged with a Navigation System that understands 171 voice commands. For a seemingly endless stream of audio bliss on every journey, add the SIRIUS Satellite Radio† service, which features over 120 channels of coast-to-coast music, news and entertainment.

A luxuriously appointed cabin and flexible seating choices ensure that Aviator is as stylish as it is versatile. Standard accommodations seat up to 6 people; optional seating raises the capacity to 7. The 2nd- and 3rd-row seats fold away to open an expansive 78.3 cu. ft. of space. As you would expect from an SUV of this caliber, both the 1st and 2nd rows are trimmed in glove-soft premium perforated leather. And for the ultimate in comfort, Aviator is the only vehicle in its class to feature available heated *and* cooled front seats.

*Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. **Midsize Premium SUV. †See your Lincoln Mercury Dealer for installation and activation details.

*Always wear your safety belt and secure children in the rear seat. * Excludes steel spare. * HomeLink is a registered trademark of Johnson Controls. *Dealer-installed option. requires Navigation System.

KEY AVIATOR STANDARD EQUIPMENT

Performance

Brakes - power 4-wheel disc with Anti-lock Brake System and Electronic Brake Force Distribution
