

2012 QUEST

INNOVATION FOR FAMILY.

Today will be different. You've got Quest* on your side. When life comes calling, rely on the modern 7-seater with style. Daily routine or family road trip, celebrate it all – with accommodations that are nothing but first-class. Say yes to a roof made of sky, sliding doors that open with one touch, and seats so incredibly easy to configure, you'll look for excuses to pack up and go. Quest. Innovation for family. Innovation for all.

A THOUSAND THINGS TO DO.
SO MUCH TO APPRECIATE.

Innovation that looks out for you. You always check your outside mirror to change lanes. What if your vehicle kept an eye on things as well? Quest's available Blind Spot Warning System uses radar to do just that. When it detects a vehicle in the blind spot area, an indicator lights up on your mirror. If you put on your turn signal, the indicator flashes and you'll hear a warning chime. It's nice to have a little extra peace of mind!

Nissan Quest LE shown in Platinum Graphite.

*The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents due to careless or dangerous driving techniques or detect every vehicle or object around you.

Nissan Quest LE shown in Beige Leather.

Innovation at the ready. What good is storage if it isn't always there for you? Unlike other minivans, Quest's unique third row folds forward out of the way rather than down into the rear storage well. So to create the wide-open cargo space you see here, you don't have to first empty out all the stuff you carry in the well underneath. Life just got easier.

Nissan Quest LE shown in Brilliant Silver.

Nissan Quest LE shown in Beige Leather.

WE LOOK AT THINGS DIFFERENTLY.

Now you can, too. On the next few pages, you'll see what it's like to have a Quest in your life. Not just a minivan, but possibly the most helpful member of your family. Imagine putting air in your tires and hearing a friendly beep of the horn when you're good to go. Freezing outside? Quick Comfort heated front seats get you warm fast. Look up to see not one, but dual-opening moonroofs. Multi-tasking? Quest makes you a hero. Whether seating 7 or filling with gardening supplies, you've never flipped and folded seats so easily. With a unique third row that folds forward instead of stowing in the rear, you can load up on spring blooms without stopping to drop off the groceries. It's your life Quest has in mind.

Interior images shown for illustrative purposes only. Always wear your seat belt.

Permanent rear storage well – The cargo well behind the rear seats is always open for business, thanks to third-row seats that fold forward.

Easy up, easy down – Push the release button and the third-row seats fold right down. The power-up feature brings them back into place at the push of a button.

A second row you never have to remove – The second row folds flat, which means no more wrestling with seats.

Power-down rear windows – Fresh air for all. In Quest, your second-row passengers have their own power window.

Where to put the long legs? – With Quest's sliding second row, you can create more leg room where you need it, in the second or third row.

Quick Comfort heated front seats – Get to cozy quicker. Key areas of the body are heated in sequence for warming that's ASAP.

Comfort seating design – Shaped and padded especially for improved posture support and comfort. Designed with your next road trip in mind.

Third-row seat down – Up to 75 cu. ft. of cargo room.¹ And thanks to the clever no-stow, forward-folding third row, you can pack some gear in the permanent rear storage well in the back.

Second- and third-row seats down – Just the pair of you cruising the flea market. What will you bring home? With up to 119.8 cu. ft. to fill, no telling.² And you won't even have to remove the second row.

¹75 cu. ft. on S, SV and SL models without Bose® audio system. 70.3 cu. ft. on SL and LE models with Bose® audio system. ²119.8 cu. ft. on S, SV and SL models without Bose® audio system. 115.1 cu. ft. on SL and LE models with Bose® audio system.

QUEST DOES CARGO SMARTER.

Sometimes the simplest innovation is also the most helpful. In Quest, not only does the second row fold flat, forward, and out of the way, so does the third. So unlike other minivans, instead of stowing seats, the cargo well behind the third row is a permanent place to put whatever you like, eliminating the need to ever empty it out.

All seats up – 7 on board and you still have room for gear. The permanent storage well has two separate lids. You can keep a flat cargo floor on one side, and leave the other lid open to carry taller things.

All seats down – Go full cargo mode, while Quest's practical and permanent rear storage well is always at the ready.

Any way you look at it, Quest flips and folds like no other minivan.

Power second-row windows

Open up to let fresh air in, or to just wave goodbye.

See how Quest's one-touch convenience and innovative seating and storage make any trip easier.

Conversation mirror

Don't miss a thing. With this available feature, see who's behaving, or not, in the rows behind.

BIG LIFE. NEVER SIMPLER.

Go ahead and embrace the chaos. Quest makes it seem effortless, even fun. From an easier way to get everyone inside to a better way to wave goodbye, you'll see innovative design at work for you – everywhere you look.

Power rear liftgate

This available feature is the next best thing to your own doorman. Just push a button on your keyless remote, the liftgate or on the dash.

Nissan Intelligent Key® and Push Button Ignition – A system so smart, you can unlock the doors, open the rear liftgate and start the engine, all without taking the key out of your pocket or purse.

Removable 2nd-row console – Your choice. Cup holders for the rear and a place to stash small items. Or remove this handy console to create some walk-around space.

Low step-in height

It's easy for anyone to get in a Quest.

One-touch power sliding doors

Hands full? No problem. Quest's available one-touch power sliding doors open easily.

TECHNOLOGY CHANGES EVERYTHING.

Hungry? Lost? Bored back there? With high tech and instant entertainment, Quest has you covered. Let the road trip begin.

11" DVD monitor – Our best-in-class 11" 16:9 viewing area DVD monitor keeps them happy for hours and even has inputs for gaming!

Advanced Climate Control System – First in its class!¹ Control your inside climate and clean the air quickly, when you need to. Filter the cabin air or help reduce outside intrusion, and even help reduce bothersome allergens.²

Nissan Navigation System – Quest's advanced navigation system gives you the tools to make every trip a snap. Find a new restaurant and even see what *Zagat Survey*⁸ has to say. Hear turn-by-turn Voice Guidance, then get around jams with available real-time traffic reports from XM NavTraffic.⁹ Know the weather, the quickest way to the freeway and make it there on time.^{3,4}

iPod[®] connectivity – Your music comes along. On all Quests, excluding Quest S, a standard USB input is ideal for your iPod[®] so you can easily control your playlist on the available navigation display. On Quest S, you can plug your player into a standard auxiliary audio input.^{5,6}

Bluetooth[®] Hands-free Phone System – A safer way to stay in touch. Now you can make calls using the buttons on the steering wheel and listen via the speakers. You can also store your address books and use voice-activation to make calls by name.⁷

Bose[®] Audio System – An available 13-speaker digital Bose[®] audio system is made just for Quest, designed around the cabin's unique acoustics to enhance its performance. From the driver's seat to the third row, every passenger enjoys the clarity and depth of a live show.

¹Ward's Light Vehicle Market Segmentation. MY12 Quest vs. 2011 Small Van Class. ²The Advanced Climate Control System with Plasmacluster[®] air purifier helps scrub the air in the vehicle's interior. The system senses exterior odors, suppresses unpleasant interior odors, stops the inflow of external odors and helps keep the cabin smelling fresh, but does not always eliminate odors. ³Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ⁴Required XM Radio, XM NavTraffic and XM NavWeather subscriptions sold separately after trial period. Installation costs, one-time activation fee, other fees and taxes will apply. XM NavTraffic available in select markets. XM Services available only to those at least 18 years of age in the 48 contiguous United States and D.C. Fees and programming subject to change. Subscriptions governed by XM Customer Agreement available at xmradio.com. ©2011 SIRIUS XM Radio Inc. SIRIUS, XM and all related marks and logos are trademarks of SIRIUS XM Radio Inc. and its subsidiaries.

⁵Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. ⁶Always give your full attention to driving. Avoid operating your iPod[®] in such a way that you can be distracted during vehicle operation. See dealer for details. iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included. ⁷Availability of specific features is dependent upon the phone's Bluetooth[®] support. Please refer to your phone Owner's Manual for details. The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. ⁸Bose is a registered trademark of The Bose Corporation. ⁹Zagat Survey is a registered trademark of Zagat Survey, LLC Ltd. ¹⁰Plasmacluster is a registered trademark of Sharp Corporation.

YOU CAN HANDLE THIS.

You're in a Quest, after all. Changing lanes – we've got your back. Maneuvering in tight spaces – no problem. Powerful? Yes. Easy? Of course.

Powerful V6 – How about getting up to highway speed on the on-ramp? Piece of cake. Quest's powerful V6 with 260 horsepower and 240 lb-ft of torque gives you the confidence and the power to get around the way you need to. Then change the filters and fluids regularly and cover 105,000 miles before needing a tune-up.¹

CVT – The smarter way to shift. Quest's virtually "gearless" and smooth CVT transmission keeps you in the sweet spot. When accelerating, the CVT maintains engine rpm – instead of shifting – for a seamless wave of power.

Speed-sensitive steering – So responsive, it gives you the assist you need at different speeds. Steering is easier at low speeds (for parking), then firms up at higher cruising speeds.

Easy Fill Tire Alert – No more taking your chances with that sketchy gauge at the gas station. Just fill with air until a friendly beep of the horn signals that you've reached the correct pressure.²

See a demonstration of Quest's Easy Fill Tire Alert, RearView Monitor and Blind Spot Warning System.

IT'S CLEAR TO SEE HOW QUEST ASSISTS.

¹Under normal driving conditions with routine fluid/filter changes. See Owner's Manual for details. ²Vehicle must be on for Easy Fill Tire Alert to operate. ³The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents due to careless or dangerous driving techniques or detect every vehicle or object around you. ⁴Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.

SAFETY ALL AROUND.

It's protecting you and your most precious cargo that drives our comprehensive approach to safety.

Six Standard Air Bags – The Nissan Advanced Air Bag System incorporates seat belt sensors and an occupant-classification sensor to inflate the dual-stage supplemental front air bags according to crash severity and seat belt usage. Quest also has front side-impact supplemental air bags built into each front seat so they move with you as you adjust your seat. And two roof-mounted curtain side-impact supplemental air bags help provide head protection for all of the outboard occupants.¹

Active Front-seat Head Restraints – These help reduce the chance of whiplash injuries to you and your front passenger by moving up and forward during certain rear-end collisions.

Vehicle Dynamic Control/Traction Control System – Quest's Vehicle Dynamic Control (VDC) helps you stay on your steered path by sensing understeer or oversteer and compensating accordingly.² Get a grip with Traction Control System (TCS). It senses drive-wheel spin and reduces engine power and/or applies front brakes to help maintain traction.

Anti-lock Braking System – ABS pumps the brakes faster than you could in sudden-braking situations, to help prevent wheel lockup.

Electronic Brake force Distribution (EBD) – Monitors weight distribution and adjusts rear brake force for more balanced braking.

Brake Assist – Quick! In an emergency, Brake Assist helps boost braking by applying additional braking pressure.

Brake Override Technology – Like every Nissan since 2005, Quest comes standard with Brake Override Technology. It's designed to help slow down your vehicle and bring it to a safe stop in an emergency by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.

LATCH – The Quest LATCH System (Lower Anchors and Tethers for CHildren) lets you easily secure LATCH-compatible child restraints in the second or third row without using a seat belt or a locking clip.

snug4kids™ Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.

Quest for Safety® Program – Committed to child-seat safety, Nissan launched the award-winning Quest for Safety® program in 1998 to inform caregivers how to ensure proper child seat safety usage.

¹Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See your Owner's Manual for more details. Inflated air bags shown for illustration purposes only; actual coverage area may differ. Air bags deflate after deployment. ²VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

THERE'S A QUEST FOR YOU.

S

- 3.5-liter V6 engine with Xtronic CVT® (Continuously Variable Transmission)
- Anti-lock Braking System (ABS)
- Vehicle Dynamic Control (VDC) and Traction Control System (TCS)
- Tire Pressure Monitoring System (TPMS) with Easy Fill Tire Alert
- Nissan Intelligent Key® with Push Button Ignition
- AM/FM/in-dash 6-CD audio system with auxiliary audio input jack
- Power second-row side windows
- 7-passenger seating capacity and permanent rear storage (behind third row)
- Fold-flat second-row captain's chairs and fold-flat third-row bench seat
- Wood-tone trim
- Nissan Advanced Air Bag System and 6 standard air bags

SL

Includes SV equipment, plus:

- 18" Aluminum-alloy wheels, roof rack side rails and side sill spoilers
- One-touch power liftgate
- Leather-appointed seats and leather shift knob
- Quick Comfort heated front seats
- 8-way power driver's seat with power lumbar support
- Auto-dimming inside rearview mirror with digital compass
- HomeLink Universal Transceiver

SV

Includes S equipment, plus:

- 16" Aluminum-alloy wheels and fog lights
- One-touch power sliding doors
- RearView Monitor and conversation mirror
- Premium AM/FM/CD audio system with 4.3" color display and 6 speakers
- XM® Satellite Radio and Bluetooth® Hands-free Phone System
- USB connection port for iPod® interface and other compatible devices
- Leather-wrapped steering wheel with illuminated audio controls
- Tri-zone Automatic Temperature Control

LE

Includes SL equipment, plus:

- Blind Spot Warning System and automatic tilt-in-reverse outside mirrors
- Nissan Hard Drive Navigation System with 8.0" touch-screen monitor and voice recognition
- DVD Entertainment System with second-row 11.0" DVD monitor
- Bose® audio system with 13 speakers and XM® Satellite Radio
- Advanced Climate Control System with polyphenol microfilter
- Driver's memory seat system and 4-way power front-passenger's seat
- Power-return third-row seat

Vehicle Configuration

Time to narrow it down to just one Quest. It might be easier than you think with this selection guide. Or, if you want an interactive experience, go to NissanUSA.com and find great ways to configure your Quest.

ACCESSORIZE.

Every Genuine Nissan Accessory is:

- Custom-fit, custom-designed and durability-tested.
- Backed by Nissan's 3-year/36,000-mile limited warranty.
- Easy to finance with vehicle purchase, for just a few dollars a month.

See your Nissan dealer for details, or go to: NissanUSA.com/accessories

Buying and owning a Nissan is like driving one: quick, convenient, confidence-inspiring.

Nissan Motor Acceptance Corporation. Whether you're buying or leasing, you'll find attractive rates and flexible terms to make your purchase more accessible.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile basic coverage and 5-year/60,000-mile powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus.* For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus.* This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they're the only parts to carry Nissan's factory-backed limited warranty.

Nissan's philosophy toward the environment, "Seeking a symbiosis of people, vehicles and nature," describes our ideal for a sustainable mobile society, now and in the future. We launched the Nissan Green Program with specific objectives to realize this goal, and we are pursuing it energetically. For more information, log on to NissanUSA.com/green

At NissanUSA.com, you'll find virtual product demonstrations, a way to "build your own Nissan," a dealer locator, and more information about key Nissan support services. Or if you'd prefer, call **1-800-NISSAN-3** for answers to specific questions about Quest or any other Nissan vehicle. The Nissan names, logos, product names, feature names, and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries. **Always wear your seat belt, and please don't drink and drive.** ©2011 Nissan North America, Inc. *12 Quest. 09/11.

INNOVATION FOR FAMILY. INNOVATION FOR ALL. NISSAN QUEST®

At Nissan, innovation is at the core of everything we do. It's about turning our ideas and dreams into something that makes a difference in your life, every time you get behind the wheel. So imagine driving a Quest, with all of this at your fingertips:

A revolution in seating. Quest's 2nd-row seats fold flat – no removal required. And the 3rd row folds forward, for a permanent cargo well behind the 3rd row – no other minivan does that.

Blind Spot Warning System. An extra pair of eyes never hurts. Quest's available system warns you when another vehicle's in the blind spot area on either side.¹

Easy Fill Tire Alert. No guesswork involved. Just fill the tire with air until a friendly beep of the horn signals you've reached the correct pressure.²

One-touch power sliding doors. Hands full? Quest's available one-touch power sliding doors open easily with the touch of a finger.

SHIFT_ the way you move

visit www.NissanUSA.com/quest

¹The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents due to careless or dangerous driving techniques or detect every vehicle or object around you. ²Vehicle must be on for Easy Fill Tire Alert to operate.
