2013
ROGUE®

READY WHEN YOU ARE.

THE FEELING OF INNOVATION.

Check off that to-do list – and then some. Because in Rogue,[®] you can handle whatever life throws your way. Count on versatility that makes every day a win, and thoughtful technology that puts the world at your fingertips. There's a first-in-class available Around View[®] Monitor that will change the way you park forever! And with Rogue's All-Wheel Drive that turns torque into traction, you'll keep your can-do attitude rain or shine.

Nissan. Innovation that excites.[™]

¹Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.

WHAT IF YOUR CAR COULD PREDICT WHAT'S NEXT?

Rogue's All-Wheel Drive is truly intuitive. So responsive, it can adapt to changing conditions 30 times faster than you can blink. Snow, rain-covered pavement or tight turn, the system automatically sends power to the wheels that need it most. Even in ideal conditions, Rogue's AWD pays big dividends – our passionate engineers also tuned the system for responsive, agile performance. Getting a grip has never been more fun.

THE FEELING OF AN INSTANT CONNECTION.

**READY WHEN YOUR NEW
FAVORITE THING FINDS YOU.**

Nissan Rogue SV shown in Gray Leather with SL Package.

Cargo and load capacity limited by weight and distribution. Always secure all cargo.

**THE FEELING OF ARRIVING.
WITH STYLE TO SPARE.**

Nissan Rogue SV shown in Frosted Steel with SL Package.

INNOVATION THAT WORKS FOR YOU.

What's it like to have a Rogue in your life? It might be a simple detail, like the front passenger seat that folds forward to let you carry an item eight feet long.¹ Or sometimes it's advanced technology that lends a hand. Like a navigation system that not only finds the nearest coffee shop,² but directs you around traffic on the way there.³ And an Around View[®] Monitor that helps you squeeze into that coveted space right in front.⁴ Of course, it's always about the ride. And Rogue's All-Wheel Drive will remind you why you love to drive, especially when you carve through a corner. As you get to know Nissan Rogue a little better, we're confident you'll find what you're looking for – plus a few surprises.

¹Cargo and load capacity limited by weight and distribution. Always secure all cargo. ²Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ³SiriusXM Satellite Radio and NavTraffic require subscriptions sold separately after trial period. Subscriptions governed by Customer Agreement at siriusxm.com. Fees and programming subject to change. Available only to those 18 or older in the 48 contiguous states and D.C. ©2012 Sirius XM Radio Inc. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. ⁴Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.

Scan this with your QR code-reader app to see a short video on Rogue's Around View® Monitor¹. Or go to bit.ly/Rogue_AVM

Nissan Rogue SV shown in Graphite Blue with SL Package.

MAKE THAT SPOT YOURS.

A rearview camera is great when you're maneuvering into a tight space. But what if you could see all around you? Rogue offers the world's first Around View® Monitor, giving you not one but four wide-angle cameras as your helpful spotters. Which helps make you a parallel parking ace. So quit circling the block – that space is yours!^{1,2}

Bird's-eye View. The system works by converting the view from each of four wide-angle cameras (in the front and rear and in the side mirrors) into a composite overhead view of your Rogue. Now you can see your vehicle's position in relation to its surroundings on all sides, avoiding not only the car behind or in front, but saving your wheels from nasty curb scuffs!

Four Split-screen Choices. When your Rogue is in "Reverse," the system automatically shows the rear view/bird's-eye combo (A). Press the "Camera" button and bird's-eye view changes to the right curbside view. Likewise, in "Drive," you get a look at what's in front – and can use the "Camera" button to select either right curbside (B) or bird's-eye view (C).

¹Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ²The Around View® Monitor was introduced first by Nissan's Infiniti Luxury division.

Nissan Rogue SV AWD shown in Black Leather with SL Package.

YOUR CENTER.

If 90% of life is just showing up, the other 10% must include avoiding traffic jams, hidden grocery carts and annoying radio commercials.

Navigation. It's easy to make great time with the Nissan Navigation System. The big 5-inch QVGA touch-screen display is easy to read, while NavTraffic gives real-time traffic advisories to keep you on the move.^{1,2}

A. RearView Monitor. Standard on Rogue SV and optional on Special Edition, when you engage reverse, a color camera on the rear of the Rogue helps you see what's directly behind you on the monitor.³ Or choose the available Around View[®] Monitor to get a virtual bird's-eye view of your surroundings.⁴

B. Intelligent Key. Never fumble for keys again. With the available Nissan Intelligent Key[®] tucked in your pocket or purse, walk up and tap the button on the door or hatch and Rogue unlocks. Then you can even start the ignition, keyless.

C. Bose[®] Audio. Jam on with the available Bose[®] audio system with eight custom-tuned speakers. Each one strategically placed to accommodate details like the specific contours of a seat and the volume of leg room.

D. iPod[®] Connectivity. Depending on how your Rogue is equipped, you'll find a variety of ways to connect your music, like an iPod[®] interface system or built-in USB input. Both let you control your iPod[®] through the steering wheel-mounted audio controls. The USB input also accepts a flash drive so you can play all your favorite MP3s on the go. And if your Rogue is equipped with the Nissan Navigation System, you can even control your iPod[®] with the touch-screen display.^{5,6}

E. Drive Computer. With available functions including distance until empty, average and instantaneous fuel consumption and time traveled, you're a trip-master. It even tells you outside temperature.

F. Bluetooth[®]. With an available Bluetooth[®] Hands-free Phone System, you can keep your hands on the wheel while listening to calls through the speakers.⁷

¹Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ²SiriusXM Satellite Radio and NavTraffic require subscriptions sold separately after trial period. Subscriptions governed by Customer Agreement at siriusxm.com. Fees and programming subject to change. Available only to those 18 or older in the 48 contiguous states and D.C. ©2012 Sirius XM Radio Inc. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁴Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn

of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁵Always give your full attention to driving. Avoid operating your iPod[®] in such a way that you can be distracted during vehicle operation. See dealer for details. iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included. ⁶Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. ⁷Availability of specific features is dependent upon the phone's Bluetooth[®] support. Please refer to your phone Owner's Manual for details. The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. ⁸Bose is a registered trademark of The Bose Corporation.

YOUR SPACE.

Your world – like the universe – seems to be constantly expanding. Thankfully, you'll find a place for just about everything inside. Even your new 6' x 8' rug.

A. Flexible Space. Bring what you want, Rogue has the versatility you need. With convenient 60/40 split rear seats, you can fold either of the seatbacks down to accommodate your long and slender items. Need more room? Fold both rear seatbacks forward, and enjoy a cavernous 57.9 cubic feet of cargo space.

Spacious | Cavernous

B. Fold-down Passenger Seat. The long and short of it is cargo comes in all shapes and sizes. With Rogue, you can fold the front passenger seatback forward to carry items up to eight feet long.¹

C. Huge Glove Compartment. With loads of space, there's even room for your laptop, while a separate pocket helps keep smaller items like a cell phone from going astray. There's also a convenient slide-in card holder for a swipe card.

D. Deep Center Console. Stack 'em high with Rogue's spacious center console. Built-in pen and card holders in the lid put things within easy reach when you need to jot something down.

¹See Specifications for availability. Cargo and load capacity limited by weight and distribution. Always secure all cargo.

Scan this with your QR code-reader app to see a short video on Rogue's Continuously Variable Transmission (CVT). Or go to bit.ly/NissanCVT

YOUR MOVE.

Make the road your friend again. Even if your "friend" is covered in snow, has giant potholes and no sense of direction.

Intuitive All-Wheel Drive. Neither rain nor snow nor hairpin curve will keep you from your appointed rounds with Rogue's intuitive and responsive AWD. Designed as much for driving fun as bad weather, this is one AWD system that makes sense year-round, no matter where you live.

170 HORSEPOWER | **175** LB-FT OF TORQUE | **28** MPG HIGHWAY¹

Engine. With Rogue's 170-hp, 2.5-liter 4-cylinder engine, you're good to go. Get out there and pass some big rigs, or simply master the ins and outs of 5 o'clock traffic. And with an efficient 28 MPG on the highway and up to 400 miles per tank, you'll probably need a pit stop before your Rogue does.¹

CVT (Continuously Variable Transmission). Merge onto the highway with smooth acceleration. Rogue's virtually "gearless" CVT transmission is a revolution, and may change your definition of smooth. When you accelerate, the CVT maintains engine rpm – instead of shifting – keeping you in the engine's sweet spot, whether you're looking for efficient cruising or a quick rush of seamless acceleration.

Sport Mode Feature. And now you can rev up the fun on CVT. Activate the Sport Mode feature and engine and transmission responses are enhanced for more spirited driving.

Aerodynamics. Making Rogue's exterior more slippery through the air enhances efficiency and performance – a real win-win situation. An aerodynamic nose and functional rear roof spoiler are as handsome as they are effective. Down below, new underbody panels clean up air flow underneath the vehicle.

INTUITIVE ALL-WHEEL DRIVE

ZIP off the line

Intuitive AWD delivers power to both front and rear wheels for improved grip from the get-go.

SIP at cruising speed

Once up to speed, the system sends all of the power up front, resulting in higher efficiency.

GRIP in the corners

In slick conditions and tight corners, AWD transfers the optimal amount of power from front to rear.

Nissan Rogue SV AWD shown in Pearl White with SL Package.

¹EPA Fuel Economy Estimate. Rogue FWD 23 city/28 highway. Actual mileage may vary with driving conditions – use for comparison only. 2012 EPA fuel economy estimates shown. 2013 EPA estimates not available at time of printing.

YOUR PROTECTION.

At Nissan, our top priority is to help you avoid an accident in the first place. That's why Rogue comes equipped with an advanced braking and control system. And in addition to six standard air bags to help protect you,¹ Nissan offers an industry-first guide to help you select the right child safety seat.

A. Vehicle Dynamic Control (VDC). A slick spot in a corner can have you suddenly going in a direction you didn't want. VDC monitors steering and braking in comparison to your actual path and reduces engine power and/or applies brake pressure to specific wheels to keep you on your steered path.²

B. Traction Control System (TCS). Rogue's power is wasted if all it does is spin the tires. When the standard Traction Control System senses drive-wheel spin, it responds by reducing throttle or applying brake pressure to help maintain traction.

C. Anti-lock Braking System (ABS). The standard ABS pumps the brakes faster than you possibly can in panic-braking situations to help prevent wheel lockup, so you can continue to steer around obstacles while braking heavily.

D. Brake Assist/EBD. When that squirrel at the curb decides to see how quick your reflexes are, Rogue helps you preserve wildlife. Brake Assist senses how hard you're braking, and if it senses you are in an emergency, it will automatically help to apply maximum braking force. Electronic Brake force Distribution (EBD) is designed to send extra force to the rear brakes when it senses additional weight in the back.

Brake Override Technology. Like every Nissan since 2005, Rogue comes standard with Brake Override Technology. It's designed to help slow down your vehicle and bring it to a safe stop in an emergency by overriding accelerator input and reducing power when the accelerator and brake pedals are applied simultaneously.

Nissan Advanced Air Bag System. Dual-stage supplemental front air bags adjust their inflation rate, depending on the severity of impact and seat belt usage. If your front passenger seat is empty, an occupant-classification sensor actually deactivates that air bag. Standard front seat-mounted side-impact supplemental air bags are built into the seats, so they move with you as you adjust your seat. Above, standard roof-mounted curtain side-impact supplemental air bags (with rollover sensor) provide enhanced head protection for front and rear outboard seat occupants.¹

Front-seat Active Head Restraints. This feature helps reduce the chance of whiplash-type injuries to you and your front passenger by moving the head restraints up and forward during certain rear-end collisions.

snug4kids™ Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissan vehicles. The result: An industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.

Scan this QR code with your smartphone to see a video on how Snug Kids helps you find the right CRS for your Nissan. Or go to bit.ly/NissanSnugKids

¹Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See your Owner's Manual for more details. Inflated air bags shown for illustration purposes only; actual coverage area may differ. Air bags deflate after deployment. ²VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. ³Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (www.safercar.gov). Please see www.safercar.gov for up-to-date information.

**GENUINE NISSAN ACCESSORIES.
IMPRESS. CONNECT. PROTECT. ORGANIZE.**

Every Genuine Nissan Accessory is: custom-fit, custom-designed and durability-tested; backed by Nissan's 3-year/36,000-mile limited warranty; and can be financed when installed by dealer at time of purchase.¹

- A. **In-mirror RearView Monitor²**
Like having eyes in the back of your head. But less awkward.
- B. **Nose Mask**
Don't drive around with a chip on your shoulder. Or your nose.
- C. **Rear Bumper Protector**
Scratches? What scratches?
- D. **Retractable Cargo Cover³**
Like a secret fortress for your cargo.
- E. **Cargo Area Protector³**
Use your cargo area, don't abuse it.
- F. **Hatch Tent**
It's an SUV. It's a campsite. It's both!
- G. **Stainless Steel Illuminated Kick Plates**
Fewer scuffs and a grand entry, every time.
- H. **Fog Lights**
Help light your way in rain, sleet or snow.

Additional Accessories:

- Chrome Mirror Covers
- Moonroof and Side-window Deflectors
- Roof Rail Crossbars^{3,4}
- Splash Guards
- Carpeted and All-season Floor Mats
- And More

TURN
BRAND-NEW
INTO ALL YOU.

Buying and owning a Nissan is like driving one: quick, convenient, confidence-inspiring.

Nissan Motor Acceptance Corporation. Whether you're buying or leasing, you'll find attractive rates and flexible terms to make your purchase more accessible.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile basic coverage and 5-year/60,000-mile powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus.® For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus.* This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they're the only parts to carry Nissan's factory-backed limited warranty.

Nissan's philosophy toward the environment, "Seeking a symbiosis of people, vehicles and nature," describes our ideal for a sustainable mobile society, now and in the future. We launched the Nissan Green Program with specific objectives to realize this goal, and we are pursuing it energetically. For more information, log on to NissanUSA.com/green

FABRIC SELECTIONS

This brochure is intended for general descriptive and informational purposes only. It is subject to change and does not constitute an offer, representation or warranty (express or implied) by Nissan North America, Inc. Interested parties should confirm the accuracy of any information in this brochure as it relates to a vehicle directly with Nissan North America, Inc., before relying on it to make a purchase decision. Nissan North America, Inc., reserves the right to make changes, at any time, without prior notice, in prices, colors, materials, equipment, specifications, and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, actual vehicle, materials and specifications may vary from this brochure. Some vehicles shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. Specifications, options and accessories may differ in Hawaii, U.S. territories and other countries. For additional information on availability, options or accessories, see your Nissan dealer or contact Nissan North America, Inc. At NissanUSA.com, you'll find virtual product demonstrations, a way to "build your own Nissan," a dealer locator, and more information about key Nissan support services. Or if you'd prefer, call 1-800-NISSAN-3 for answers to specific questions about Rogue or any other Nissan vehicle. The Nissan names, logos, product names, feature names, and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. and/or its North American subsidiaries. **Tread Lightly!® Please. Always wear your seat belt, and please don't drink and drive.** ©2012 Nissan North America, Inc. '13 Rogue. 1313048N-6/12-200M-CGI.

Nissan. Innovation that excites.™

NISSAN ROGUE®

Shouldn't you drive something you love? Absolutely. And that's what inspires our innovation. We look at every part of your drive and ask how can we make this better, smarter and more fun. So when you get in your new Rogue, you'll feel how exciting the answers can be:

A virtual 360° view. The class-exclusive¹ Around View® Monitor is available on the Nissan Rogue, helping to make you an ace at parallel parking.²

On-time arrivals. It's more than just navigation. Available NavTraffic with real-time traffic updates automatically directs you around jams – and gives an estimated time of arrival.^{3,4}

Fun for all seasons. Whether it's snow or a sharp curve, Rogue's available All-Wheel Drive is so intuitive it automatically adjusts to road conditions 30 times faster than you can blink.

Keyless getaway. The available Nissan Intelligent Key® lets you open the door, start the car and drive away – without ever digging for your keys.

And follow Nissan on:

visit NissanUSA.com/rogue

¹Rogue is listed under Ward's Light Vehicle Market Segmentation. Class claim is for 2013 Rogue vs. 2012 Middle Cross/Utility Vehicle Class. ²Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ³Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ⁴SiriusXM Satellite Radio and NavTraffic require subscriptions sold separately after trial period. Subscriptions governed by Customer Agreement at siriusxm.com. Fees and programming subject to change.
