### Comfort at your control

The available Tri-Zone Climate System allows the driver, as well as front and rear passengers, to precisely control their personal comfort, while enjoying uninterrupted leg room.

### A true welcome

An available memory package automatically recalls the preferred positions of the driver seat, power telescoping steering wheel and outside mirrors, moving these features accordingly.

### Sound worthy of its venue

The available 14-speaker Bose® Studio Surround Sound system is optimized specifically for the XTS.

| EXTERIOR

# DISTINCTIVE AND CHISELED LINES MAKE A POINT

Modern elegance and timeless style cannot be ignored. From the striking lines of its steel skin to a powerful stance, the XTS presents a bold presence.

**OFFERED FEATURES:** INNOVATIVE LIGHTING • ENHANCED GRILLE & BODY •  
20" WHEELS

### Shining a light on design details

High-Intensity Discharge (HID) headlamps emit a crisp, white light providing illumination superior to traditional lighting. The available Intellibeam system automatically switches between high and low beams, while available illuminated outside mirrors and welcoming door handles create a beacon as you approach the vehicle.

### Innovation you can see

Intellibeam headlamps automatically turn high beams on or off, according to outside conditions. The system also disengages high beams when approaching headlights or taillights are within range.

### A stunning conclusion

The signature LED taillamps showcase the dramatically sculpted rear profile.

### Style comes full circle

Available 20" wheels make a powerful statement where the XTS meets the road.

| SAFETY

# SAFETY IS A JOURNEY THAT IS NEVER REALLY FINISHED

It is one where Cadillac has traveled a great distance, with a heritage of innovative safety that is directing the way forward. The XTS offers a variety of systems that are at the cutting edge of safety technology.

**OFFERED FEATURES:** SURROUND VISION • SAFETY ALERT SEAT • SIDE BLIND ZONE ALERT • REAR CROSS TRAFFIC ALERT • FORWARD COLLISION ALERT • LANE KEEP ASSIST WITH LANE DEPARTURE WARNING • HEAD-UP DISPLAY • AUTO-DRY BRAKES • FRONT & REAR AUTOMATIC BRAKING

## Surrounded by safety innovation

### FRONT

#### Truly forward thinking

Forward Collision Alert monitors traffic ahead, alerting you if a potential collision is imminent.

#### Windshield wipers and brakes work together

Rainsense Wipers automatically engage when rain is detected, adjusting their speed to the rain's intensity. Whenever wipers are activated, Auto-Dry brakes automatically position the brake pads closer to the rotors to sweep away moisture and improve performance.

### REAR

#### Hindsight is 20/20

When backing out of a parking space, Rear Cross Traffic Alert warns of oncoming traffic to either side of your vehicle.

### SIDE

#### Travel the straight and smart

Lane Keep Assist with Lane Departure Warning uses technology that gently adjusts the steering wheel to help you keep the vehicle within the detected lane markings. With Lane Departure Warning, you're alerted if you drift into another lane without using a signal.

#### All clear

Side Blind Zone Alert monitors your blind spots, so if a vehicle is in the adjacent lane, and you've activated your turn signal, an icon in the side mirror illuminates to alert you.

### INSIDE

#### Gain precious time

Up to certain speeds, Front and Rear Automatic Braking can sense imminent front and rear collisions and automatically engage the brakes, if you have not already done so, helping to reduce the severity of the collision. The system may even help avoid a collision at very low speeds.

#### Safe space

Adaptive Cruise Control uses both radar and cameras to maintain a set distance between you and the vehicle ahead.

#### Strong enough to crumple

The ultra-high-strength-steel safety cage features strategically placed crumple zones that absorb and manage the energy from a collision, helping preserve occupant space.

#### A higher vision of safety

Available Surround Vision provides a bird's-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected on the Cadillac CUE® screen, helps increase your awareness when parking or in Reverse.

#### Danger, detected

Cadillac's patented Safety Alert Seat sends a discreet pulse to the left, right or both sides of the driver's seat, indicating the direction of the threat — left, right or front.

## ENGINES

Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

## TIRE SEALANT AND COMPRESSOR KIT

If your vehicle has a tire sealant and compressor kit, it uses a liquid tire sealant to temporarily seal up to a ¼-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than ¼-inch or a tire that has unseated from the wheel. The sealant can only be used on one tire, one time before its expiration date.

## ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.
