

**MDX**  
INSPIRED BY THE STANDARDS OF MANKIND

## INSPIRED BY THE STANDARDS OF MANKIND

To build one of the world's smartest sport utility vehicles, we pushed ego aside, abandoned the familiar, even the good enough, and reimagined what an automobile should be. And what it should be is an elegant machine purposefully designed to encourage your endeavors.

**04 AN MDX WELCOME**  
Sensing your arrival, the MDX sets the stage and cues the lights.

**THE EXECUTIVE'S CHAIR 06**  
Everything is within reach of your hands, eyes and voice.

**TOUCH-SCREEN INTERFACE 07**  
Access and manage multiple functions.

**08 FRONT-SEAT SETTINGS**  
Available with both heat and ventilation, the multi-adjustable front seats offer lumbar support and two memory settings.

**CENTER CONSOLE 09**  
Like a personal organizer moonlighting as a security guard, it keeps your devices safe and accessible.

**10 SECOND-ROW SEATING**  
Makes "calling shotgun" an obsolete phrase.

**11 SECOND-ROW ENTERTAINMENT**  
Available ultrawide display and compatible with iPod® and Xbox 360.

**THIRD-ROW FUNCTIONALITY 12**  
Now roomier and more accessible than ever.

**13 HIDDEN STORAGE**  
What will you store there?

**14 INTERIOR COLOR SELECTOR**  
Graystone, Eucalyptus Parchment and Ebony. Every one of them exquisite..

**AUDIO SYSTEM 15**  
Music's soul mate.

**AcuraLink® THE NEXT GENERATION 16**  
Stay connected and informed.

**18 FORM AND FUNCTION**  
Beauty and utility can happily coexist.

**JEWEL EYE™ HEADLIGHTS**  
Bright, wide and precisely focused, there is nothing quite like them in the automotive world.

**20 AERODYNAMICALLY INCLINED**  
Style, fuel efficiency and tranquility—courtesy of the wind tunnel.

**EXTERIOR COLOR SELECTOR 21**  
Decisions, decisions, decisions. All of them correct.

**23 QUIET, EXHILARATING RIDE**  
At home on the freeway or a twisting, mountain road, the MDX handles like a sports car with the manners of a luxury sedan.

**3.5L i-VTEC® ENGINE 24**  
290 horsepower, 267 lb-ft of torque (SAE net) and a class-leading EPA Fuel Economy Ratings.

**25 SUPER HANDLING ALL-WHEEL DRIVE™**  
Available high-performance handling in dry conditions and extra confidence in the wet weather.

**DRIVER ASSISTS 26**  
Assistive technology helps see what the driver does not and can also help take corrective action.

**28 ADVANCED SAFETY**  
Next Generation ACE™ construction, a reinforced cabin, active safety systems and more.

**30 ACCESSORIES**  
Make it personal with genuine Acura accessories.

**SPECIFICATIONS 31**  
By the numbers.

**SHOPPING TOOLS 32**  
Explore the MDX, build and price or have a dealer contact you.

By the time you're in your seat, the engine's warmed up, your customized audio, navigation and phone settings are engaged, and you're ready to go.

ENTRY POINT  
TO A WORTHWHILE  
RELATIONSHIP

## COMMAND AND CONTROL

It's a private, first-class cabin reserved for your family, colleagues and, when needed, a few members of your kid's soccer team. With perfectly placed controls and effortlessly viewable monitors, your passengers might respectfully refer to you as Captain.

MDX shown with Advance Package

## STEERING WHEEL

Tri-spoke, leather-wrapped and satisfyingly stocky, the MDX steering wheel feels familiar, like it was designed for your hands alone. No wonder it so easily translates your desires into action.

## STEERING WHEEL CONTROLS

With a few simple movements, you can activate audio options and voice recognition, and more technical systems like available Lane Keeping Assist System (LKAS)<sup>59</sup> and Adaptive Cruise Control (ACC) with low-speed follow<sup>53</sup>. Use the rotary controls to scroll the Multi-Informational Display (MID) or adjust the music volume. Left and right toggles add even more functionality. Your thumbs have rarely wielded greater power.

## COMMAND AND CONTROL

## THE CAPACITY FOR MORE

Because everyone can use a little more personal space.

Raise the tray to uncover hidden storage for a purse and small laptop.

## THE CAPACITY FOR MORE

Because everyone can use a little more personal space.

FIRST-CLASS  
SECOND ROW

There's nothing second-rate about the second row. Available heated seats, an abundance of legroom and topflight entertainment options mean no one will complain about riding back here.

MDX shown with Advance and Entertainment Packages

There's nothing second-rate about the second row. An extended wheelbase provides an abundance of legroom. Beautifully contoured with heating functionality available, no one will complain about riding back here.

## SUNSHADES

---

Slide-and-hook sunshades on both second-row windows mean sunglasses are optional.

## CLIMATE CONTROL

---

Second-row passengers make their own decisions about hot and cold. It's a high-tech version of rolling down the window.

## LIMO MODE

---

Should you find yourself ferrying the star center on the varsity basketball team, an easily accessible lever allows the entire second row to slide back two more inches.

WIDE SCREEN

SPLIT SCREEN

## IT'S SHOWTIME

Put up the sunshades and cue the music. The second row transforms into a home theater in motion. Complete with wireless headphones and compatible with most electronics—from smartphones and video cameras to HDMI devices and the Xbox 360—this available entertainment system removes “Are we there yet?” from the lexicon.

A 16.2" ultrawide display—part of the Advance and Entertainment Packages—puts feature films front and center.

## PERSISTANCE SHAPES OUTCOMES

Next door to MDX development headquarters in Raymond, OH, is our new state-of-the-art wind tunnel. Hundreds of tests allowed Acura engineers to exquisitely manage airflow over, under and through the MDX. Aero-sculpted contours, exceptional fuel efficiency and a much quieter ride are the result.

OVER AND AROUND

UNDER AND OUT

THROUGH THE ENGINE

## OVER AND AROUND

close

In addition to informing the uncluttered body shape and arcing rear roofline, the extensive wind tunnel testing helped decrease frontal area by 2% and increase aerodynamic efficiency by 16% compared to the prior generation. That's best in class. Even the side mirrors were tweaked to maximize efficiency.

THROUGH THE ENGINE

## PERSISTANCE SHAPES OUTCOMES

Next door to MDX development headquarters in Raymond, OH, is our new state-of-the-art wind tunnel. Hundreds of tests allowed Acura engineers to exquisitely manage airflow over, under and through the MDX. Aero-sculpted contours, exceptional fuel efficiency and a much quieter ride are the result.

## UNDER AND OUT

close

Air passing under a car is just as important as air flowing over the car. Ask any racing aerodynamicist. To ensure air is not trapped underneath creating turbulence, the MDX has a system of channels that allows air to pass smoothly under the vehicle and out the back.

QUIET RIDE

PRECISION HANDLING

# IN DEFENSE OF PLAYING QUIETLY

close

## ACOUSTIC MATERIALS

Noise-dampening materials are found not only in the roof and body panels, but also in the wheel wells, cargo floor and inner fenders.

## TRIPLE DOOR SEALS

Three levels of defense—starting with seals between the door and fender and ending with seals between the door and interior—keep wind at bay.

## FREQUENCY CANCELLATION

The wheels, for example, were stiffened to create a higher frequency than the tires. The same principle was applied to the body panels and subframe.

## ACOUSTIC GLASS

The MDX windshield and front side windows are made of acoustic glass—a sound-canceling laminate sandwiched between two other pieces of glass.

QUIET RIDE

PRECISION HANDLING

# EXHILARATION NEEDN'T BE RESERVED FOR SPORTS CARS

HOW IT WORKS

Compared to the prior generation, a new chassis and redesigned rear suspension make one of the world's best-handling luxury SUVs perform even better. Balanced, poised (and incredibly fun to drive), the MDX feels solidly planted in every driving environment.

QUIET RIDE

PRECISION HANDLING

# EXHILARATION NEEDN'T BE RESERVED FOR SPORTS CARS

close

## SUSPENSION

The mounting rigidity of the suspension and rear suspension geometry inspire confidence in every driver, helping maintain vehicle composure even during hard cornering.

## DAMPERS

The Amplitude Reactive Damper serves a dual purpose: A soft spring smoothes out small pavement irregularities like raised lane markers, while a firmer spring minimizes body movement.

## CHASSIS

Everything about refined performance starts with the stiff, lighter chassis. It increases ride comfort, reduces road noise and improves steering precision.

## NÜRBURGRING

Trips to Germany's storied, challenging Nürburgring racetrack pushed MDX to the limit—and shaved eight seconds off the previous MDX lap record.

## THE BALANCE OF POWER

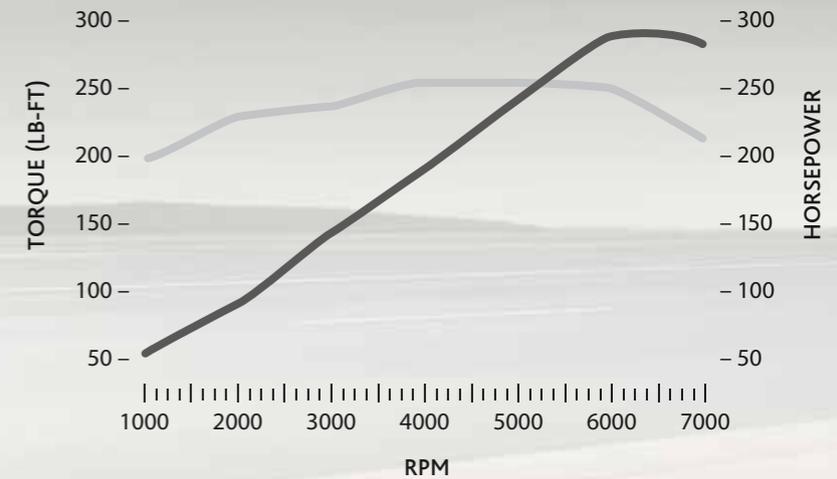

An automobile's internal combustion engine is a work of art. It captures an explosion and then uses the power for good. In the case of the MDX, it is particularly good, as in class-leading-mpg-rating good<sup>38</sup>.

ENGINE

FUEL EFFICIENCY

290<sup>hp\*</sup> | 267<sup>lb-ft torque\*</sup>

\* SAE Net

# THE BALANCE OF POWER

close

## 3.5L I-VTEC® V-6

The powerplant is a beautiful fusion of strength and efficiency. 290 horsepower paired with a perfectly executed 9-Speed Sequential SportShift transmission, you'll see why we chose to offer the MDX with paddle shifters.

### DIRECT GAS INJECTION

Consider it fuel injection perfected. Direct Gas Injection sends fuel directly into the cylinder via a multi-hole injector. The process not only increases power, but efficiency as well, allowing higher compression and the combustion of amore precise fuel/air mixture.

### I-VTEC

## THE BALANCE OF POWER

An automobile's internal combustion engine is a work of art. It captures an explosion and then uses the power for good. In the case of the MDX, it is particularly good, as in class-leading-mpg-rating good<sup>38</sup>.

#### DIRECT GAS INJECTION

#### I-VTEC

Above approximately 4,500 rpm, Intelligent Variable Timing and Lift Control (i-VTEC®) advances valve timing to increase power. The air intake valves open a little deeper and stay open a little longer, providing more airflow. Result? More horsepower, particularly enjoyable using the paddle shifters.

## VARIABLE CYLINDER MANAGEMENT

## TWO-WHEEL DRIVE

Available Super Handling All-Wheel Drive™ (SH-AWD®) delivers precise handling and instills great confidence when navigating through rain and snow. But what if you live in the Sun Belt, where inclement weather is less common? This is the first MDX to be offered with two-wheel drive—a platform that increases fuel efficiency and decreases starting price.

# AS WITH MOST GREAT PRODUCTIONS, THE IMPORTANT WORK OFTEN HAPPENS BEHIND THE SCENES

It does much, so you can do less. Advanced engineering on the MDX helps make you a better driver. And most of the time, you won't even know it's happening.

## SUPER HANDLING ALL-WHEEL DRIVE

Available Super Handling All-Wheel Drive™ (SH-AWD®) is designed to enhance high performance dry-road handling while providing the same all-weather advantages of conventional all-wheel drive.

## AGILE HANDLING ASSIST

## INTEGRATED DYNAMIC SYSTEM

## AN ENLIGHTENED PERSON KNOWS TEAMWORK IS INDISPENSABLE

The MDX inspires confidence by reassuring the driver, “You’re not in this alone.” State-of-the-art technology, including multiple cameras and available radar systems, helps track events unfolding around you. When something out of the ordinary occurs, the MDX can warn you and even take corrective action.

### LANE KEEPING ASSIST SYSTEM

Momentarily distracted, you begin to drift out of your lane. It happens to every driver occasionally. The available Lane Keeping Assist System (LKAS)<sup>59</sup> can help steer you back into your detected lane.

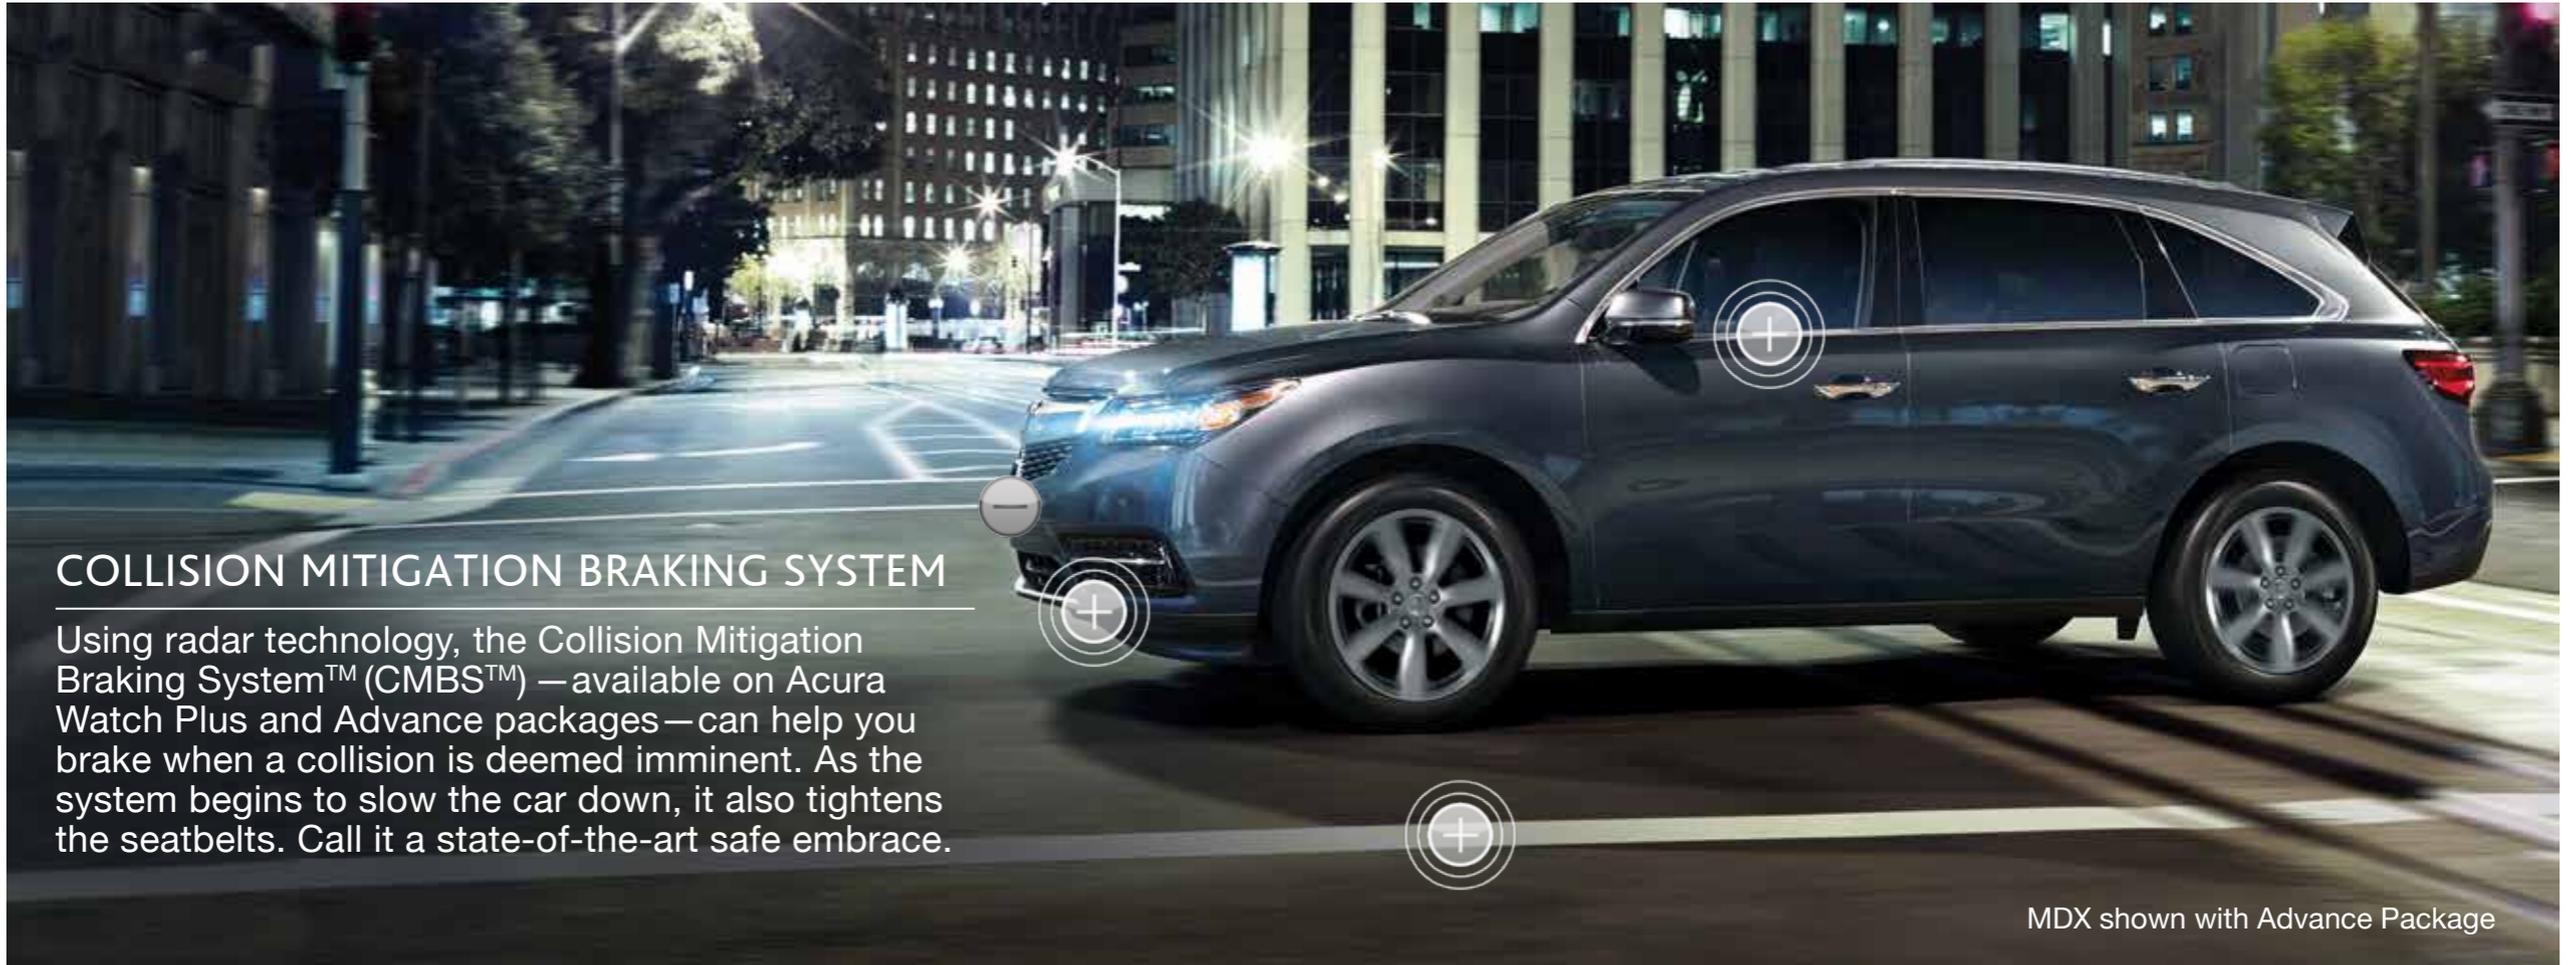

MDX shown with Advance Package

## AN ENLIGHTENED DRIVER WELCOMES THE ASSISTANCE

### BLIND SPOT INFORMATION SYSTEM

With the Technology Package and Advance Package, radar units on both rear quarter panels monitor blind spot areas. They activate a warning light near the side mirror when a vehicle is detected. If the turn signal is engaged with a vehicle detected in the blind spot, the light flashes and an audible warning sounds.

## COLLISION MITIGATION BRAKING SYSTEM

Using radar technology, the Collision Mitigation Braking System™ (CMBS™) — available on Acura Watch Plus and Advance packages — can help you brake when a collision is deemed imminent. As the system begins to slow the car down, it also tightens the seatbelts. Call it a state-of-the-art safe embrace.

MDX shown with Advance Package

## AN ENLIGHTENED DRIVER WELCOMES THE ASSISTANCE

### BLIND SPOT INFORMATION SYSTEM

With the Technology Package and Advance Package, radar units on both rear quarter panels monitor blind spot areas. They activate a warning light near the side mirror when a vehicle is detected. If the turn signal is engaged with a vehicle detected in the blind spot, the light flashes and an audible warning sounds.

## FORWARD COLLISION WARNING

Available Forward Collision Warning system (FCW)<sup>55</sup> monitors the relative speed of cars detected ahead. When a warning beep sounds and an amber “BRAKE” image projects on the windshield and MID, the system has detected a slower moving—or stopped—vehicle ahead. Only Acura makes a backseat driver a welcome companion.

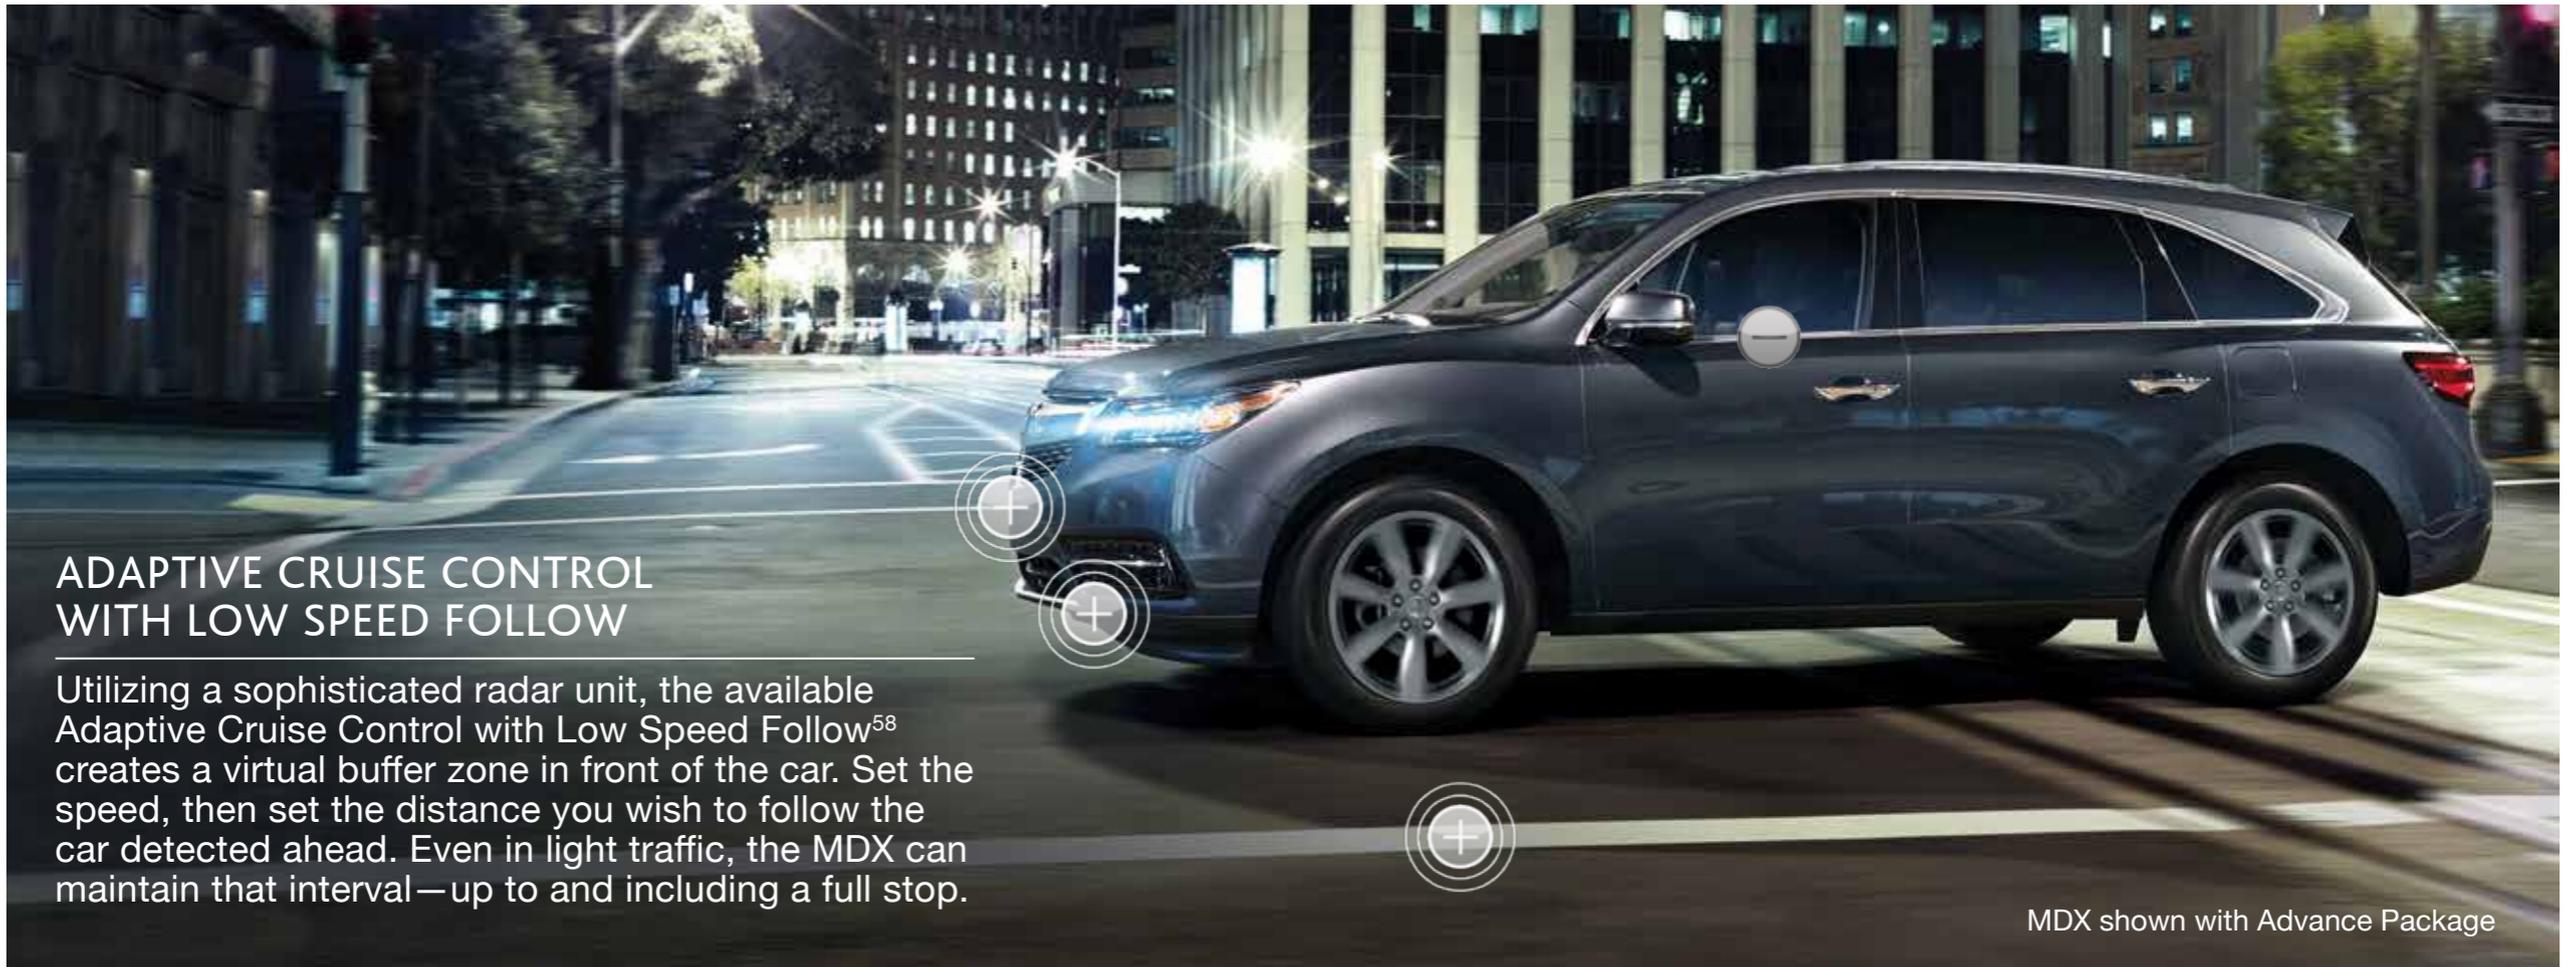

MDX shown with Advance Package

## AN ENLIGHTENED DRIVER WELCOMES THE ASSISTANCE

### BLIND SPOT INFORMATION SYSTEM

With the Technology Package and Advance Package, radar units on both rear quarter panels monitor blind spot areas. They activate a warning light near the side mirror when a vehicle is detected. If the turn signal is engaged with a vehicle detected in the blind spot, the light flashes and an audible warning sounds.

## ADAPTIVE CRUISE CONTROL WITH LOW SPEED FOLLOW

Utilizing a sophisticated radar unit, the available Adaptive Cruise Control with Low Speed Follow<sup>58</sup> creates a virtual buffer zone in front of the car. Set the speed, then set the distance you wish to follow the car detected ahead. Even in light traffic, the MDX can maintain that interval—up to and including a full stop.

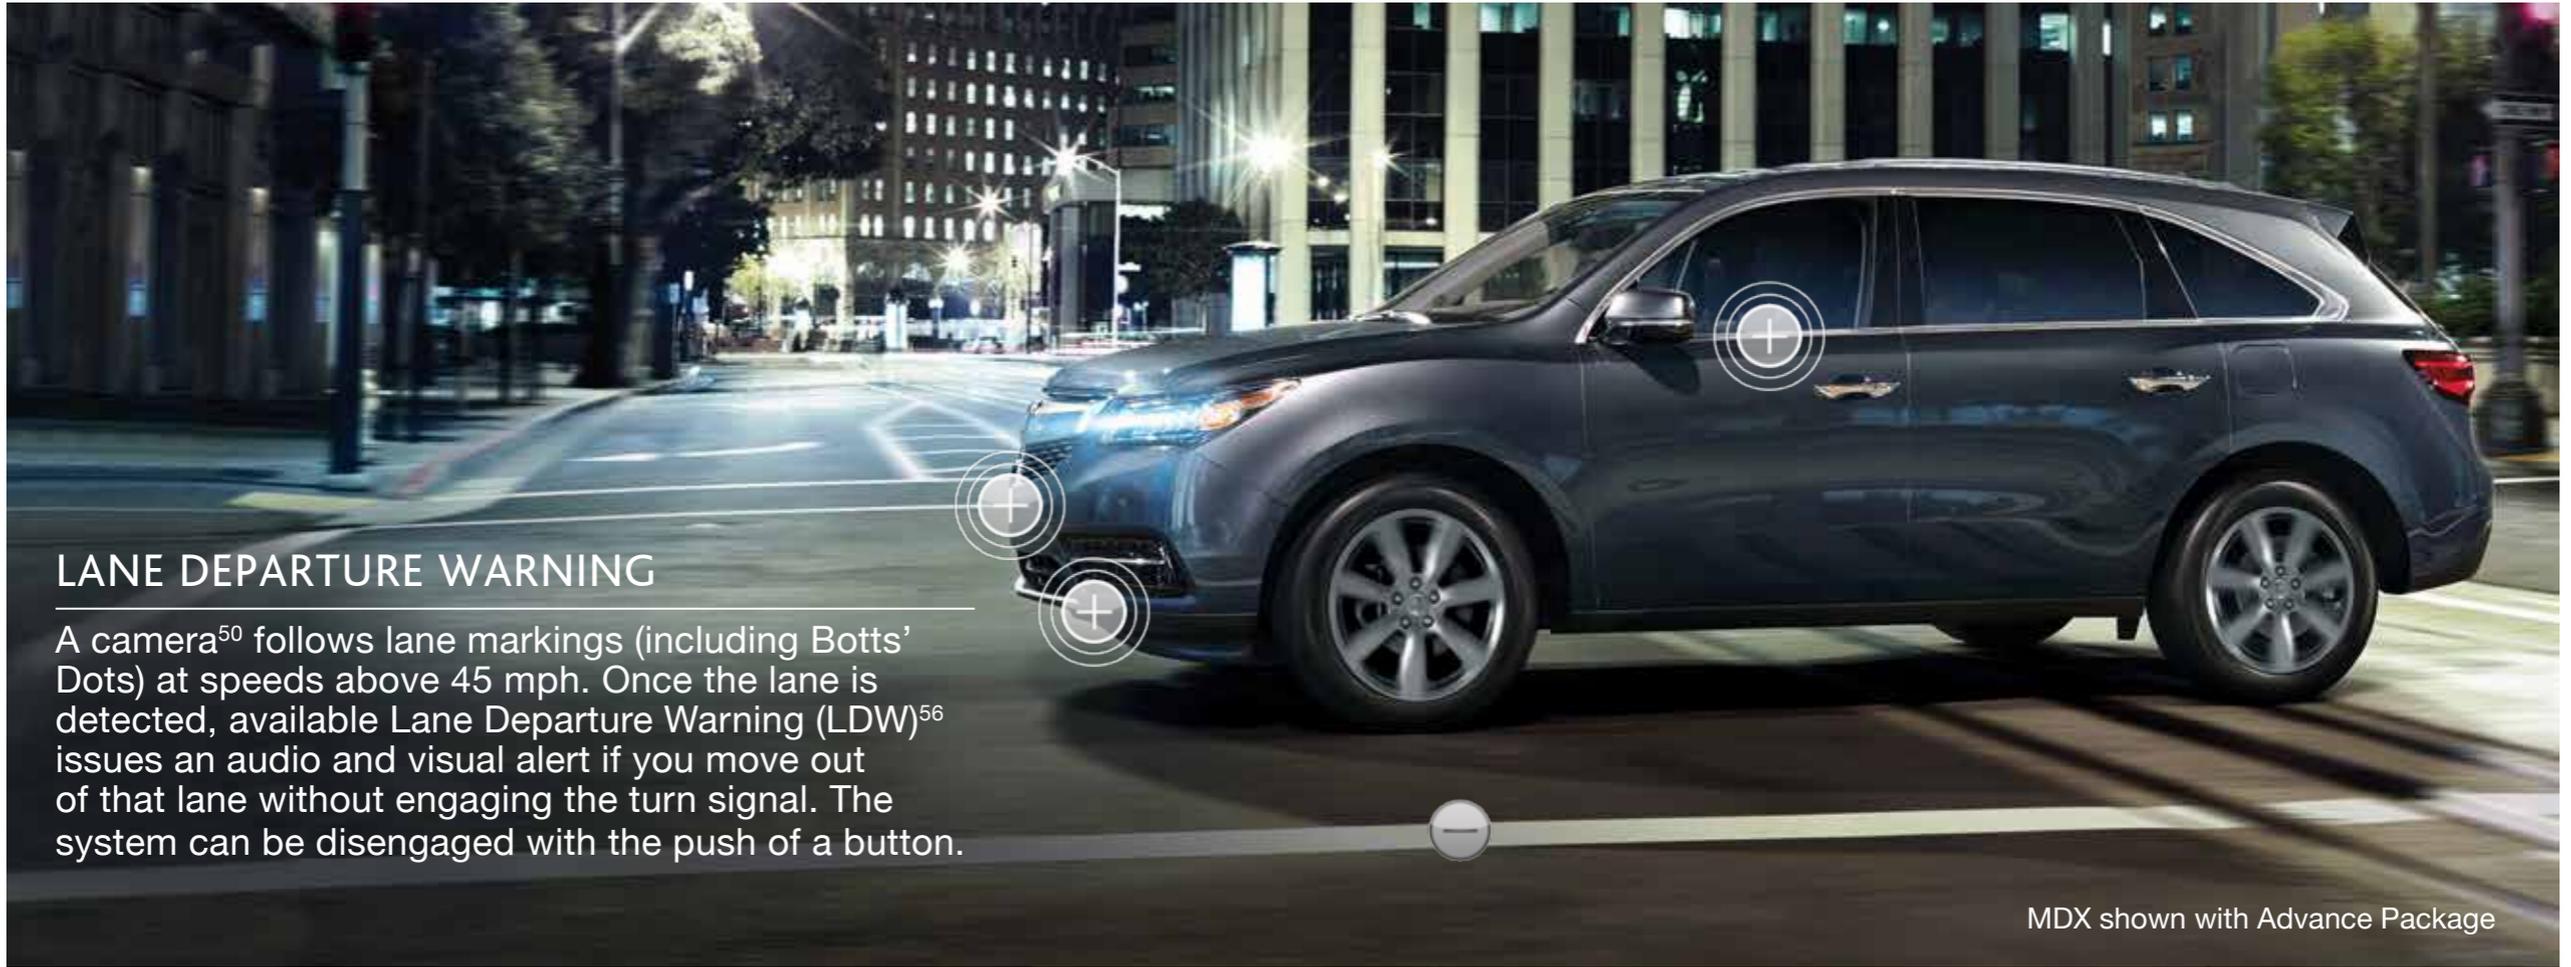

MDX shown with Advance Package

## AN ENLIGHTENED DRIVER WELCOMES THE ASSISTANCE

### BLIND SPOT INFORMATION SYSTEM

With the Technology Package and Advance Package, radar units on both rear quarter panels monitor blind spot areas. They activate a warning light near the side mirror when a vehicle is detected. If the turn signal is engaged with a vehicle detected in the blind spot, the light flashes and an audible warning sounds.

## LANE DEPARTURE WARNING

A camera<sup>50</sup> follows lane markings (including Botts' Dots) at speeds above 45 mph. Once the lane is detected, available Lane Departure Warning (LDW)<sup>56</sup> issues an audio and visual alert if you move out of that lane without engaging the turn signal. The system can be disengaged with the push of a button.
