

4Runner

2014

Toughness unleashed. The legend lives on.

When all the other SUVs went soft, the new 2014 Toyota 4Runner stayed tough. With its ferocious beast of a body-on-frame, it's the perfect companion to the brave souls who venture into the wild. Designed to feel comfortable no matter how rugged things are outside, the meaning of "point of no return" vanishes when you're in a 4Runner. This is a new opportunity to go not where the road lets us, but where our hearts want to go.

Limited 4x4 shown in Blizzard Pearl¹ with available automatic running boards. SR5 4x2 shown in Magnetic Gray Metallic. Trail shown in Barcelona Red Metallic with available rigid running boards.
¹ Extra-cost color.

Just add adventure; getting there is not a problem.

Where others think they've gone too far, the journey for the 2014 4Runner just begins. Every inch has been built with off-road ability in mind. Underneath the aggressive exterior and striking new front end lies a reinforced body-on-frame construction. Inside, the new Entune™ Audio system and a spacious interior keep everyone feeling comfortable, no matter how rugged it is outside. And a heritage of over 25 years of conquering the unexplored is a testament to 4Runner's reliability, on and off the road. The road may have ended, but our trip has just begun. Let's go places.

*"4Runner is all packed up,
we've got our coffee and
our adventure planned out.
Let's do this."*

Trail shown in Barcelona Red Metallic with available rigid running boards. Limited 4x4 shown in Blizzard Pearl¹ with available automatic running boards.
1. Extra-cost color.

The last of its kind. True to heritage body-on-frame construction.

4Runner incorporates rugged body-on-frame construction and is equipped with skid plates to help protect the engine, front suspension and fuel tank (and the transfer case on 4x4 models). Featuring independent double-wishbone front/4-link and coil-spring rear suspension, 4Runner's chassis is a time-tested combination that's tough enough for the trail, smooth enough for the city.

APPROACH WITH CONFIDENCE

4Runner encourages you to take on the toughest trails. Up to 9.6 inches of ground clearance, an approach angle on 4Runner Trail of 33 degrees and a departure angle of 26 degrees help keep the adventure going.

LEVER-TYPE TRANSFER CASE

4WD vehicles require a system to transfer power from the transmission to all four wheels. 4Runner Trail has a lever-type transfer case that allows you to easily switch to low range to help clear the roughest challenges.

DIAL-TYPE TRANSFER CASE

With 4Runner's available dial-type transfer case on SR5 and Limited, you can switch into low range for extreme low-speed off-road conditions with the turn of a dial. Taking on hard conditions is that easy.

Trail shown in Barcelona Red Metallic with available rigid running boards.

Out here, lesser vehicles are an endangered species.

Nature is full of unexpected surprises, and only those who anticipate them are ready to endure them. 4Runner is built to conquer the toughest of these. Available Kinetic Dynamic Suspension System (KDSS) allows each wheel to respond to the terrain separately. Crawl Control (CRAWL)¹ assists the driver in determining an optimal combination of low speed and traction. Hill Start and Downhill Assist Control (HAC/DAC)^{2,3} assist the driver with braking on uphill and rough downhill situations. Thanks to these, even the meanest obstacles are just another story to laugh over at the campfire.

MULTI-TERRAIN SELECT

Available Multi-terrain Select allows you to choose from four modes that will regulate wheelspin by adjusting the engine throttle setting and braking pressure to provide you with maximum traction on various off-road situations.

4,700-LB. TOWING CAPACITY⁴ WITH TOW HITCH

4Runner's powerful engine lets you tow up to 4,700 lbs. so your toys can get to all the places you've dreamed of going. 4Runner is also SAE J2807-compliant, the standard for tow ratings set by the Society of Automotive Engineers, SAE.

LOCKING REAR DIFFERENTIAL

To help you negotiate uncertain terrain, 4Runner Trail has an electronically controlled locking rear differential that distributes engine power evenly to both rear wheels, so they move at the same speed, even if one is off the ground. It also ensures a predictable output to help you maintain a controlled pace over obstacles.

Take the reins, set the mood, choose a destination, and charge on.

A redesigned interior trim and new panel shape give you total control of 4Runner. Traction, power, temperature, available navigation¹ and a lot more are just a turn of a knob, touch on a screen or voice-command away.

ENTUNE™ PREMIUM AUDIO WITH NAVIGATION AND APP SUITE²

No adventure is complete without proper navigation, music and connectivity. Available Entune™ Premium Audio with Navigation and App Suite brings everything together in one embedded system that includes features such as a 6.1-in. high-resolution touch-screen display and integrated backup camera³ display, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM Radio⁴ with 90-day All Access trial, auxiliary audio jack, USB port⁵ with iPod[®] connectivity and control, hands-free phone capability, phone book access, advanced voice recognition⁷ and music streaming via Bluetooth[®] wireless technology.

15-SPEAKER JBL® SYSTEM

Every journey has an iconic playlist. Even when you're back in the city, a song can take you back to the best moments of your trip. To ensure you don't miss a note of your music's soaring highs or thundering lows, the Limited boasts an amazing 15 speakers, including a subwoofer. It also features music streaming via Bluetooth[®] wireless technology, SiriusXM Radio capability, CD and MP3/WMA capability, USB port and auxiliary audio jack.

SMART KEY SYSTEM⁸

Getting the trip started is as easy as clearing a muddy terrain on 4Runner. When you approach the Limited with the Smart Key in your pocket, the interior illuminates automatically, the doors and rear liftgate open with the touch of a handle, and the engine starts with a push of a button. That easy.

Limited 4x4 interior shown in Redwood leather with Entune™ Premium JBL® Audio with Navigation¹ and App Suite².
1. See footnote 13 in Disclosures section. 2. See footnote 15 in Disclosures section.

You've got freedom to roam. Outside and inside.

Exploring the vast unknown requires a great amount of space for company or cargo. 4Runner's roomy interior seats up to seven passengers and has plenty of features to keep everyone comfortable no matter how long the journey, like front and rear 12V power outlets for charging personal electronics, a variety of storage options, and available power-adjustable driver's and front passenger seats.

SLIDING REAR CARGO DECK

Get quick access to your gear, or the cooler. The available sliding rear cargo deck can support up to 440 lbs.¹ and slides for an easy reach to your gear, or a quick setup before heading to the great outdoors.

POWER REAR GLASS

Grab anything from the cargo area in a snap. Instead of opening the rear liftgate every time you need something, just lower the power rear glass with a push of a button or insert the key in the rear hatch and grab it.

40/20/40 FOLD-FLAT SECOND-ROW SEAT

Every adventure has its own demands. 4Runner's split and fold-flat versatility lets you make room for everything you need by folding one or both seats down to accommodate up to 88 cubic feet of cargo. When not folded flat, the seatbacks recline for added passenger comfort.

Trail shown in Barcelona Red Metallic with available rigid running boards and available sliding rear cargo deck.

The peace of mind you need to enjoy the peace of nature.

While your many adventures have earned you a bold reputation, you're not a danger seeker. Neither are we. That's why we've equipped the 2014 4Runner with an array of active and passive safety features. The standard Star Safety System™ is designed to help you avoid trouble. Our rigorous crash testing has helped us develop a comprehensive occupant protection system that features eight standard airbags,¹ should trouble prove unavoidable.

8 airbags

A driver and front passenger Advanced Airbag System, driver and front passenger TAP (Thorax, Abdomen, Pelvis) front seat-mounted side airbags, driver and front passenger knee airbags and all-row (third-row airbags on models so equipped) Roll-sensing Side Curtain Airbags (RSCA) with cutoff switch.² It's all part of a system designed to help keep you safe.

INTEGRATED BACKUP CAMERA³ DISPLAY

When backing up, the area visible to the camera is displayed on the touch-screen display. 4Runner's available front and rear parking assist sonar beeps to tell you how close the bumpers are from an object. The faster it beeps, the closer it is.

TIRE PRESSURE MONITOR SYSTEM⁴

Proper tire pressure is important not only for good handling and fuel economy, but for your safety. 4Runner's standard Tire Pressure Monitor System (TPMS) evaluates the pressure of the tires and issues a warning if the pressure becomes critically low.

DRIVER AND FRONT PASSENGER ACTIVE HEADRESTS⁵

Designed to optimize headrest position during certain types of rear-end collisions, driver and front passenger active headrests move slightly up and forward, helping to reduce neck injuries.

DISCLOSURES

1. Torsen® is a registered trademark of Zexel Torsen, Inc. 2. The Toyota 4Runner is designed to meet most off-road driving requirements, but off-roading is inherently dangerous. Abusive use may result in bodily harm or vehicle damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. 3. Cargo and load capacity limited by weight and distribution. 4. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with new SAE J2807 method. 5. 2014 EPA-estimated mileage. Actual mileage will vary. 6. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. 7. Entune™ is a trademark of Toyota Motor Corporation. Always drive safely, obey traffic laws and focus on the road while driving. Services vary by phone/carrier. Functionality depends on many factors. Services subject to change. For enrollment and more details, see toyota.com/entune. 8. May not be compatible with all mobile phones, MP3/WMA players and like models. 9. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved. 10. Advanced voice recognition capabilities vary by head unit. 11. The *Bluetooth®* word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. Other trademarks and trade names are those of their respective owners. The phones on this site claim to support *Bluetooth®* wireless technology audio streaming. Toyota does not endorse a particular phone or substantiate the *Bluetooth®* wireless technology audio streaming capability of the phones listed. Performance will vary based on phone software version, coverage and your wireless carrier. 12. SiriusXM services require a subscription after 90-day trial period. **Subscriptions governed by SiriusXM Customer Agreement available at www.siriusxm.com. If you decide to continue your SiriusXM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 13. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. Availability and accuracy of the information provided by the Navigation system or any HD services mentioned are dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Navigation updates are available at an additional cost from your Toyota dealer. See your *Navigation System Owner's Manual* or Toyota dealer for details. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 14. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 15. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. Select Entune® App Suite apps use a large amount of data and you are responsible for all data charges. Apps and services vary by phone and carrier; not all services available all the time and in all locations, and are subject to change. Apps identified by "TM" or "®" are trademarks or registered trademarks of their respective companies and cannot be used without permission. See toyota.com/entune for the latest information regarding registration, apps and services, and other details. 16. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 17. HomeLink® is a registered trademark of Johnson Controls, Inc. 18. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 19. Smart Stop Technology® operates only in the event of certain simultaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. 20. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your *Owner's Manual* for further information/warnings. 21. Do not use rearward-facing child seats in any front passenger seat without switching off the passenger-side airbag. Please see your *Owner's Manual* for details. 22. Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 23. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. 24. Available on select Toyota models. Contact with the Safety Connect® response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency service support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect®-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 25. HAC is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 26. DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 27. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Toyota dealer can help, or you can find a qualified independent locksmith to replace your key or perform high-security key services at www.aloa.org 28. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Warranty and Maintenance Guide* or see your Toyota dealer.

TOYOTA FINANCIAL SERVICES

Toyota Rewards Visa™

Toyota helps you get more out of every dollar you spend. By rewarding you for every purchase you make, the Toyota Rewards Visa® adds even more value to doing the things you love.

Turn everything you buy into points to redeem toward parts, accessories or an eligible vehicle purchase or lease at your Toyota dealer. Earn 5 points for every \$1 spent at participating Toyota dealers and 1 point for every \$1 spent everywhere else Visa is accepted.*

Visit www.toyotarewardsvisa.com for complete details.

Toyota Financial Services (TFS)† is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points earned are based on net purchases. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The creditor and issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank. Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

†Toyota Financial Services is a service mark for Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc.

Toyota 4Runner is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receivers/ball mount kits are not intended to provide crash protection. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.
