In your Trail Rated Jeep® Wrangler, you're in command of exclusive, authentic four-wheel-drive (4WD) capability. Confidently move forward to see what the world is really made of.

JEEP® BRAND 4WD SYSTEMS

COMMAND-TRAC® 4x4 SYSTEM For off-road and all-weather capability, this part-time, shift-on-the-fly system divides torque 50/50 between front and rear axles for tough traction. The NV241 GII transfer case shifts smoothly from 2WD to 4WD at speeds up to 45 mph. For serious rock-crawling, its 2.72:1 low range ensures confidence. Standard on Sport and Sahara.®

SELEC-TRAC® FULL-TIME 4x4 SYSTEM This proven Jeep® Brand 4WD system, with its active 4WD transfer case, does all the thinking so you can concentrate on the scenery. Selec-Trac® analyzes the situation for you and sends torque to the wheels with the most grip. The system provides continuous, optimum traction that effortlessly conquers snow, ice, rocks, mud and everything in between. The system's Smart Lock maintains constant 4WD action when you take to the trail or face challenging road conditions. Available on Sahara.

ROCK-TRAC® 4x4 SYSTEM Rubicon® rides with this extreme 4WD system. Its 4:1 low-gear ratio allows Wrangler Rubicon to crawl at a low speed for greater control and increases the amount of torque available at the wheels. Standard on Rubicon.

HILL START ASSIST (HSA) AND HILL DESCENT CONTROL (HDC) HSA works to prevent Wrangler from rolling when starting on an uphill gradient. HDC is packaged with the 8-speed automatic transmission, helping Wrangler navigate steep declines at a steady speed. Available.

STAND OUT WHEN YOU GO OUT

3.6L PENTASTAR® V6 ENGINE This proven road star's performance employs friction-reducing applications that ensure its smooth operation. Fuel-economy improvements of nearly 11 percent compared to the previous Pentastar® generation add even more value. The engine's increased efficiencies are helped by the addition of Engine Stop/Start (ESS) technology while remaining a brawny performer, boasting 285 horsepower and 260 lb-ft of torque. Available with a 6-speed manual or 8-speed automatic transmission.

2.0L TURBO I-4 ENGINE Performs with V6 muscle, yet sips fuel as an I-4 should. The 2.0L Turbo I-4 engine offers fuel-saving/energy-generating functions that include Auto-Stop/Start, electric power assist, extended fuel shutoff, transmission shift management, intelligent battery charging and regenerative braking. Direct injection boosts power while reducing emissions, and eTorque technology provides a smooth engine stop/start experience, along with electric torque assistance. With its standard match to the 8-speed transmission, you'll enjoy strong takeoffs and smooth highway coasting.

ENGINE STOP/START (ESS) TECHNOLOGY

Helps reduce CO₂ emissions and improve efficiency by using a dual-battery system and sophisticated controls to reduce fuel flow and turn off the engine when the vehicle brakes to a stop. When the brake pedal is released, the engine seamlessly restarts and the transmission engages. Standard on automatic transmissions.

eTORQUE TECHNOLOGY By including this efficient feature, the 2.0L engine offers fuel-saving/energy-generating functions that include auto stop/start, electric power assist, extended fuel shutoff, transmission shift management, intelligent battery charging and regenerative braking. Available.

8-SPEED AUTOMATIC TRANSMISSION With smooth, quick efficiency, this transmission provides additional gears with no gain in weight, enhanced acceleration with reduced fuel consumption, and increased torque with added strength to pull.

6-SPEED MANUAL TRANSMISSION For those who prefer to really put themselves into every shift, this one's for you. It hands you low 1st and Reverse gears, which are great for off-roading, with a vent tube that can be moved to help safely traverse higher water fording⁹ levels. It comes standard, matched to either a Command-Trac® 4WD system on Sport and Sahara® or paired with the Rock-Trac® 4WD system on Rubicon®.

PULLING POWER Wrangler Unlimited can confidently tow up to 3,500 lb when properly equipped with the available Trailer Tow and HD Electrical Group. Trailer Sway Control¹⁰ helps keep you and the toys you tow safely on course. Wrangler is also ideal for towing behind an RV, so you can bring open-air off-road capability wherever you go.
