The latest Land Rover LR2. Its purposeful stance is sporty and sophisticated. With modern, contemporary looks and sophisticated wheel styles and colors, Land Rover LR2 is ready and prepared to tackle whatever life throws at it.

Its distinctive exterior with its sleek lines has an immediate sense of purpose. Inside there's a superb choice of options and materials that add even more excitement to one of Land Rover's most fuel-efficient vehicles. The style and engineering of the Land Rover LR2, deliver refinement, performance and economy. It's smart and strong, compact and spacious. Comfort both on-road and off-road. Pure, state-of-the-art Land Rover.

Land Rover LR2 is designed to put the driver in control. Land Rover's renowned command driving position is an intrinsic part of the vehicle's design.

The LR2 features Land Rover's legendary command driving position which brings a sense of control over the road and helps with maneuvering and parking in urban environments. The driver's seat is also optimized for comfort and support with six-way adjustment as standard (electric operation with three memory settings is available) and the steering wheel can be adjusted for recline and reach ensuring that you can set the position that is right for you.

Vehicle exterior color shown in Ipanema Sand.
Interior image shows optional HSE LUX Pack in Ivory Windsor Leather, optional navigation system and optional Grand Black Lacquer Finish.

High levels of torque for lively acceleration and long-distance cruising.

The acclaimed 3.2 liter straight-six in-line engine, which employs advanced technologies, including Cam Profile Switching and Variable Valve Timing for more power, a better spread of torque and more efficiency. The standard six-speed automatic transmission comes with CommandShift® which allows the driver to make manual sequential changes. Sport mode offers an even livelier performance.

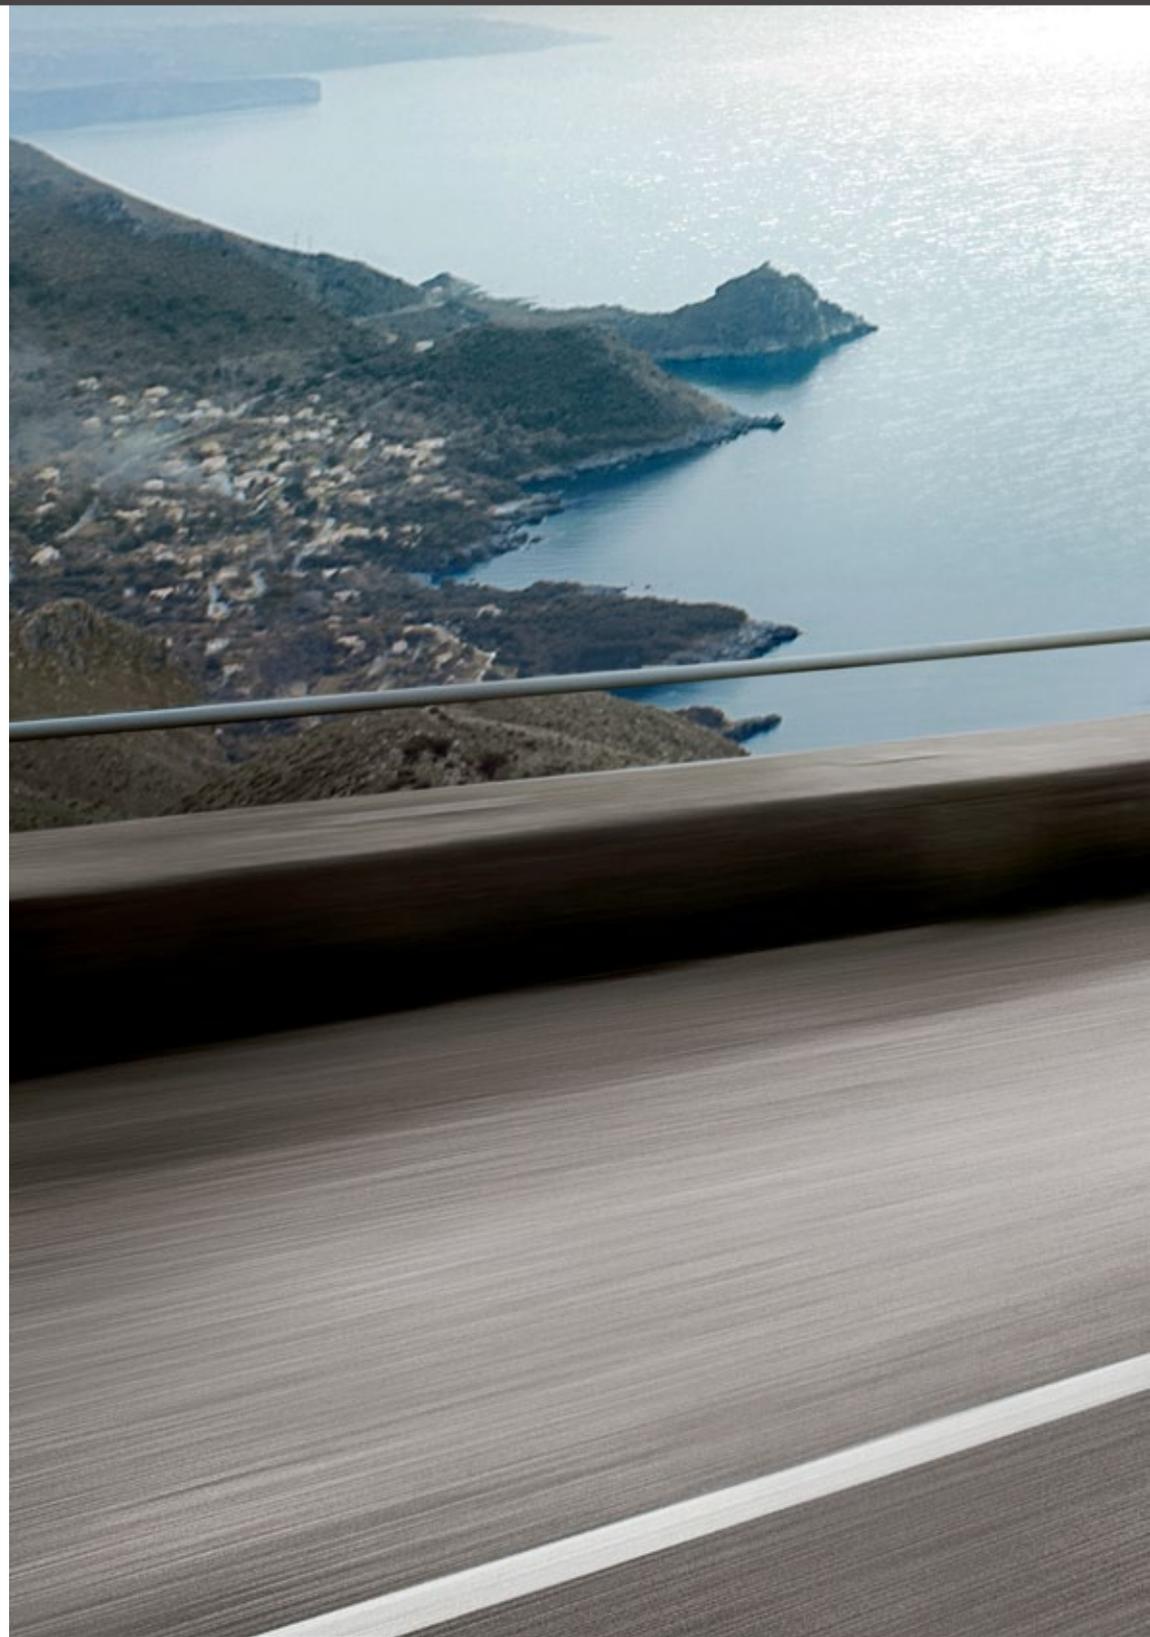

Every Land Rover LR2 benefits from an Intelligent Power System Management (IPSM) which includes Smart Regenerative Charging. This recovers kinetic energy when the vehicle slows or brakes and charges the battery when it is more economical to do so, instead of consuming fuel by charging during acceleration. IPSM is a direct result of Land Rover's e_TERRAIN® TECHNOLOGIES programme which strives to provide a continual improvement in the efficiency of the engineering in every vehicle.

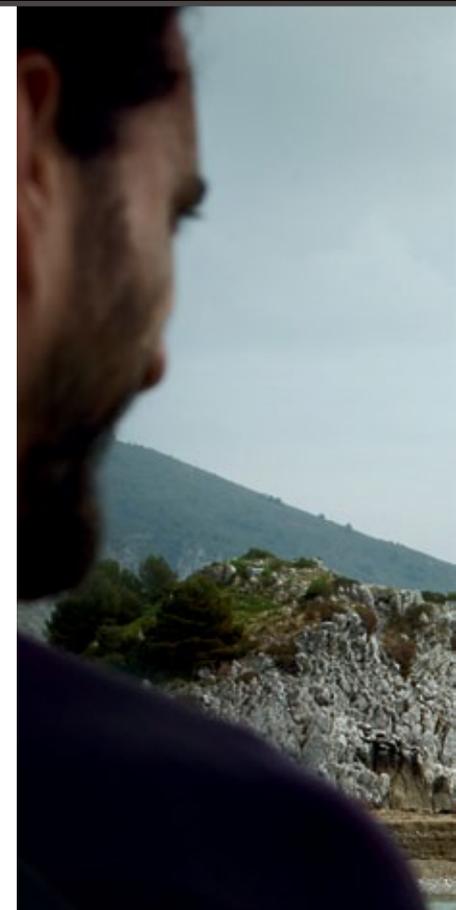

The refinement you expect from a premium vehicle. The perfect balance between ride and handling, but in a premium compact all-terrain vehicle. It makes driving Land Rover LR2 a pleasure, whether it's on-road or off-road.

Independent suspension with long wheel travel, coupled with an exceptionally stiff body structure, delivers sure-footed composure and agility as well as outstanding ride comfort. From the smoothest roads, to more extreme rough surfaces and poor weather conditions, the Land Rover LR2 delivers a sense of confidence and security.

Vehicle exterior color shown in Ipanema Sand.

Land Rover LR2 is ready to go where you want, when you want. That's because it's ready to take on tough terrains and conditions with long-established Land Rover qualities such as excellent entry/departure angles and outstanding ground clearance as well as taking full advantage of the most modern off-road driving aids.

On steep or slippery descents, the latest generation Hill Descent Control (HDC®) technology improves control by engaging smoothly and easily as soon as the foot brake is released. Land Rover's Gradient Release Control helps ensure smooth hill starts whether ascending or descending.

Control on-road and off-road. Using any one of four different settings, Land Rover's unique Terrain Response® system maximizes traction across a wide variety of surfaces and different weather through the vehicle's electronic management systems and traction aids.

This exclusive capability optimizes driveability and comfort. Choose your setting – general driving, grass/gravel/snow, mud and ruts, or sand – which can be selected on the move via a convenient rotary dial located in front of the gear selector.

General Driving – tuned to give good vehicle dynamics in normal on-road driving and across a wide range of light off-road conditions.

Mud and Ruts – appropriate on unsurfaced tracks with ruts or soft, wet ground where some degree of wheel spin is important in order to maintain vehicle momentum.

Grass/Gravel/Snow – this setting maximizes available traction and control on firm, but slippery, surfaces, such as wet leaves and grass, gravel or hard-packed snow and ice.

Sand – provides momentum in dry, soft sand, with the powertrain and traction control systems adapting constantly to the terrain.

TERRAIN RESPONSE® is as useful on-road as it is off-road. It actually adds to the on-road capabilities of Land Rover LR2, allowing you to maximize your vehicle's potential to go further and see more – all with outstanding control.

Vehicle exterior color shown in Ipanema Sand.

These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

ENGINE

In Land Rover LR2 everything is within easy reach. Interior aesthetics are integrated, with a choice of three trim finishers on the fascia, including an optional Grand Black Lacquer Finish, which comes with matching steering wheel finishers.

The instrument pack with its clear, contemporary graphics provides key information at a glance, while steering wheel mounted controls are at your fingertips for ultimate ease of use. Depending on the model, the intuitive technologies available cover cruise control, the audio system and hands-free telephone operation for Bluetooth® enabled devices. The standard air-conditioning system with dual-zone climate control and humidity sensor maintains fresh air circulation throughout the cabin. The optional DVD satellite navigation system, with a large high definition Touch-screen, easy-to-use menu and the extensive point of interest database, makes finding your destination as simple as possible. And, adding further to the feeling of lightness and airiness within the cabin, all Land Rover LR2 vehicles are fitted with a panoramic sunroof incorporating an electrically operated front section. The glass is specifically formulated to filter infrared rays, providing light without unpleasant heat.

It's the wall of sound inside Land Rover LR2 that immerses you in the music and brings you closer to the original performance. There are two outstanding in-car entertainment systems to choose from, including a premium Alpine® Dolby® Pro Logic® II 7.1 surround sound system with 13 speakers plus a subwoofer.

Plus every Land Rover LR2 comes with a 3.5mm auxiliary audio socket. Personal telephone integration (optional) of compatible mobile phones is available via the Bluetooth® hands-free telephone system. Sophisticated technology that brings the audio alive.

Premium Windsor Leather adds even more prestige to Land Rover LR2. The luxurious interior has the quality and tactile ambience of a premium executive vehicle with a range of trim options that can be tailored to suit the most sophisticated personal tastes as well as practical requirements.

Grained Leather comes standard in Almond, Ebony and Storm colorways. Seat facings are available with softer, more supple Premium Windsor Leather as part of the HSE LUX Pack, which also includes an upgraded driver's eight-way and passenger's six-way seat, plus carpet mats with contrast binding. In total, a range of five colorways – Ivory, Tan, Almond, Ebony and Storm – are available. It all underscores the distinguished feel of the interior. Light, airy and contemporary, Land Rover LR2 takes luxury to a new height.

Interior image shows optional HSE LUX Pack in Ivory Windsor Leather, optional navigation system and optional Grand Black Lacquer Finish.

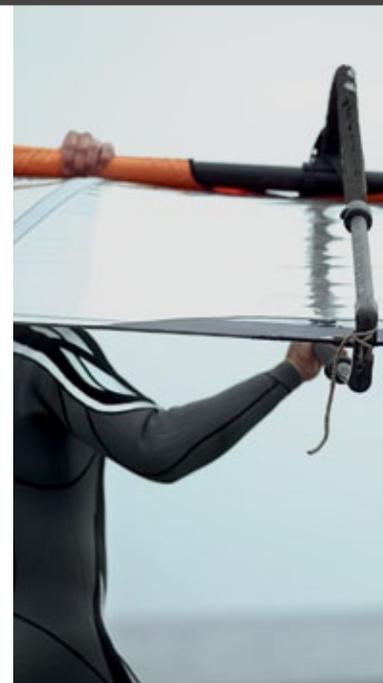

////ALPINE

HSE LUX Pack seating shown with Almond Windsor Leather.

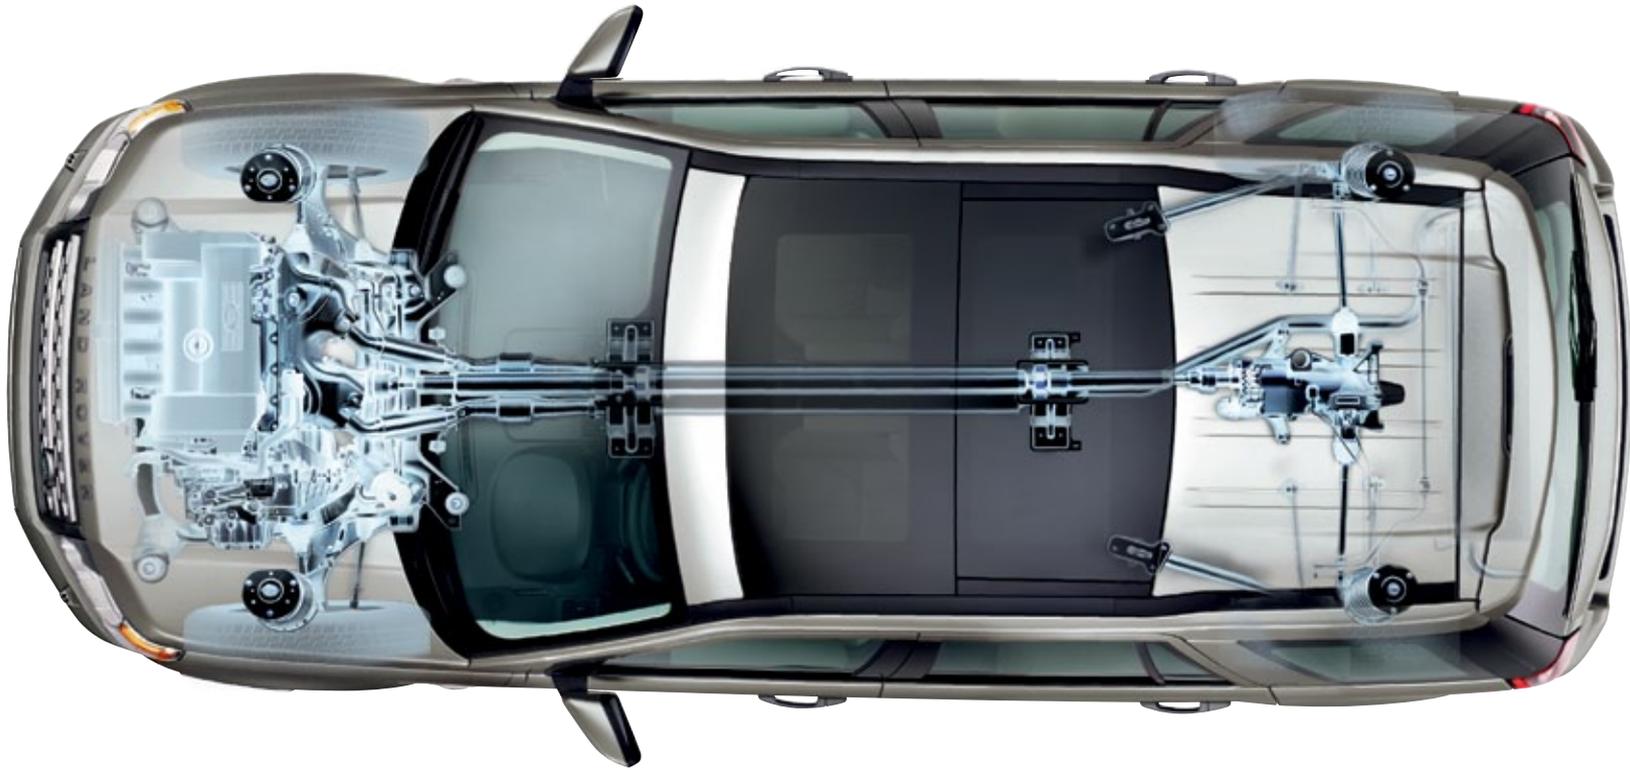

Urban or country. Week or weekend.

First class accommodation for everyone and every thing. Inside Land Rover LR2, no-one travels second class.

Driver and passengers alike enjoy generous leg, head and shoulder room. With stadium seating putting rear passengers 2.0 inches/50mm higher than those in front, everyone can enjoy the view. Versatility is maximized too. There is a 60:40 split rear seat plus a reversible load floor cover – carpet on one side, a water-resistant, wipe-clean surface on the other. A 12 volt power socket located within the loadspace provides added convenience.

Always safely secure items when driving.
Vehicle exterior color shown in Ipanema Sand.

A whole host of technology and sophisticated safety systems are packed into Land Rover LR2.

There are large disc brakes all round, which, on the front are reverse vented to improve thermal stability under severe braking. This means cool air is drawn into the center of the disc, then vented out over the rim, and helps to provide outstanding stopping power. For greater traction, the electronic center coupling at the heart of the Land Rover LR2 intelligent four-wheel drive system adapts continuously and instantaneously to the conditions. Pre-engaging at rest to reduce wheel spin from standing starts, it also engages instantly whenever traction loss is detected on the move.

Getting tough with safety. The strong monocoque body and inner safety cell, protected by meticulously engineered front and rear crumple zones, are designed to absorb energy on impact. While high-strength steel is used in the construction of the body, dual-phase steel, which requires special pressing because of its resilience, is found in key components. The result is a weight-efficient safety cell.

Seven airbags, fitted as standard on all vehicles, play a key role in helping to protect all occupants.
Driver and front passenger airbags for head and chest protection.
Driver and front passenger side airbags for side impact protection.
Full-length curtain airbags provide head impact and rollover ejection protection for all occupants.
Driver's inflatable knee airbag for additional lower body protection.

Vehicle exterior color shown in Ipanema Sand.

Please remember that the safety belts in a Land Rover vehicle constitute the primary protection system for driver and passengers in collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

Because you can never predict the road ahead or know what's around the next corner, Land Rover LR2 is packed with a number of advanced stability control systems, all fitted as standard.

Enhancing traction by reducing engine torque and applying a unique braking force to each individual wheel, they help provide both stability and capability where you need it.

ABS Anti-lock Braking System. Prevents the wheels locking up under heavy braking and on slippery surfaces helping the driver to maintain steering and control.

EBD Electronic Brake-force Distribution. Ensures the correct balance of braking force between front and rear wheels and can be particularly helpful when towing heavy loads.

EBA Emergency Brake Assist. Increases hydraulic pressure during emergency braking and can improve stopping distances by up to 15 percent.

CBC Cornering Brake Control. Enhances rear-end stability when braking in corners.

ETC Electronic Traction Control. Senses when wheel slip is occurring and uses the braking system to minimize wheel spin.

DSC Dynamic Stability Control. Designed to minimize over- or under-steer, it interacts with the engine and brakes to help maintain stability.

RSC Roll Stability Control. Detects critical levels of roll and applies braking to increase the turn radius to help maintain stability.

So whatever obstacles might come your way, Land Rover LR2 helps give you increased control.

Vehicle exterior color shown in Santorini Black.

These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Make it unmistakably your Land Rover LR2 with your own choice of wheels.

Nothing adds that touch of individuality quite as much and truly puts a personal stamp on a vehicle. There are three stunning designs: two 19 inch wheels (one of which is an eye-catching Diamond Turned wheel with contrast paint finish) and one 18 inch wheel.

GRAINED LEATHER STANDARD ON HSE MODELS.

PREMIUM WINDSOR LEATHER STANDARD ON HSE LUX PACK.

INTERIOR TRIMS

HSE

GRAINED LEATHER

Six-way electric driver adjustment and four-way electric passenger adjustment. Seat facings and bolsters in leather with color coordinated door casing inserts.

EBONY/LUNAR

Ebony leather seats. Carpets, door casings, center console and lower fascia in Ebony, Lunar stitching.

STORM/EBONY

Storm leather seats. Carpets, lower door casings, center console and lower fascia in Ebony. Door casing insert and stitching in Storm.

ALMOND/NUTMEG

Almond leather seats. Door casings, center console and lower fascia in Almond. Nutmeg stitching and carpets.

HSE LUX PACK

PREMIUM WINDSOR LEATHER

Eight-way electric driver adjustment and six-way electric passenger adjustment. Seat facings and bolsters in Windsor Leather with color coordinated door casing inserts.

EBONY/LUNAR

Ebony leather seats. Carpets, door casings, center console and lower fascia in Ebony, Lunar stitching.

IVORY/EBONY

Ivory leather seats. Carpets, door casings, center console and lower fascia in Ebony, Ivory stitching.

ALMOND/NUTMEG

Almond leather seats. Door casings, center console and lower fascia in Almond. Nutmeg stitching and carpets.

TAN/EBONY

Tan leather seats. Door casings, center console, lower fascia and carpets in Ebony, Tan stitching.

This chart shows available seat trim materials with their applicable interior colorway theme described above. All trim levels have an Ebony steering wheel and Ebony loadspace carpet.

INTERIOR TRIMS, FINISHERS & CARPETS

GRAINED LEATHER TRIM. Six-way electric driver adjustment and four-way electric passenger adjustment. Seat facings, bolsters, seat backs, lower door casings and stitching in Storm. Center console, lower fascia and carpets in Ebony.

GRAINED LEATHER TRIM. Six-way electric driver adjustment and four-way electric passenger adjustment. Seat facings, bolsters, seat backs, door casings, center console and lower fascia in Almond. Stitching and carpets in Nutmeg.

WINDSOR LEATHER TRIM. Eight-way electric driver adjustment and six-way passenger adjustment. Seat facings, bolsters, seat backs, door casings, center console, lower fascia and carpets in Ebony. Lunar stitching.

Three fascia finishers are available to complement the interior in Element Silver metallic effect, Dark Chestnut wood effect and Grand Black Lacquer effect.

■ Standard □ Option ● No Cost Option

Ebony carpet is a no cost option in lieu of Nutmeg carpet.

COMMAND DRIVING POSITION. Land Rover's renowned command driving position brings a sense of control over the road and helps with maneuvering and parking in urban environments. A six-way adjustable driver's seat and a steering wheel that is adjustable for recline and reach.

STEERING WHEEL CONTROLS. Steering wheel mounted controls at your fingertips for ultimate ease of use. The intuitive technologies available include cruise control, audio system and an optional hands-free telephone operation.

Land Rover LR2 can be Bluetooth® connectivity enabled as standard on some models. You'll be able to make and take calls via the vehicle's audio system (subject to telephone compatibility).

CLIMATE CONTROL. Standard air-conditioning system with dual-zone climate control, with pollen filter and humidity sensor maintaining fresh air in the cabin, keeping you and your passengers comfortable.

FRONT SEAT AND TRIM MATERIALS. The standard trim colors are available in Ebony, Almond and Storm. The HSE LUX Package includes Premium Windsor Leather in Ebony and Almond as well as in two additional colors Ivory and Tan. The driver's seat provides excellent support with standard six-way adjustment. Additional options include driver's seat memory package and driver's seat eight-way adjustment.

REAR SEATS. Everyone enjoys the view with stadium seating putting rear passengers 2.0 inches/50mm higher than those in front. Full-sized rear seats can accommodate three adults in comfort. Storage space includes door bins with integral cup/bottle holders. Incorporated within the rear center armrest is additional stowage with twin cupholders.

CENTER CONSOLE STORAGE. The rear of the center console features an additional storage box for small items, a 3.5mm auxiliary socket for MP3 players and a power socket, which can be used to recharge PCs and low-wattage electrical equipment.

IN-CAR ENTERTAINMENT. Two in-car entertainment systems, both with MP3 compatibility:

- Standard – Alpine® branded audio system with single slot CD player, 320-Watt amplifier, auxiliary input and nine speakers
- Optional – A premium Alpine® Dolby® Pro Logic® II 7.1 surround sound system, 480-Watt amplifier, auxiliary input and 13 speakers plus a subwoofer.

Note: Sirius Satellite Radio* is available on the Land Rover LR2 HSE.

SATELLITE NAVIGATION. The optional DVD satellite navigation system, with a large, high definition Touch-screen, easy-to-use menu and extensive point-of-interest database, makes finding your destination as simple as possible.

PANORAMIC SUNROOF. The standard panoramic sunroof – with a fixed rear section and electric tilting/sliding front section – adds to the feeling of lightness and airiness within the cabin. The glass is specially formulated to filter the sun's infrared rays, providing light without unpleasant heat. Both sections also include a convenient blind.

LOADSPACE. The versatile rear loadspace can be expanded by folding the 60:40 split rear seats to provide a flat load floor, and up to 58.9 cubic feet/1,670 liters of space. With 49 inches/1.25 meters between the wheel arches there's always room for more awkward loads.

CONVENIENCE FEATURES. Life with Land Rover LR2 is so practical thanks to thoughtful technology. Features include: an electrochromatic rear view mirror for automatically minimizing the dazzle of headlamps at night. Rain sensing wipers and twin map lights conveniently located in the roof console above the rear view mirror.

SAFETY.** High-strength steel is used to construct a strong monocoque body and inner safety cell protected by front and rear energy absorbent crumple zones. Seven airbags are fitted as standard on all vehicles.

*Subscriptions governed by Sirius Terms and Conditions available at sirius.com. Service available in the 48 contiguous United States and D.C. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. and its subsidiaries.

**Please remember that the safety belts in a Land Rover vehicle constitute the primary protection system for driver and passengers in collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

STANDARD FEATURES

Engine & Transmission

- 3.2 liter in-line six-cylinder engine
- Six-speed automatic transmission with CommandShift®
- Full time intelligent all-wheel drive
- Terrain Response®
- Cruise Control.

Suspension & Steering

- Independent front & rear suspension
- Power steering with manual tilt and reach adjustment.

Safety & Security

- Remote control central locking on all doors and tailgate
- Push button Start/Stop
- Perimetric security system
- Anti-lock Braking System (ABS)
- Electronic Brake-force Distribution (EBD)
- Emergency Brake Assist (EBA)
- Cornering Brake Control (CBC)
- Electronic Traction Control (ETC)
- Dynamic Stability Control (DSC)
- Roll Stability Control (RSC)
- Hill Descent Control (HDC®)
- Driver and front passenger airbags, front seat side airbags, full length side curtain airbags and inflatable driver's knee airbag
- Four-wheel disc brakes with mechanical handbrake
- Two rear ISOFIX child seat anchor points
- Rear seat head restraint – all three positions.

Interior

- Rear seat split 60:40 design
- Central stowage compartment in fascia
- Dual cup holder in center console
- Glove box
- Electric windows with one-touch operation on the front
- Alpine® 320-Watt audio system with single slot CD player and nine speakers
- MP3 auxiliary audio socket
- Electrochromatic auto-dimming rear view mirror
- Automatic climate control with air filtration
- Trip computer with message center
- Auxiliary 12 volt power sockets - front, rear and loadspace.

Exterior

- Premium body colored front and rear bumpers
- Heated, electrically adjustable exterior mirrors
- Halogen headlamps with headlamp courtesy delay
- 18 inch Alloy Wheels
- Bright finish twin bar grille.

Bright Finish Twin Bar Grille

Vehicle exterior color shown in Ipanema Sand.

START/STOP BUTTON AND REMOTE CONTROL. In order to start the car the remote has to be docked into the fascia and the correct procedure followed using the Start/Stop button. The remote control includes the following functions: locking and unlocking of the doors and tailgate, a 30 second courtesy headlamp delay and activation of panic alarm.

TERRAIN RESPONSE®. Land Rover's patented Terrain Response® system adds to the Land Rover LR2 vehicles breadth of capability. Any of the four settings – general driving, grass/gravel/snow, mud and ruts, or sand – can be easily selected by simply turning the rotary control. In addition all vehicles with Terrain Response® are also fitted with Land Rover's Hill Descent Control (HDC®) and Gradient Release Control systems.

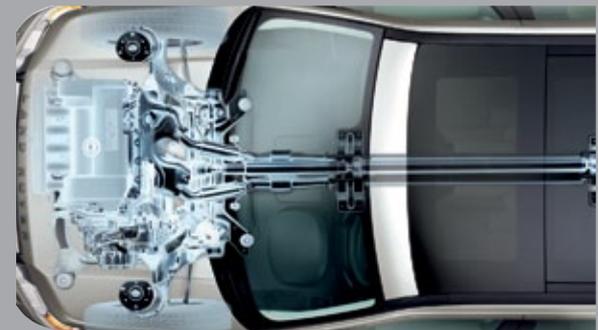

COMMANDSHIFT®. The six-speed automatic transmission with CommandShift® is standard. CommandShift® provides manual sequential gear changes and Sport mode provides even livelier performance.

STABILITY CONTROL SYSTEMS. Land Rover LR2 comes with a host of stability control systems as standard, designed to enhance traction by reducing engine torque and applying a unique braking force to each individual wheel where driving conditions dictate. They include: Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Emergency Brake Assist (EBA), Cornering Brake Control (CBC), Electronic Traction Control (ETC), Dynamic Stability Control (DSC) and Roll Stability Control (RSC).

HEADLAMPS. Standard Halogen headlamps with impact-resistant polycarbonate lenses. Optional Adaptive Xenon projector lamps provide crisp blue-white light letting you see further and automatically swivel with the direction of travel to improve the view of the road ahead.

PERFORMANCE WITH REFINEMENT. A compact, advanced 3.2 liter in-line straight-six engine with Cam Profile Switching and Variable Valve Timing delivering more power, a better spread of torque and greater efficiency.

Intelligent Power System Management (IPSM) provides 'smart charging' of the battery by recovering kinetic energy, whenever possible when the vehicle is slowing, rather than consuming fuel by charging when the vehicle is accelerating.

LAND ROVER LR2 VEHICLE KIT

Add style or add practicality. You can add both with the Land Rover LR2 vehicles exceptional range of specialist accessories. This is the perfect opportunity to tailor the vehicle to your personal activities and tastes, as well as adding distinguished styling cues.

The truly comprehensive range features carrying and towing options as well as exterior and interior styling additions. Importantly, all Land Rover LR2 accessories are available individually, at any stage in the vehicle's life - not just when it's new. Seasonal or year-round, extreme sports or touring activities, the great outdoors or the demands of urban life - we've got everything you need to get geared up. In fact, Land Rover LR2 is as versatile as you need it to be. And remember, Land Rover Approved Accessories are designed and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Visit www.LandRoverUSA.com for more information.

Vehicle shown left is accessorized with Raised Roof Rails and Cross Brace Kit, Crossbar Kit, Bright Finish Mirror Caps, Bright Finish Fender Vents, Side Protection Tubes - Stainless Steel and 19 inch Triple Sport alloy wheels. Vehicle exterior color shown in Baltic Blue.

†Adhesive required (STC50551).

CARRYING & TOWING - ACCESSORIES

Aqua Sports Carrier*
LR006846
Carries one surfboard or sailboard and mast, or one canoe or kayak. Load capacity 99.2lbs/45kg**.

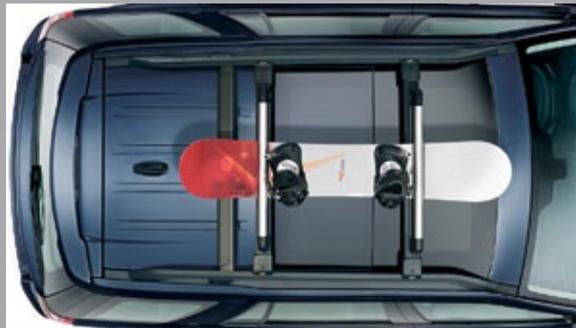

Luggage Box*
VPLVR0062
Gloss Black Finish. Opens from both sides. Lockable for security. External dimensions: 68.9 inches/1,750mm long, 32.3 inches/820mm wide, 17.7 inches/450mm high. Volume 440 liters. Load capacity 165.2lbs/75kg**.

Luggage Rack*
LR006848
Load capacity 125.6lbs/57kg**.

Raised Roof Rails and Cross Brace Kit*
Panoramic Sunroof vehicles LR007220
Vehicle height when fitted 72.0 inches/1,830mm.
Crossbars not included.

Ski and Snowboard Carrier*
LR006849
Carries four pairs of skis or two snowboards. Incorporates slider rails for easy loading. Lockable for security. Load capacity 79.4lbs/36kg**.

Lashing Eye Kit
VUB503160
Six additional tie-down points for use with Crossbars T-slots.

Ratchet Strap
CAR500010
Nylon tie strap for securing items to the Crossbars and Luggage Carrier. 16.4ft/5 meters long, 0.8 inches/20mm wide. Supplied individually.

Crossbar Kit*
LR002417
Easily removed when not in use. Vehicle height when fitted 72.9 inches/1,852mm. Load capacity 165.3lbs/75kg**. Vehicle must have accessory Raised Roof Rails and Cross Brace Kit fitted. Shown above, sold separately.

*Roof Rails and Crossbars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted.
**Maximum permissible load capacity minus the weight of the roof mounted accessory.

Roof Mounted Bike Carrier

LR006847

Lockable bike carrier designed for holding a single bike. Raised Roof Rails and Crossbar Kit required and will accommodate up to three bike carriers.

Drawbar and Adapt-a-ball Kit

LR006441

Working in conjunction with the Tow-Hitch Receiver, this accessory includes a 12.5 inch/317.5mm tow bar, three different sized adapt-a-balls and a locking pin in a sturdy carrying case. Requires the Tow-Hitch Receiver.

Towing Electrics

These sockets deftly mounted in your Land Rover LR2 vehicles rear bumper, provide electric power and rear lighting for your trailer.

N&S 7&4-Pin (2007-08 Model Years) LR003108

N&S 7&4-Pin (2009 Model Year onwards) VPLFT0003

Tow-Hitch Receiver

LR002744

Tow your boat or trailer with help from this sturdy, lockable hitch receiver. Handles up to 3,500lbs/1587.6kg trailer load capacity and a 330.0lbs/149.7kg tongue weight capacity. Convenient and easy to remove from the vehicle when not needed. Stores neatly in accompanying bag.

Front Seats VPLFS0107PVJ

Rear Seats (with armrest) VPLFS0110PVJ**

*Protects seats from mud, dirt and wear and tear. Machine washable. Includes headrest and armrest covers. Colors shown may differ from the actual product.

**Not compatible with large rear head restraints. Please see your authorized Land Rover Retailer for details.
Vehicle exterior color shown in Ipanema Sand.

At Land Rover we do this by investing in four key areas:

e_TERRAIN® TECHNOLOGIES. EFFICIENT POWER SYSTEMS, LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions by 2015, as part of our carbon management plan. The all-new Range Rover Evoque and LR2 vehicles include innovative stop start technology (on the diesel manual gearbox) and Intelligent Power System Management (IPSM) with regenerative braking, just two examples of e_TERRAIN® TECHNOLOGIES that reduce our vehicles carbon footprint. What's more, Land Rover's Adaptive Dynamics System constantly monitors vehicle performance, to enhance driving and emissions efficiencies.

FACT
We will use life cycle assessment to understand the environmental impact of our vehicles, including the use of e_TERRAIN® TECHNOLOGIES, beginning with Range Rover Evoque.

SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE

World class manufacturing facilities, certified to ISO14001 since 1998. As a company, we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based on 2007 levels. Our activities include factory energy efficiencies, cutting transport miles and the carbon offset of all CO₂ emissions from manufacturing assembly. But it doesn't stop there. Every new vehicle is designed to be 85 percent recyclable and reusable, in addition 95 percent recoverable and reusable, with 10 percent specifically for energy recovery.

FACT
Turning waste food into energy in a trial at our headquarters in Gaydon, has diverted 43 tons of waste from landfill and saved 3.7 tons of CO₂ emissions.

CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every ton of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent ton of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and Forum for the Future, CO₂ offsetting allows us to take action now, to reduce our impact on the environment, as part of our integrated carbon management plan.

FACT
We plan to offset approximately 3,000,000 tons of CO₂ emissions by 2012.

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION AND SOCIETY'S GAIN

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

FACT
In 2010, Land Rover launched a new three-year global initiative with the IFRC entitled 'Reaching Vulnerable People Around the World'. Land Rover has supported the IFRC's life saving work since 2007 and to date has given over £4m in vital funding and vehicle support to help vulnerable people around the world.
