ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

RANGE ROVER EVOQUE MARKS A BOLD EVOLUTION OF RANGE ROVER DESIGN. WITH ITS DRAMATIC RISING BELTLINE, A MUSCULAR SHOULDER RUNNING THE LENGTH OF THE CAR, AND A DISTINCTIVE TAPER TO THE FLOATING ROOFLINE, THE RANGE ROVER EVOQUE ADOPTS A VERY DYNAMIC PROFILE WITH A POWERFUL AND ATHLETIC STANCE.

Gerry McGovern.
Land Rover Design Director and Chief Creative Officer.

A WORLD OF LAND ROVER

94

DESIGN

EXTERIOR

With its striking lines, muscular shoulder and tapered roof, Range Rover Evoque sets itself apart from its contemporaries.

Whether discovering hidden parts of town or being seen in all the right places, it's always ready for action. Striking the perfect balance between distinctive exterior design, a contoured cabin, capability and performance, the vehicle defines contemporary city life.

Optional adaptive full LED headlamps complement the vehicle's design cues by combining a distinctive look with enhanced light output for better visibility and safety at night. The headlamps' adaptive function enables light beams to be automatically aligned with steering inputs and follow curves in the road*.

The Daytime Running Lamps (DRLs) have a distinctive signature which also serves as the directional indicator where it flashes amber.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown right is HSE Dynamic Five-door in Yulong White.

CONVERTIBLE EXTERIOR

Range Rover Evoque has defined the compact SUV with its design cues that have become synonymous with design and contemporary living. Now the vehicle is going even further. New Range Rover Evoque Convertible, the world's first premium compact Convertible SUV, sets new standards in design, capability and sheer driving pleasure.

Vehicle shown left and above is HSE Dynamic Convertible with Black Design Package in Phoenix Orange.

INTERIOR

The desirability of the exterior design continues inside. The Range Rover DNA is communicated throughout the interior by the superb detailing, strong lines and clean surfaces combined seamlessly with contemporary finishers.

A range of individual features provide added appeal to the clean, architectural shapes of the vehicle's interior. The seats incorporate the latest technologies such as climate control options in the front seats to ensure a truly relaxed and comfortable ride. Details include the use of premium materials such as Oxford leather, twin-needle stitching and deeply padded door inserts. Oxford leather seats come as standard on HSE, HSE Dynamic and Autobiography models.

The new 10" Touchscreen* is a superb addition to the interior, becoming the centerpiece of the fascia. With a 21:9 wide format and 80 percent more pixels than the standard 8" Touchscreen, the feature is available on SE and SE Premium and comes as standard on the HSE, HSE Dynamic, Autobiography and both Convertible models.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

Interior shown left and above is HSE Dynamic Five-door in Ebony with Lunar stitch.

LOADSPACE CAPACITY

The loadspace in Range Rover Evoque is a functional and yet stylishly appointed space. All models contain ample luggage room for the perfect weekend getaway or that last minute shopping trip. The Coupe and Five-door body styles offer flexible seating which can be easily configured with the rear 60:40 split seating arrangement, or for maximum loadspace, the rear seats can be folded down to fit around you and your trip. When the rear seats are upright this delivers a healthy loadspace of 19.4 cu.ft for the Coupe or 20.3 cu.ft on the Five-door.

The Convertible tailgate has been delivered to allow easy access to the loadspace and even has an optional ski hatch which also doubles as an arm rest. The loadspace capacity, 8.9 cu.ft, remains unchanged regardless of the roof position and is able to accommodate a standard golf bag.

CONVERTIBLE ROOF

The vehicle utilizes a fabric Z-Folding Convertible Roof System. It is electrically operated, with opening and closing being easily controlled via a switch mounted in the center console; an action that can be completed while the vehicle is travelling up to 30mph. The Ebony roof complements the complete color palette. The roof has an acoustic inner lining to reduce road noise and also to provide insulation to the cabin.

The wind deflector improves front seat comfort with the Convertible roof down by reducing drafts from the rear of the cabin.

Vehicle shown is HSE Dynamic Convertible with Black Design Package in Phoenix Orange.

DRIVING TECHNOLOGY

TESTING

Before any vehicle can carry the Land Rover badge, rigorous testing has been carried out to establish the highest levels of luxury, performance and capability.

SUSPENSION

You're unlikely to push any Land Rover harder than we have. To produce an unrivalled breadth of dynamic capability, both on and off-road, the vehicles have been exposed to ten years of the most extreme driving pressures in a fraction of the time using our state-of-the-art test rig.

WIND SPEED

In our climate chambers we can recreate some of the most challenging wind conditions Range Rover Evoque will face. Not just 112mph crosswinds, but high ambient temperatures and low airflow situations. Only by pushing all systems to their limits do we develop true excellence.

HOT AND COLD CLIMATE

In real world environments and our climate chambers, we freeze vehicles to -104°F and bake them to 120°F. Key functions and systems are then scrutinized to our exacting standards. So even in the most remote locations, comfort and peace of mind are never far away.

OFF-ROAD

From the icy proving grounds of Arjeplog, Sweden, to Dubai's unforgiving desert sands, we ensure our legendary all-terrain performance is innate in every vehicle. Prototypes are developed across approximately 5,282 miles of the most demanding off-road routes.

SEMI-ANECHOIC CHAMBER

In the 'neutral sound' of our semi-anechoic chamber we precisely expose the cabin to a range of frequencies and vibrations, making certain that Range Rover Evoque sounds refined at every speed and across every surface.

MONSOON

Using our monsoon simulator, we drench our vehicles with some 18,697 gallons of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lamps. Ensuring our vehicles can enter and exit a body of water without a single droplet entering the cabin.

TERRAIN RESPONSE®

Land Rover has always been synonymous with capability and Range Rover Evoque lives up to even the most demanding expectations. Confident and responsive, the drive is further enhanced by a generous wheel articulation and innovative off-road technologies such as Terrain Response®*.

This feature adapts to the responses of the vehicle's engine, transmission, differentials and chassis systems to maximize driveability, comfort and traction.

There are four standard Terrain Response settings: General Driving, Grass/Gravel/Snow, Mud & Ruts and Sand, the vehicle provides added assistance on various terrains*.

A fifth setting, **Adaptive Dynamics** is standard on the HSE Dynamic Five-door model. This mode tunes the suspension to deliver even tighter body control with flatter handling and sharper responses*.

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control (ATPC) is a state-of-the-art new system designed to enable drivers to set and maintain a steady speed in challenging conditions*.

Operating like a cruise control system, it functions at very low speeds between 1mph and 18mph, helping the driver to maintain full concentration on steering and finding a path through obstacles.

In addition, the system helps the vehicle to pull away smoothly and easily, even on tricky low-friction surfaces like snow or wet grass*.

Developed by Land Rover's industry-leading all-terrain specialists, it works seamlessly alongside the standard **Terrain Response®**, 4 Wheel Drive (4WD) traction and braking systems*.

Once ATPC is activated, the standard steering wheel +/- cruise control buttons are used to set the speed. Brake and accelerator pedals can still override the chosen settings.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.
Vehicle shown left is HSE Dynamic Convertible in Phoenix Orange with Black Design Package.
Vehicle shown above is HSE Five-door in Firenze Red.

HILL DESCENT CONTROL (HDC®)

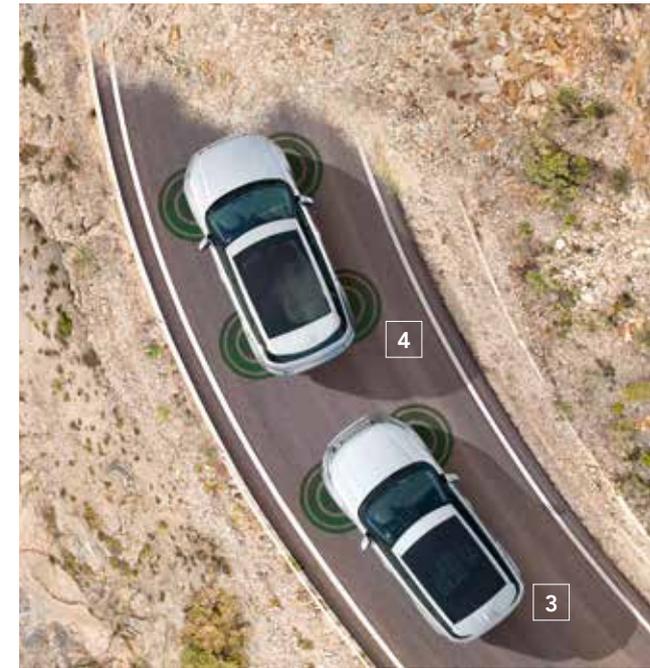

Land Rover's patented Hill Descent Control (HDC®) assists the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel*.

Hill Start Assist is designed to prevent the vehicle from rolling backwards as it pulls away on an incline*.

The vehicle also utilizes **Gradient Release Control (GRC)** which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.
Vehicle shown left is HSE Five-door in Fuji White.

ADAPTIVE DYNAMICS

Adaptive Dynamics* with advanced MagneRide™ monitors vehicle movements at least 1,000 times per second, reacting to driver or road inputs instantaneously to give greater control and minimize body lean, providing a balanced, flat ride. Standard on Five-door, HSE Dynamic model, the system will even sense off-road conditions and optimize the advanced MagneRide™ damper settings accordingly, delivering the perfect balance of agile handling and a supple, controlled ride*.

- 1 UNADJUSTED LATERAL BODY LEAN
- 2 CORRECTED LATERAL BODY LEAN

TORQUE VECTORING

When cornering, the vehicle's agility and stability are enhanced by the Torque Vectoring by Braking system. This feature comes as standard on all vehicles. Monitoring the vehicle, the system constantly balances the distribution of torque between all the wheels to improve grip and steering whether on or off-road*.

- A UNDERSTEER DETECTED
- B FULL TORQUE TO OUTER WHEELS
- C BRAKING FORCE TO INNER WHEELS
- D LINE CORRECTED

ACTIVE DRIVELINE

Active Driveline delivers benefits in both on and off-road situations. In many on-road driving conditions, the system is able to disconnect drive to the rear of the vehicle, providing maximum 2 Wheel Drive (2WD) fuel economy. A sophisticated control strategy continuously monitors key vehicle and environmental parameters.

If the requirements for 4WD are met, the system seamlessly and imperceptibly reconnects drive to the rear of the vehicle within 300 milliseconds. When off-road driving, torque to each rear wheel can be varied according to the available grip. A dedicated display on the Touchscreen relays detailed information, so you always feel in control*.

- 3 2 WHEEL DRIVE (2WD)
- 4 4 WHEEL DRIVE (4WD) ACTIVATED

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. MagneRide™ is a registered trademark of BWI Company Limited S.A. Vehicle shown is a HSE Dynamic Five-door in Yulong White.

DRIVER ASSISTANCE

DRIVING AIDS

COMMAND DRIVING POSITION

The Command Driving Position in Range Rover Evoque ensures a greater view of the road ahead so all terrains can be tackled with confidence*.

HEAD-UP DISPLAY

Head-up Display is a technology option, available as part of the Driver Assist Plus Package, that presents key vehicle data such as vehicle speed, gear position and navigation directions on the windscreen, without the need for the driver to take their eyes off the road*.

This innovative laser system is more robust against issues such as 'washout' – the effect that the glare from sunlight has on LED-based systems. The feature can be turned on and off dependent upon driver preference.

TRAFFIC SIGN RECOGNITION

Traffic Sign Recognition keeps you fully informed by displaying particular traffic signs in the instrument cluster where they can easily be seen, and as part of **Head-up Display** when fitted. The optional system detects speed limit signs (including variable overhead speed signs) and traffic signs with extra information, such as reduced speeds for wet roads*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Vehicle shown left is HSE Dynamic Five-door in Yulong White.

DRIVING AIDS

Range Rover Evoque has a wealth of driving aids on hand to give you and your passengers an even more sure-footed drive. Featuring the most innovative thinking, engineering and technologies, these features will help you manage most traffic, highway, road and even night-time driving situations with ease.

LANE KEEP ASSIST WITH AUTONOMOUS EMERGENCY BRAKING AND DRIVER CONDITION MONITOR*

Lane Keep Assist is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back. Driver Condition Monitor detects if you're starting to feel drowsy and gives you an early warning when you need to take a break. If a potential collision is detected, the Autonomous Emergency Braking system displays a forward collision warning, giving you time to take action. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.

ADAPTIVE CRUISE CONTROL WITH QUEUE ASSIST*

When you're cruising on the highway or travelling in slow-moving traffic, this system is designed to keep your vehicle a pre-set distance from the one in front should it slow or stop. When the vehicle speeds up again, so does Range Rover Evoque.

ADAPTIVE LED HEADLAMPS WITH LED SIGNATURE*

Full LED headlamps deliver an enhanced light output for better visibility and safety at night. Light beams automatically align with steering inputs and follow curves in the road.

BLIND SPOT MONITOR WITH REVERSE TRAFFIC DETECTION*

Blind Spot Monitor is designed to alert you to vehicles in, or quickly approaching, your blind spot through a small warning light in the corresponding door mirror. Reverse Traffic Detection warns you of hazards approaching from either side of your vehicle, through both audible and visual warnings so you know what's behind you even when the view is obstructed.

PARKING AIDS

Parking your vehicle in a busy town or city has never been a particularly simple and straightforward maneuver, which is why Range Rover Evoque features aids to help you reverse and park even when you're negotiating the tightest of spaces.

FULL PARK ASSIST – PARALLEL PARK, PARKING EXIT AND PERPENDICULAR PARK*

Our Full Park Assist system makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed with the brake and accelerator pedals. Full Park Assist will also steer you out of a space, taking all of the stress out of parking. Graphics and notifications guide you through the maneuvers.

SURROUND CAMERA SYSTEM*

Giving a 360° exterior view via the Touchscreen, this helps with various maneuvers from parking by a curb, to getting in and out of tight spaces and junctions.

360° PARKING AID*

When maneuvering in tight spaces and reverse is selected, sensors located around the vehicle are automatically triggered. As you park, the Touchscreen displays an overhead view of the vehicle and audible feedback indicates how close you are to obstacles.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Features and their availability may differ by vehicle specification and market. Please see pages 58-69, or contact your nearest Land Rover Retailer, for more information.

TOWING AIDS

With a towing capacity of up to 4,409 lbs on Coupe and Five-door and 3,307 lbs on Convertible, by incorporating tailored technologies, Range Rover Evoque, equipped with an accessory tow hitch, can handle the most demanding of tasks.

REAR VIEW CAMERA*

Providing improved visibility when reversing, the Rear View Camera is a valuable parking aid and offers help when hitching a trailer.

Tow Hitch Assist makes coupling a trailer to the vehicle much easier by helping you visualize the hitching process; it displays the predicted path of the vehicle towards the tow bar on the Touchscreen. Standard with Rear View Camera*.

SURROUND CAMERA SYSTEM

As part of the Surround Camera System, the Tow Assist feature helps with reversing by predicting the trailer's direction*. You can even input your trailer's width for precise guidelines displayed on the Touchscreen.

TRAILER STABILITY ASSIST

Trailer Stability Assist monitors the vehicle to detect movements in the trailer and then uses selective braking to help correct potentially hazardous situations*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Please refer to the standard and optional feature listing on page 66. Vehicle shown left and above HSE Dynamic Five-door in Yulong White.

CONNECTIVITY. ENTERTAINMENT. COMFORT

LAND ROVER INCONTROL®

Land Rover InControl® is our suite of advanced technologies that links both you and your Range Rover Evoque to the wider world*. Choose from two InControl infotainment systems: InControl Touch or new InControl Touch Pro.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. Certain features require a Micro SIM with a suitable data contract which will require further subscription after the initial term advised by your Retailer. Apple Watch is a registered trademark of Apple Inc., registered in the US and other countries. InControl Apps will need to be downloaded from the Apple/Android Store, please contact your nearest Land Rover Retailer for further information.

INCONTROL TOUCH

INCONTROL TOUCH

The InControl Touch multimedia system is the hub for connectivity, control and entertainment*. The key features are:

- 8" Touchscreen
- InControl Remote & Protect consists of SOS Emergency Call, Land Rover Optimized Assistance and Remote smartphone app
- Land Rover Sound System with 8 speakers
- InControl Touch Navigation including Voice Recognition.

INCONTROL CONNECTIVITY

InControl Connectivity are technologies and applications that takes your vehicle's connectivity to the next level including:

- InControl Apps features a range of Land Rover approved apps that can be connected to Range Rover Evoque from your smartphone, to enhance aspects of your in-car experience*
- InControl Wi-Fi**.

INCONTROL TOUCH PRO

INCONTROL TOUCH PRO

The next-generation hardware and software advances the Range Rover Evoque connectivity and entertainment to the very best level*. Some key aspects of InControl Touch Pro are:

- 10" Touchscreen
- InControl Remote & Protect
- InControl Apps
- Meridian™ Sound System 380W with 10 speakers plus subwoofer
- Voice Recognition†.

OPTIONAL

- Meridian™ Surround Sound System 660W with 12 speakers plus subwoofer†
- Meridian™ Surround Sound System 825W with 16 speakers plus subwoofer*
- InControl Touch Pro Navigation.

INCONTROL PRO SERVICES

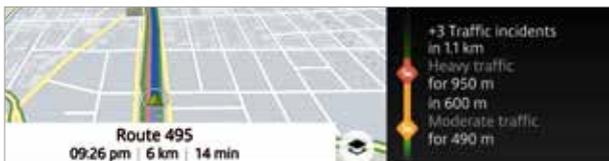

When you're equipped with InControl Touch Pro, you have the option of adding InControl Pro Services, technologies and applications to give you the very highest in connectivity and convenience*. Features include:

- Wi-Fi** Hotspot
- Route Planner App
- Share ETA
- Commute Mode
- Arrival Mode
- Parking and fuel information and live services.

**The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions †Only available on Convertible. Feature availability will vary by model and body style. Please refer to the standard and optional feature listing on pages 58-69. Vehicle shown left is Autobiography Five-door in Firenze Red.

9 WAYS TO GET YOUR LIFE CONNECTED

Find a parking space, stream your favorite music and even track a stolen vehicle. Find out how InControl will make your life easier*.

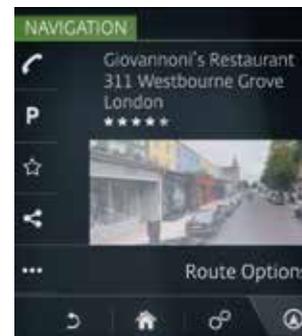

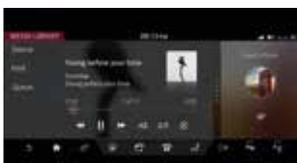

PLANNING ROUTES

Before setting off, use the **Route Planner App** or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen*.

STAYING CONNECTED

Before you get into your vehicle, set your ideal cabin temperature with the **Remote** app on smartphones and now the Apple Watch. On the road, the in-car **Wi-Fi Hotspot** provides a stable Internet connection and lets you connect up to eight devices**.

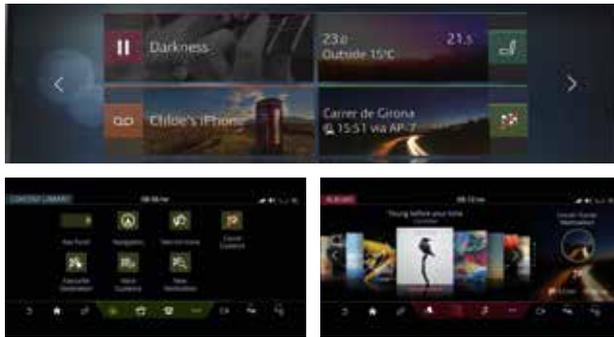

STAYING FOCUSED

Our all-new InControl Touch Pro **Voice Recognition** system understands normal spoken instructions. So you can concentrate on the road ahead without distractions*.

FINDING PARKING

When you near your destination, **InControl Touch Pro Navigation** will suggest nearby parking from a database including space availability, where available. With just one click, the parking is added and your route is updated. **Arrival Mode** shows a 360° street level image to help you identify your destination.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control **The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions.

MOVING FASTER

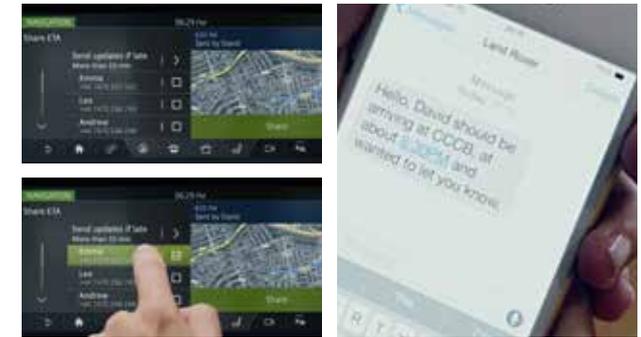

InControl Touch Pro brings you more processing power, thanks to a quad core processor plus an integrated Ethernet network*.

Customizable homescreens let you arrange the screen, as you like, with up to four personalized homescreens and over 60 shortcuts.

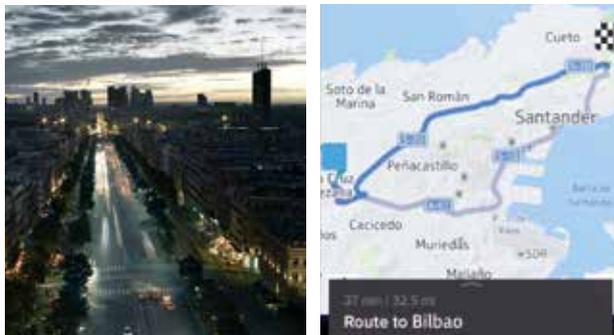

INTELLIGENT ROUTING

Commute Mode allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest.

SHARING PROGRESS

Share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text or email, without any further action from you*.

DOOR-TO-DOOR

Once you've parked, the Route Planner App will guide you to your destination – a true door-to-door experience which includes public transportation options. The Remote app also lets you check your vehicle to make sure you've locked and secured all doors and windows.

HELP IS ALWAYS AT HAND

With InControl Protect the emergency services will be automatically notified if the airbags are deployed in an accident or you can call them manually via an in-car button. You can also call a Land Rover Optimized Assistance operator should you need technical assistance.

MERIDIAN™ SOUND SYSTEMS

Land Rover has partnered with Meridian, a world leader in high-performance audio technologies and digital sound processing, to develop advanced audio systems for Range Rover Evoque.

Dynamic Volume Control technology has been integrated on all systems, to ensure that any unwanted noise detected in the cabin will be smoothly and automatically balanced out.

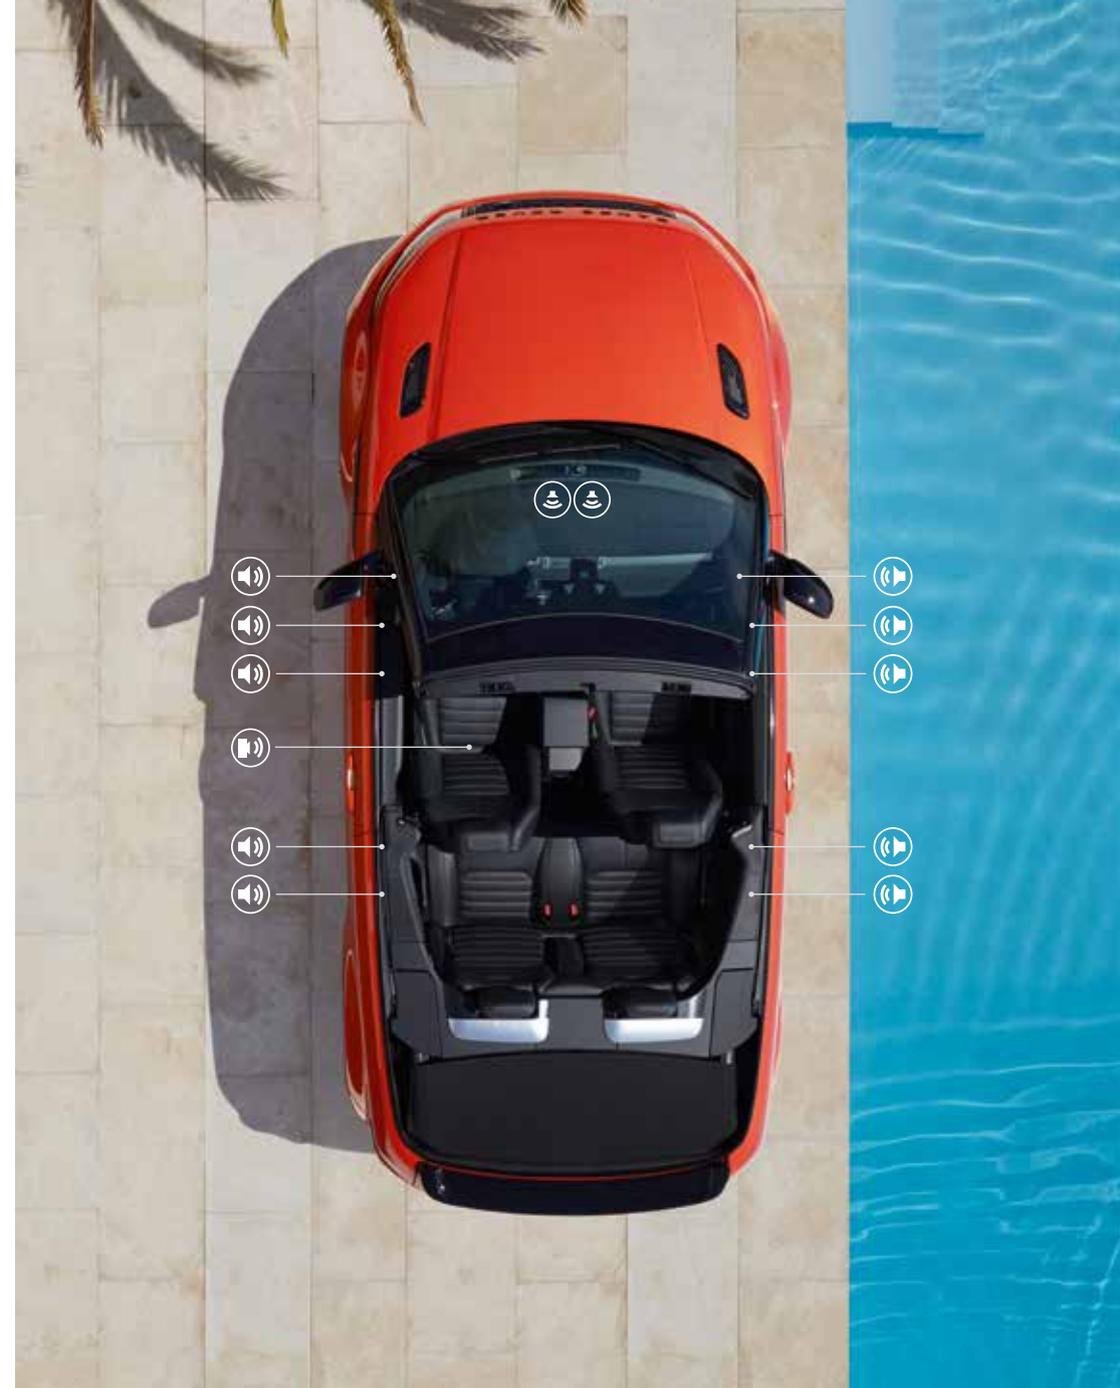

The 380W Meridian Digital Sound System features 10 speakers and a dual channel subwoofer, delivering exceptional definition, crystal clear highs and full, deep bass through the careful arrangement of speakers. This is optional on Coupe and Five-door SE and SE Premium models while being standard on Five-door HSE and HSE Dynamic and all Convertible models.

Range Rover Evoque also offers an optional upgrade, the Meridian Digital Surround Sound System, which produces 660W through 12 speakers and a dual channel subwoofer on the Convertible, and 825W through 16 speakers and a dual channel subwoofer on the Five-door (standard on Autobiography).

These systems also include Meridian Trifield technology. This technology delivers the very best in world-class audio reproduction, bringing you closer to the original performance regardless of your position in the vehicle; everyone will feel and hear pure musical enjoyment.

Meridian is a registered trademark of Meridian Audio Ltd.
Trifield and the "three fields" device is a trademark of Trifield Productions Ltd.
Vehicles shown right are an HSE Dynamic Five-door in Fuji White and HSE Dynamic Convertible in Phoenix Orange.

MERIDIAN DIGITAL SURROUND SOUND SYSTEM

 16 SPEAKERS

 SUBWOOFER

 660 WATTS

 12 SPEAKERS

 SUBWOOFER

COMFORT FOR ALL

SEATING

For rear passengers, Coupe and Five-door body styles can be specified with optional heated rear seats.

No matter what the temperature, optional heated and cooled front seats are available on Five-door body styles. This enables both the driver and passenger to set their preferred temperature independently and is controlled via the Touchscreen.

For the ultimate in comfort, massage front seats are standard on Autobiography model allowing both the driver and front passenger to select individual programs via the Touchscreen. Varying in intensity, there are five settings to choose from; each one delivers a soothing massage to improve both the driver and passenger's comfort.

CONFIGURABLE AMBIENT INTERIOR LIGHTING

New levels of ambient refinement and personalization have been reached with Configurable Ambient Interior Lighting – standard on HSE, HSE Dynamic and Autobiography.

This feature allows you to vary the color and shade, changing the ambience of the cabin to suit your mood. There are ten colors in total, ranging from Ice White through to Moon Light and Racing Red.

PANORAMIC ROOF

On Coupe and Five-door body styles, the full glass fixed panoramic roof enhances the sense of space in the vehicle's interior and floods it with natural light as well as providing uninterrupted views of the surrounding environment.

Importantly, the toughened glass has a dark tint to maintain a comfortable temperature inside the cabin and protect occupants and the interior from the sun's rays. A full-sized, powered interior blind is also provided for those who may prefer a more private experience.

POWERED GESTURE TAILGATE

The optional powered gesture tailgate allows you to operate the tailgate (both to open and close) from outside the vehicle without needing to physically touch the vehicle or the smart key.

Provided that the smart key is detected, the tailgate may be operated by a kicking gesture underneath the rear of the vehicle.

Two sensors are mounted on either side of the tailgate to allow curbside operation, rather than needing to be immediately behind the vehicle. And as the system is compatible with towing solutions, you can still open and close the tailgate with the least amount of fuss. Powered gesture tailgate is not available on Convertible.

Additionally, if required, the tailgate can also be closed by pressing a button located on the inside of the tailgate.

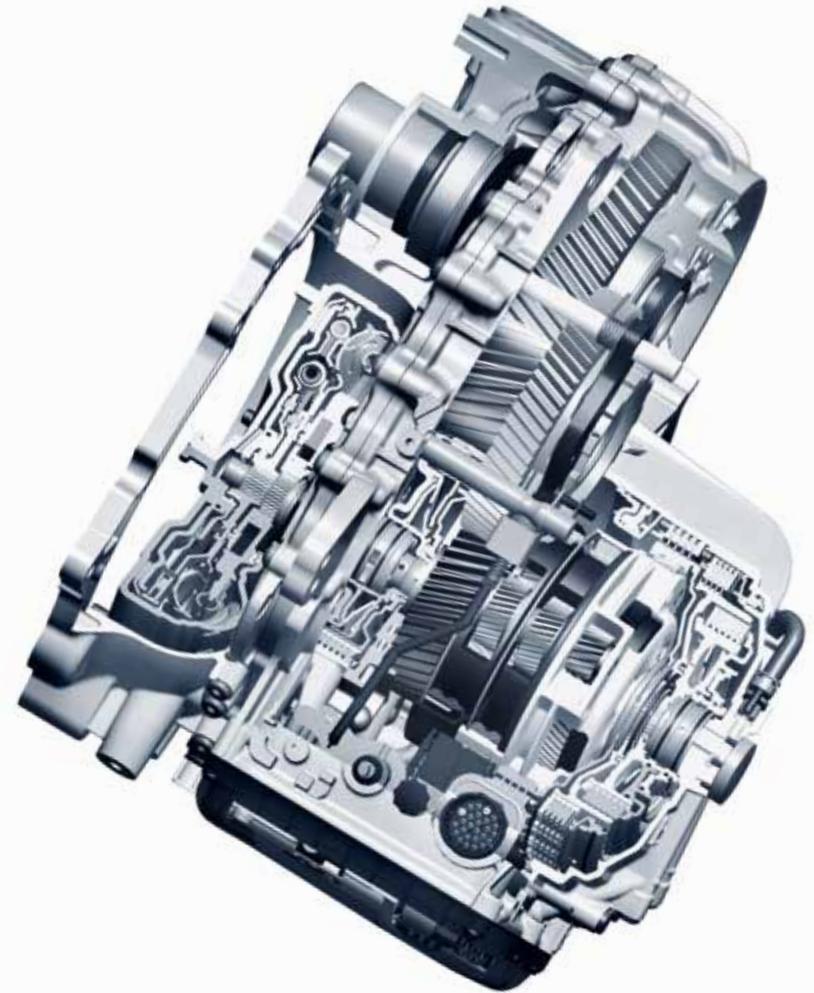

ENGINES

9-SPEED AUTOMATIC TRANSMISSION

The lightweight, compact 9-speed Automatic Transmission provides optimum fuel economy and CO₂ emissions as well as greater control in low-grip conditions or when towing through the specially designed, ultra-low first gear.

The transmission is specifically designed for transverse applications, and is one of the most efficient and technically advanced ever used in a production vehicle. Two patented dog clutches replace the bulkier conventional set-up, allowing small ratio steps to give better response during acceleration, plus improved shift quality, drive and refinement.

The higher top gear not only reduces fuel consumption but the lower engine revs improve comfort and reduce noise when cruising at a sustained speed. The 9-speed Automatic Transmission is extremely robust and perfectly complements Land Rover's rugged all-terrain ability while delivering exceptionally high levels of refinement and efficiency.

Vehicle shown left is HSE Five-door in Firenze Red.

2.0 LITER TURBOCHARGED I-4

The 2.0 liter Turbocharged I-4 engine is a lightweight all-aluminum 2.0 liter engine with the latest direct-injection technology. Advanced turbocharging and independent variable valve timing helps lower fuel consumption and CO₂ emissions compared with traditional larger capacity engines delivering equivalent performances.

The engine delivers a rich, powerful engine sound during strong acceleration and features a unique exhaust manifold for quicker warm-up and lower emissions, a low friction design and a state-of-the-art electronic management system.

This includes smart regenerative charging, which prioritizes the charging of the battery when the vehicle is decelerating to capture wasted kinetic energy and reduce fuel consumption. This is further enhanced by advanced Stop/Start technology and a cutting-edge electronic management system which provides precision control over the combustion process.

	ACCELERATION 0-60MPH (SECONDS)*	TOP SPEED (MPH)*	COMBINED** (MPG)
2.0 LITER TURBOCHARGED I-4 – 240 (HP) AUTOMATIC			
Coupe	7.1	135	24
Five-door	7.1	135	24
Convertible	7.8	112	23

*Always follow local speed limits

**EPA estimates. Actual mileage may vary.

BODY AND CHASSIS

STRENGTH AND STABILITY

BODY

Range Rover Evoque features an extremely strong body structure which has been developed using advanced, weight-saving materials to deliver outstanding stiffness and refinement.

The structure is based on a steel monocoque platform. Delivering the exciting design and sporting dynamics of Range Rover Evoque dictated that an all-new structure was developed.

Lightweight technologies are used extensively in the body design, including:

- Front fenders and tailgate assembly
- Magnesium cross car beam
- Optimized steel structure using high strength boron steels.

CHASSIS AND VEHICLE DYNAMICS

Range Rover Evoque has a chassis which has been specially developed by Land Rover's engineers to deliver on-road dynamics which combine sporting and agile responses with impressive refinement, while not compromising all-terrain capability.

Range Rover Evoque has fully independent suspension, with coil sprung struts front and rear, and isolated front and rear subframes, mounted to an exceptionally stiff steel monocoque bodyshell. The performance of the base suspension system is supplemented by advanced technologies such as an intelligent 4 Wheel Drive (4WD) system.

The chassis features a number of innovations, such as Electric Power Assisted Steering (EPAS)*, which help the vehicle achieve its unique dynamic character and improved efficiency**.

OPTIMIZED STRUCTURE

The use of special ultra-high-strength steels in strategic load-bearing areas was a key design objective. The finished steel structure uses 18 percent (by weight) of high strength boron steels. These specialized steels deliver increased strength in critical areas, without the need to increase the thickness and weight of the pressings.

The ultra-high-strength boron steel has been used in key parts of the crash safety cell, including the A-pillars and sills. Coupe and Five-door body styles also feature B-pillars constructed of ultra-high-strength boron steel. The resulting structure protects occupants using an incredibly strong and stable safety cell, and provides a very stiff platform for superior refinement and vehicle dynamics.

The use of ultra-high-strength boron steel in the A-pillar was critical in retaining the slim, raked pillar of the vehicle, without compromising the strength and safety of the structure.

The optimized steel structure protects occupants using an incredibly strong and stable safety cell. The crash structure was optimized using state-of-the-art computer simulation tools, which allowed engineers to conduct 'virtual' collision tests long before physical prototypes were available.

Pedestrian safety has been given a very high priority, with a carefully optimized design for the front-end, bumpers, hood and cowl area to minimize potential injuries.

The Convertible steel body structure is further optimized using high tech materials to ensure the high strength structure is retained.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

SAFETY

PROTECTION SYSTEMS

The vehicle has a comprehensive occupant safety package including driver and passenger airbags, driver knee airbag, side curtain airbags* and thorax airbags**†.

PASSENGER SEAT BELT CHECK SYSTEM

CURTAIN AIRBAGS† WITH ROLLOVER SENSING

In the event of a side impact or rollover, these are deployed to provide greater protection against head injuries.

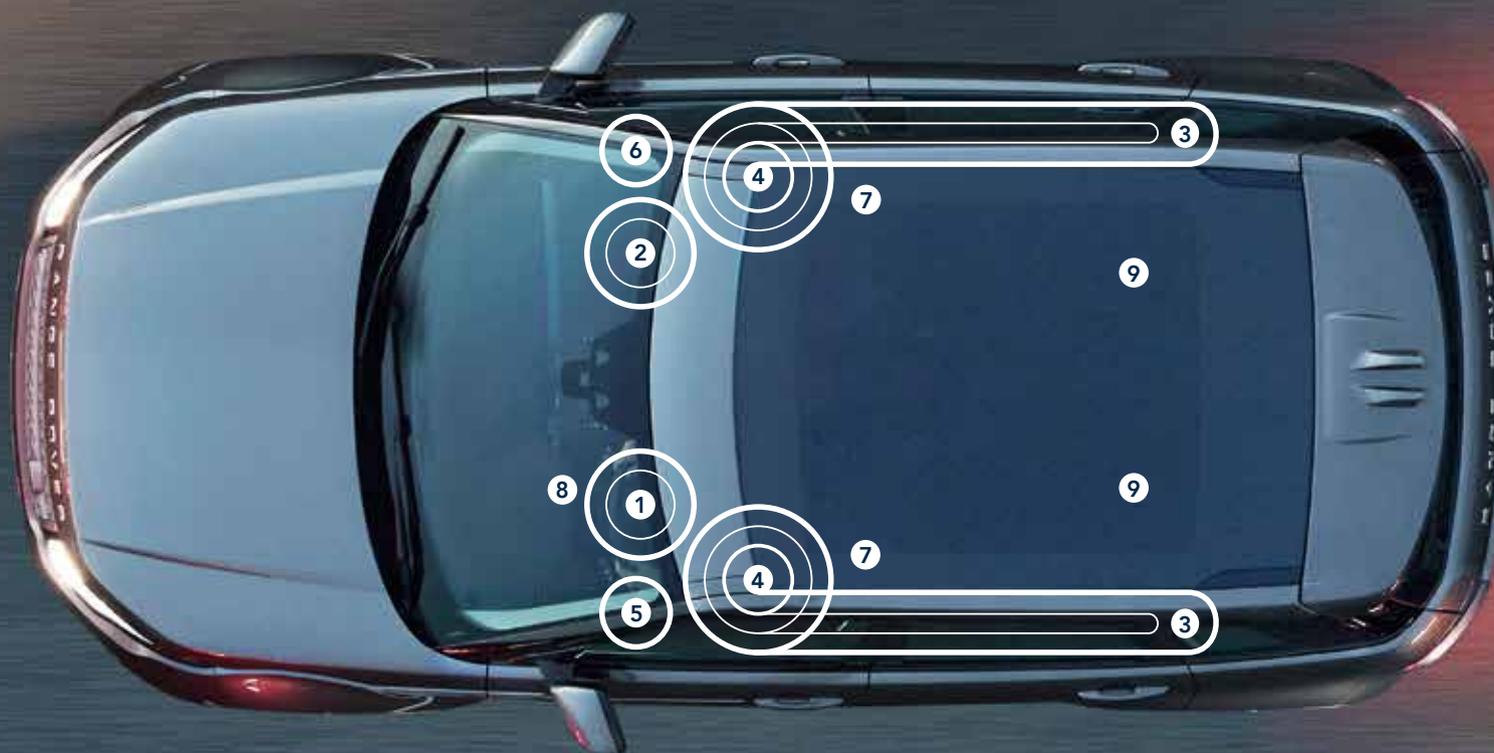

DUAL STAGE FRONTAL AIRBAGS†

The frontal airbags have two levels of inflation, to ensure they inflate to the optimum level, depending on the incident to provide maximum occupant protection.

DRIVER KNEE AIRBAG†

The driver knee airbag inflates in the event of a frontal impact, providing additional protection to the occupants' lower legs.

*Not available on Convertible **Convertible incorporates a combined head thorax airbag, providing head protection as well as thorax protection
†Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

ENVIRONMENTAL

SUSTAINABILITY

Range Rover Evoque is the most compact Range Rover ever. Its credentials stem from a comprehensive approach to reducing environmental impact throughout the life-cycle of the vehicle. Its size has helped Range Rover Evoque minimize weight, improve aerodynamic performance, and deliver more sporting, agile handling with a lower center of gravity.

Such radical thinking and production processes bear testimony to Land Rover's unwavering commitment to deliver a more sustainable future.

LIGHTWEIGHT MATERIALS

Starting at just 3,649lbs and using a range of advanced lightweight materials, Range Rover Evoque is the lightest Range Rover ever. There are key weight-saving materials throughout the vehicle, including a magnesium cross car beam, aluminum hood and, on the Coupe and Five-door body styles, also the roof. The front fenders and tailgate assembly are constructed from composite materials.

Even the laminated windscreen is reduced in weight to help improve fuel efficiency, performance and handling.

STOP/START

All engines feature intelligent Stop/Start technology that automatically shuts down the engine at rest and starts it again as soon as the brake pedal is released. This helps to reduce fuel consumption and CO₂ emissions.

LIFE CYCLE ASSESSMENT

In order to minimize the vehicle's overall ecological impact, Range Rover Evoque is designed with a life cycle approach, aiming to minimize the environmental impact by considering the entire life cycle of the vehicle: from development and manufacturing, through customer use, to end-of-life recycling and re-use. Each element of the life cycle was analyzed with a view to consuming fewer natural resources, using more sustainable materials and minimizing the generation of waste.

Vehicle shown left is HSE Dynamic Five-door in Yulong White.

RANGE ROVER EVOQUE OFFERS YOU GREAT OPTIONS AND FLEXIBILITY TO PERSONALIZE YOUR VEHICLE.

The following pages take you through a logical series of steps to make your vehicle a true expression of your individuality. You have a number of choices: from selecting your engine and model to exterior and interior colors, wheels, finishes and those detailed touches that define your character.

If you'd like to bring your options to life, go to our online configurator at landroverusa.com

DRIVELINE, ENGINE PERFORMANCE AND FUEL ECONOMY

The 2.0 liter Turbocharged 4-cylinder engine uses the very latest powertrain, coupled with lightweight all-aluminum technology and the 9-speed transmission, delivering improved fuel efficiency and lower CO₂ emissions.

The 2.0 liter Turbocharged 4-cylinder engine goes from 0-60mph in just 7.1 seconds*. The engine features Intelligent Stop/Start technology that automatically shuts down the engine at rest and starts it again as soon as you lift your foot off the brake.

EACH MODEL HAS A CHOICE OF ENGINES AND UNIQUE FEATURES

This guide will help you to select your ideal Range Rover Evoque. On the following pages you'll see the key standard features for each model.

RANGE ROVER EVOQUE SE

- Atlas grille surround
- Rain sensing windscreen wipers
- Auto-dimming interior rear view mirror
- Front Parking Aid*
- Ambient Interior Lighting
- Rear center armrest
- Halogen headlights
- 18" 5 split-spoke 'Style 506' alloy wheels

- Power fold, heated door mirrors and approach lamps
- 12-way electric front seats
- Brunel fender vent blade
- Grained leather seats
- Body-colored door handles
- All Terrain Progress Control (ATPC)*.

RANGE ROVER EVOQUE SE PREMIUM

Contents of SE, plus:

- Fixed panoramic roof
- Power fold, heated door mirrors with memory functionality and approach lights
- Powered gesture tailgate
- Front fog lights.

Replaces SE content:

- Narvik Black grille, fender vents and mirror caps
- Narvik Black hood louvers (Coupe only)
- Anthracite inner front and rear tow eye finishers
- Xenon headlamps with LED signature and power wash
- Narvik Black tailgate finisher
- 18" 7 spoke 'Style 706' alloy wheels
- Perforated grained leather seats
- 12-way electric front seats with memory.

RANGE ROVER EVOQUE HSE

Contents of SE Premium, plus:

- Automatic High Beam Assist (AHBA)
- Chrome treadplates
- Blind Spot Monitor with Reverse Traffic Detection*.

Replaces SE Premium content:

- Dark Atlas grille
- Atlas fender vents and tailgate finisher
- White Techno Silver inner and Dark Atlas outer front and rear tow eye finishers

- 19" 10 spoke 'Style 103' alloy wheels
- Configurable Ambient Interior Lighting
- Oxford leather seats
- Meridian™ Sound System 380W with 10 speakers plus subwoofer
- InControl Touch Pro Navigation** with 10" Touchscreen*.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

RANGE ROVER EVOQUE HSE DYNAMIC

Contents of HSE, plus:

- Dynamic body style
- Narvik Black hood vents
- Bright square exhaust finisher
- Perforated leather steering wheel
- Bright pedals.

Replaces HSE content:

- Narvik Black grille
- Corris Grey grille surround*
- Narvik Black fender vents and mirror caps
- Narvik Black inner and Indus Silver outer front and rear tow eye finishers*
- Body-colored door handles
- Narvik Black tailgate finisher
- 19" 7 split-spoke 'Style 707' alloy wheels
- Illuminated aluminum front treadplates with Range Rover script
- Textured Aluminum trim finisher.

RANGE ROVER EVOQUE AUTOBIOGRAPHY

Contents of HSE Dynamic, plus:

- Adaptive LED headlamps* with LED signature
- Heated steering wheel
- Surround Camera System*.

Replaces HSE Dynamic content:

- Autobiography badging
- Atlas grille, fender vents, hood vents and tailgate finisher
- Indus Silver inner and outer front tow eye finisher*
- Narvik Black inner and Indus Silver outer rear tow eye finishers*

- Unique 20" 5 split-spoke 'Style 527' alloy wheels
- Full Oxford leather interior
- Satin Brushed Aluminum trim finisher
- Front and rear premium carpet mats
- Illuminated aluminum front treadplates with Autobiography script
- 14-way electric memory front seats with massage
- Heated, cooled and massage front seats with heated rear seats
- Meridian™ Surround Sound 825W with 16 speaker plus subwoofer.

CONVERTIBLE MODELS

RANGE ROVER EVOQUE CONVERTIBLE SE DYNAMIC

- Dynamic body style
- Brunel grille with Narvik Black surround
- Halogen headlamps
- Brunel fender vents
- Body-colored door handles
- Narvik Black mirror caps
- Atlas hood and tailgate script
- Narvik Black inner and Corris Grey outer front and rear tow eye finishers[†]
- Bright square exhaust finisher
- Brunel tailgate finisher

- Power fold, heated door mirrors with memory functionality and approach lamps
- 18" 7 spoke 'Style 706' alloy wheels
- Wind deflector
- Rain sensing windscreen wipers
- 12-way electric front seats with memory
- Grained leather seats
- 10" Touchscreen[†]
- Meridian™ Sound System 380W with 10 speakers plus subwoofer
- All Terrain Progress Control (ATPC)*.

RANGE ROVER EVOQUE CONVERTIBLE HSE DYNAMIC

- Contents of SE Dynamic, plus:
- Front fog lamps
 - InControl Touch Pro Navigation**
 - Keyless Entry
 - Configurable Ambient Interior Lighting
 - Illuminated aluminum front treadplates with Range Rover script.

- Replaces SE Dynamic content:
- Narvik Black Dynamic grille with Corris Grey surround
 - Narvik Black fender vents
 - Narvik Black hood vents
 - Narvik Black tailgate finisher
 - Xenon headlamps with LED signature and power wash
 - 19" 7 spoke 'Style 707' alloy wheels
 - 12-way electric front seats with memory
 - Oxford leather seats.

[†]Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so
[†]Tow eye finishers vary depending on exterior color, please contact your nearest Land Rover Retailer for further information.

PERSONALIZING THE EXTERIOR

The Range Rover Evoque offers a unique design package option to further personalize the exterior. The Black Design Package emphasizes the confident stance of the vehicle, making it really stand out from the crowd.

BLACK DESIGN PACKAGE

The optional Black Design Package is available on HSE Dynamic models across all body styles. The package gives the overall design of the vehicle a more assertive appearance, with Narvik Black exterior elements and unique distinctive Satin Black alloy wheels.

- 20" 5 split-spoke 'Style 508' with Satin Black finish
- Narvik Black front and rear tow eye finishers
- Darkened headlamps, rear tail lamps and front fog lamps

- Narvik Black Range Rover script (hood and tailgate)
- Dynamic square Black exhaust finishers
- Narvik Black grille surround.

Driver Assistance, Safety and Security Features (continued)

	OPTION CODE	SE	SE PREMIUM	HSE	HSE DYNAMIC	AUTOBIOGRAPHY	SE DYNAMIC (CONVERTIBLE)	HSE DYNAMIC (CONVERTIBLE)	DESCRIPTION
360° Parking Aid (1) (3)	036MB	–	–	P3	P3	■	–	P3/P7	Sensors located around the vehicle are automatically triggered when reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles. Please refer to page 27.
Rear View Camera (1)		■	■	■	■	–	■	■	As one of the driver assistance technologies, providing improved visibility when reversing, the Rear View Camera is a valuable parking aid and offers help when hitching a trailer. Static lines representing the vehicles outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible.
Surround Camera System (3)	086GC	–	–	P3	P3	■	□	P3/P7	Using four digital cameras mounted around the vehicle, this system provides an all-round view of your surroundings on the full-color Touchscreen, assisting in tight maneuvering. When towing, it provides additional information to aid with reversing.
Airbags (driver airbags and knee bolster airbag; front passenger airbag, curtain airbags and side airbags) (6)		■	■	■	■	■	–	–	
Airbags (driver airbags and knee bolster airbag; front passenger airbag and side airbags – seat mounted with head protection) (6)		–	–	–	–	–	■	■	
Front height adjustable seat belts (Five-door only)		■	■	■	■	■	–	–	

■ Standard □ Optional – Not Available.

For more information on packages, see page 71.
P3 – Driver Assistance Package P7 – Lux Package.

(5) Only available with 360° Parking Aid (6) Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

Now you have chosen your Range Rover Evoque model, you can select your exterior paint color. From rich, deep lusters to incandescent metallic patinas, our paints incorporate the latest in pigment technologies. Our solid paints produce a deep flat color. Our metallics deliver a sparkle finish that is sure to catch the eye. And our premium metallic paints enhance both the color and the intensity of the sparkle or sleek metallic finish to give your vehicle even more presence.

INTERIOR FINISHERS

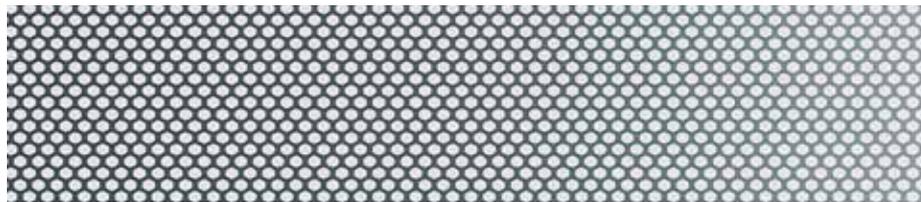

Now you have chosen your interior color combination, choose one of five interior finishers. For full availability and designer's choices, please see the color and trim matrix on pages 76-80.

Satin Brushed Aluminum

Gloss Black Strata*

Textured Aluminum

Figured Macassar Wood*

Dark Grey Oak Wood*

*When these horizontal trim finishers are selected the center console finisher will become Satin Brushed Aluminum.

6

LAND ROVER APPROVED ACCESSORIES

Range Rover Evoque is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Range Rover Evoque to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalization.

Importantly, these accessories can be added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

DESIGN

Side Tubes – Bright finish*
VPLVP0184 – SE, SE Premium and HSE
VPLVP0202 – HSE Dynamic and Autobiography
VPLVP0229 – Convertible

Highly Polished Stainless Steel side tubes provide an off-road inspired appearance, designed to complement the vehicle's exterior design.

Fixed Side Steps†**
VPLVP0225 – SE, SE Premium and HSE
VPLVP0208 – HSE Dynamic and Autobiography

Complete with a rubber tread mat and Brushed Stainless Steel trim, the fixed side steps provide easy access/exit to the vehicle's cabin and aids access to the roof. With embossed Range Rover branding, exterior Bright work and Bright anodized aluminum edge trim finish, they complement vehicle exterior design cues.

Alloy Wheel
VPLVW0113 – 19" 10 spoke 'Style 103' with Technical Gold finish**

Personalize your vehicle with a selection of alloy wheels featuring a wide range of contemporary and dynamic designs.

Illuminated Sill Treadplates†
VPLVS0078AAM – Espresso† (Coupe)
VPLVS0314AAM – Espresso† (Five-door)
VPLVS0078PVJ – Ebony (Coupe)
VPLVS0314PVJ – Ebony (Five-door)
VPLVS0078LAA – Lunar (Coupe)
VPLVS0314LAA – Lunar (Five-door)
VPLVS0314CJB – Cherry (Five-door)

Driver and passenger's front door sill treadplates add character to the vehicle and protect the sill trim from scuffs and scrapes. Co-ordinates with your vehicle's interior and subtly illuminates Range Rover script when the front doors are open.

Personalized Sill Treadplates†
Personalized illuminated treadplates allow you to choose a personalized message using an approved set of fonts/typefaces which will be highlighted in White illumination when the front doors are open.

Union Jack Treadplates (not shown)
To add a distinctly British style, consult your nearest Land Rover Retailer for further details.

Sport Pedal Covers
VPLHS0044 – Automatic (shown above)
VPLVS0178 – Sport Footrest – Automatic

Stainless steel Bright finish sports pedal covers are easy to fit and feature hidden fixings for a clean finish. Complementing the sports pedals, the footrest is manufactured from stainless steel and features a Satin finish.

*Fitting of side steps or side tubes may effect the off-road capability of the vehicle **Rim only. Center caps available separately
†Not available on Convertible †Please contact your nearest Land Rover Retailer for feature availability.
Please note all images in the accessory section are representative of the features advertised not vehicle specification.

TOURING

Luggage Roof Box*^Δ
VPLVR0062

Roof mounted luggage box with Gloss Black finish. Opens from both sides and is lockable for security. Includes power-grip mounting for easy and quick fixing to the roof bars. External dimensions: 5.74ft long, 2.7ft wide, 1.48ft high. Volume 410 liters. Maximum payload 150lbs.**

Luggage Carrier*^Δ
LR006848

Flexible rack system to facilitate roof carrying. Offers up to a 150lbs load carrying capacity. Maximum payload 138lbs.

Loadspace Rails^Δ
VPLVS0102
Loadspace Retention Kit*^Δ
VPLCS0324

The loadspace retention kit consists of a package of attachments that fix into the loadspace rails via a quick lock/quick release system to help provide a comprehensive and flexible solution for retaining luggage and other items within the loadspace. The attachment package includes a retractable strap with inertia reel and telescopic rod.

Towing Receiver
VPLVT0168

Draw Bar
VPLVY0061

Towing Electrics[†]
VPLHT0062
Provides power and light for the trailer through the Range Rover Evoque.

SPORTING

Roof Rails*^Δ
VPLVR0085 – Silver finish
VPLVR0086 – Black finish

Roof rails facilitate easy fitment of cross bars for roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Vehicle height when fitted: Coupe 5.28ft/Five-door 5.38ft. Maximum permissible load capacity 158lbs.

Silver Roof Trim Finisher
VPLVR0088 – Solid Roof

VPLVR0089 – Panoramic Roof

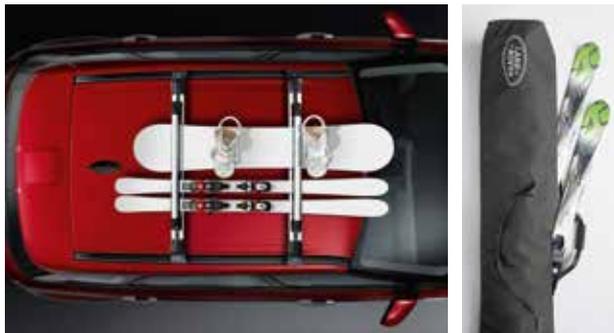

Crossbars*^Δ
VPLVR0073

Silver finish, adjustable position cross bars for vehicles fitted with roof rails. Aerodynamic profile designed to minimize drag and noise. Lockable for security and incorporating a T-slot to carry the Land Rover roof mounted accessory range. Vehicle height when fitted: Coupe 5.57ft/Five-door 5.64ft. Maximum permissible load capacity 158lbs.**

Aqua Sports Carrier*^Δ
VPLGR0107 – Single
VPLWR0099 – Twin (shown above)

Aqua Sports Carrier can be used to transport a variety of aqua sport gear feature includes lockable multipurpose holder to carry a mast, oars or paddles. Tilts to facilitate easy loading/ unloading. Features lockable straps and rubber supports to maintain optimum weight distribution while protecting the equipment and vehicle from scratches/ scuffs.

Ski / Snowboard Carrier*^Δ
LR006849

Carries four pairs of skis or two snowboards and incorporates slider rails for easy loading, is also lockable for security. Maximum payload 79lbs.**

Ski Bag
VPLGS0166

The Land Rover padded ski/ snowboard bag carries up to two pairs of skis and poles up to 70.8 inches long. It is manufactured from durable 600D polyester and features removable shoulder straps.

Roof Mounted Bike Carrier – Fork Mounted with Wheel Carrier*^Δ
VPLWR0101

Roof mounted cycle carrier provides a simple and secure fitting with the bicycle front wheel removed, ideally suited to lightweight bikes and 'racing' wheels. A separate carrier is included for the front wheel. Easy to fit, lockable cycle carrier which carrier one bicycle per holder. A maximum of two holders can be fitted.

Flexible Loadspace Protector^Δ
VPLVS0090

Heavy duty flexible fabric helps protect loadspace up to window height and covers loadspace floor with second row seat backs covered. Includes general purpose gloves.

*Requires loadspace rails – VPLVS0102 for fitting

**Not suitable for caravans, trailers or lighting boards fitted with rear mounted LED light kits ^ΔNot available on Convertible.

OUTDOOR

Luggage Partition Full Height*
 VPLVS0221 – Coupe
 VPLVS0220 – Five-door

Designed to prevent luggage from entering the passenger compartment. Easily removed. Complies with ECE-17 regulation.

Loadspace Rubber Mat*
 VPLVS0091 – Coupe and Five-door
 VPLVS0304 – Convertible

Black, waterproof loadspace rubber mat with retaining lip. Offers protection of the loadspace floor.

Loadspace Treadplate Finisher*
 LR039098

Manufactured from stainless steel with a Brushed finish, the rear loadspace treadplate finisher provides protection for the loadspace trim when loading or unloading.

Mudflaps Front*
 VPLVP0065 – SE, SE Premium and HSE
 VPLVP0066 – HSE Dynamic and Autobiography

Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Designed to complement vehicle exterior design.

Rear**

A WORLD OF LAND ROVER

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater loadspace. And its 'can do' attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience Centers. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco.

Adventure awaits.

landroverusa.com

LAND ROVER ONELIFE

Onelife, the award-winning Land Rover magazine, is published twice a year and reaches customers in 40 countries. Each issue is filled with the latest Land Rover news and vehicles, insights into the technology and design that shape each vehicle, inspirational journeys and opinions from international experts.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your nearest Land Rover Retailer to find out more.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service.

Distinctive, capable and versatile, all Land Rover vehicles deliver low total cost of ownership through strong residual values, competitive service, maintenance and repair costs, and impressive fuel economy.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

LAND ROVER COLLECTION

The vehicle is just the beginning. The latest Land Rover Collection is now available for you to discover.

A meticulous attention to detail doesn't stop with our vehicles. You'll find the same level of craftsmanship in all of our clothing, travel items and premium gift ideas. So whether you're shopping for yourself or a loved one, you know the quality is assured.

The Land Rover Collection includes ladies and gents clothing, an extensive range of small leather goods such as wallets, portfolios, iPad and iPhone cases along with briefcases and weekender bags. A range of cufflinks and ladies silk scarves add a luxury feel to the collection. There's a kids collection too, with colorful fun clothing, caps and replica model vehicles for them to enjoy.

Please contact your nearest Land Rover Retailer for more information.

ROADSIDE ASSISTANCE

Land Rover Roadside Assistance provides assistance in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle warranty period.

For further details please contact your nearest Land Rover Retailer or visit landroverusa.com

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Land Rover Retailer for more information.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.
