DEDICATED TO YOUR BUSINESS VEHICLE NEEDS

It's a pleasure to introduce you, our valued fleet customer, to the 2011 General Motors product lineup. Today, we have a clear mission ... to design, build and sell the world's best vehicles. Our products come with outstanding style, quality, fuel economy and safety, and I can assure you that everyone on the Fleet and Commercial team is not only working hard to understand your specific fleet challenges, but also working hard to provide you with the best solutions available.

The right products to meet your specific vehicle needs

Today, we proudly offer our fleet customers more than 40 individual nameplates from our four brands – Chevrolet, Buick, GMC and Cadillac. We have:

- One of the broadest selections of vehicles in the industry – from cars and crossovers, to vans and utilities, to trucks that range from midsize to the Heavy Duty 3500s
- *Automotive Fleet's* Car and Truck of the Year, the Chevrolet Malibu and Silverado
- And nine of Vincentric's "Best Fleet Value in America" winners – four pickups, two SUVs, a mid-size crossover, a van and even a police vehicle

With this kind of lineup, we feel confident, we have the products you need to build a fleet that works for you and your company.

Green Products and Technologies

We respect the environment and are dedicated to providing a number of alternatives that help reduce our dependency on petroleum, improve fuel economy and reduce tailpipe emissions.

- We have best-in-class highway fuel economy in many segments, including the midsize crossovers, the full-size pickups and the compact sedans with our all-new Chevrolet Cruze (coming Fall 2010) with an Eco model that is estimated to offer 40 mpg*
- Today, we have more than 4 million FlexFuel E85-capable vehicles on the road in the U.S. and we are increasing our number of FlexFuel offerings in 2011¹³
- Our trucks and vans are available with an all-new diesel engine that is also capable of running on B20 Biodiesel
- We have six hybrid offerings for the 2011 model year – four large SUVs and two pickups (available at participating dealers)
- And we are very proud to be bringing to market the very first extended-range electric vehicle, the Chevrolet Volt (launch targeted for end of 2010)

Best Coverage in America

Every product in our portfolio comes with the best coverage in America – our transferable Powertrain Limited Warranty plus Roadside Assistance and Courtesy Transportation Programs, which cover you for 5 years or 100,000 miles, whichever comes first. This is coverage you can't get anywhere else. See your dealer for details.

A large dealership network to service your fleet

Today, GM has a large and strong dealer network. So, no matter where your fleet vehicles are located – metro areas, hub towns or rural communities – a GM dealership with a tremendous amount of commercial expertise is nearby.

Professionals who understand your Business and Fleet needs

At GM's Fleet and Commercial Operations, we have an extensive team of professionals that is dedicated to the fleet customer:

- We have dozens of Fleet Account Executives located throughout the country who are ready to provide you with the information, answers and resources you need to manage your fleet
- Our Service-Fleet Account Executives are dedicated to resolving all vehicle service issues quickly and efficiently
- And our Fleet Action Center (1-800-FleetOp) is staffed by knowledgeable, experienced professionals who can help with your account inquiries, order management and service questions. The Center recently serviced its one-millionth customer and our satisfaction ratings are very high

Everyone on this team is dedicated to your business and we will go out of our way every day to exceed your expectations and continue to earn your loyalty.

Thank you for choosing GM,

Brian J. Small
General Manager
GM Fleet and Commercial Operations

* Based on GM segmentation. EPA-estimated MPG hwy: Traverse/Enclave/Acadia 24; Silverado/Sierra XFE 22; Cruze Eco based on GM testing, official EPA estimates not yet available.

THE CHALLENGE: LOWERING OVERALL COSTS

CHEVROLET • BUICK • GMC • CADILLAC

OUR SOLUTION: AWARD-WINNING FLEET VALUE

GMC Sierra 2500HD Work Truck Reg Cab 2WD
Full Size Heavy Duty Pickup, 3/4 Ton

GMC Yukon Denali 2WD
SUV, Large, Premium

Cadillac SRX Base FWD
Crossover, Mid Size, Premium

Nine GM models have been awarded Vincentric's 2010 Best Fleet Value in America,™ honoring vehicles with the lowest lifecycle costs in their segment. To determine the awards, Vincentric measured eight cost factors for over 2,000 vehicle configurations: depreciation, fuel, insurance, opportunity cost, financing, maintenance, taxes and state fees, and repairs. With so many smart choices from GM to fit your budget, it's no wonder that many of our award-winning vehicles are mainstays in commercial fleets. For more solutions, visit gmfleet.com.

CHEVROLET • BUICK • GMC • CADILLAC

Vincentric awards based on 2010 model level analysis. State fees and taxes not applicable to Chevy Impala Police Edition.

VEHICLE SOLUTIONS FOR SMALL BUSINESSES, FLEETS AND GOVERNMENTS

Small Business

Make the best business decisions without wasting time or resources.

- Search our comprehensive Vehicle Showroom
- Find current offers
- Locate a Business Central dealer

Fleet

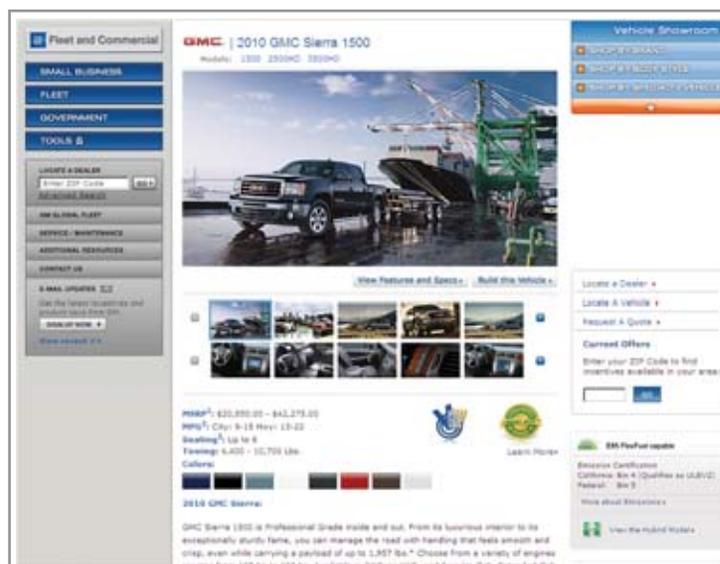

Simplify your vehicle management decisions.

- Streamline your research with the Vehicle Showroom and Online Order Guide
- Find a Fleet Account Executive (FAE) to assist you with purchasing and management
- Access ordering, service and warranty tools

Government

Get information to meet the needs of federal, state and municipal government fleets.

- Research police, alternative fuel, and commercial application vehicles
- Find a GM Government & Police Sales Manager to help you through the bid process
- Locate GSA catalogs, GSA Auto Choice, and vehicle standards

INFORMATION AND TOOLS TO GET THE JOB DONE

Visit Our Comprehensive Vehicle Showroom

Let us help you find the right vehicle for your business.

- Research the complete lineup of Chevrolet, GMC, Buick and Cadillac vehicles – cars, crossovers, vans and pickups
- View standard and optional equipment, detailed specs and photo galleries
- Use the new Build Your Own tool to build a vehicle the way you want it – with a variety of available features
- Review information on many specialty vehicle applications

Use Our Tools to Make Ordering Easier

Access ordering, maintenance and account tools – resources that can help take your business to the next level.

- Fleet Order Status
- Product Availability
- Online Order Guide and more

Bookmark Our Service and Maintenance Area

We offer a wide variety of helpful service and warranty tools to help keep your fleet on the road.

- Service Bulletins and Manuals
- Vehicle Warranty Information
- Service and Technical Training

Visit gmfleet.com

DEALERS DEDICATED TO YOUR BUSINESS

Chevrolet and GMC Business Central dealers across the country feature knowledgeable, professionally trained staff committed to helping businesses like yours identify the vehicles you need to operate your business effectively and efficiently. The right vehicles to get the job done, equipped the way you need them!

At a Business Central dealer, you'll find a wide selection of vehicles designed to tackle even the most demanding job. They stock work-ready vehicles, on-hand and ready to be delivered to you to keep your business moving. But if you're not certain a particular truck or van is right for your business, many Business Central dealers maintain a supply of demonstration vehicles for you to tryout. And if you require a vehicle with special upfits or equipment, your Business Central dealer works closely with specialty vehicle manufacturers to locate what you need.

Your time is valuable – when one of your vehicles needs maintenance, you're not able to take care of your customers. Business Central dealers understand this and have service facilities geared to keeping your vehicles on the road and operating at peak efficiency. They have equipment and expertise to conduct routine maintenance and make necessary repairs to keep you on the road and contributing to your bottom line.

Let a Business Central dealer be your one-stop vehicle shopping resource – where all of your business vehicle needs can be found in one place. Many Business Central dealers will even send a salesperson to you to help you get the vehicles you need. You'll save time, get the right vehicle and the service you need without running all over town.

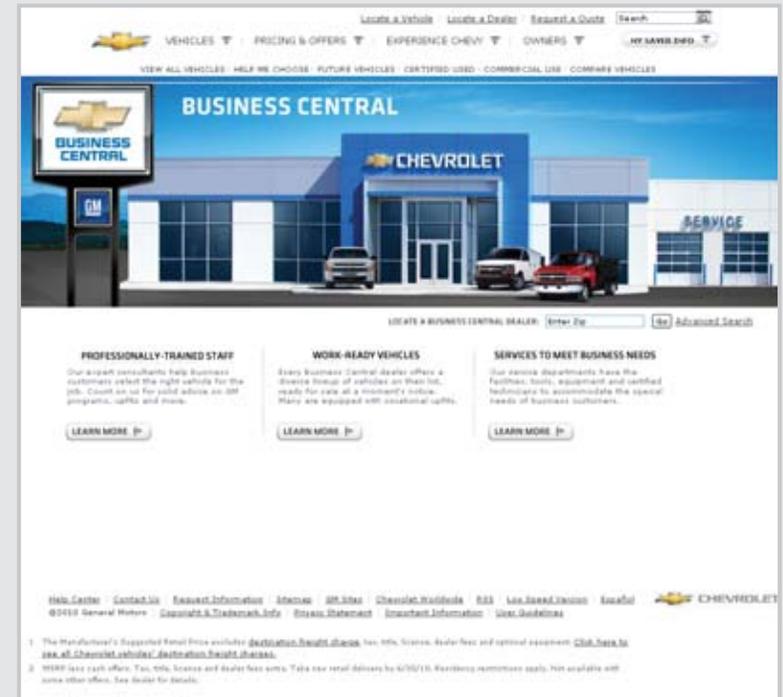

Chevrolet and GMC Business Central Dealers:

- Committed to businesses like yours
- Dedicated, knowledgeable, trained staff
- Commercially-oriented demonstrator vehicles
- Inventory of work-ready commercial trucks and vans available for quick delivery
- Access to Special Vehicle Manufacturers to help you get special upfits and equipment you need to get work done
- Service facilities staffed and equipped to cater to business customers

For full information and the location of Chevrolet and GMC Business Central dealers, visit our websites:

- chevybusinesscentral.com
- gmcbusinesscentral.com

GM Business Choice is a valuable offer designed specifically for business owners who use vehicles in the day-to-day operation of their business and not solely for transportation purposes.

This offer is available with eligible Chevrolet and GMC vehicles and provides a variety of upfit or card option choices.

UPFITS		CARDS	
 	 Upfit Cash	 	
OPTION A ¹	OPTION B ²	OPTION C ³	OPTION D ⁴
Van or truck upfit packages to meet your business needs	Flexible \$500 or \$1,000 upfit cash options for vans and trucks	\$500 Lowe's Gift Card with your eligible purchase or lease	\$500 statement credit on the GM Business World Card

The GM Business Choice Program runs from January 5, 2010 through September 30, 2010. You must purchase or lease your vehicle during the program period.

2010 GM BUSINESS CHOICE PROGRAM REQUIREMENTS

The 2010 GM Business Choice Program runs from January 5, 2010 through September 30, 2010. To qualify for the GM Business Choice Program, your vehicles must be part of the day-to-day operations of your business and not solely for transportation purposes. You must provide proof of your business. Visit gmbusinesschoice.com or see your Chevrolet or GMC dealer for complete program details. This program may not be compatible with other offers or incentive programs. Consult with your Chevrolet or GMC dealer for program compatibility and other restrictions. For complete program requirements, consult your Chevrolet or GMC dealer or gmbusinesschoice.com.

1 Depending on package chosen from Chevrolet or GMC Accessories or Adrian Steel®. Please refer to the vehicle eligibility chart at gmbusinesschoice.com or see dealer for details.

2 Visit gmbusinesschoice.com for a complete list of eligible upfit equipment. General Motors reserves the right, via Program Headquarters, to make final decisions regarding eligibility of equipment.

3 The entire gift card may be used for future purchases only. No cash back is given on any unused amount. Lowe's and the Gable Mansard Design are registered trademarks of LF, LLC.

4 The 2010 GM Business Choice Program runs from January 5, 2010 through September 30, 2010. Only GM Business Card World MasterCard® applicants not meeting credit requirements will receive a GM Business Choice MasterCard® Stored Value Card. Earnings may only be earned on transaction amounts up to a Cardmember's available credit line. Please see the GM Business Card World MasterCard® Program Rules that are applicable to your account. Earnings are administered by Chase. GM World MasterCard® for Business Cards are issued by Chase Bank USA, N.A. and may be serviced by its affiliates. Some services may be provided by MasterCard® or other providers. Certain restrictions and limitations may apply. Complete details will be provided upon establishing an account. MasterCard® is a registered trademark of MasterCard International.

Online parts/ordering link to local ACDelco Warehouse Distributors

- Order history and saved order sheets
- Labor, tech specs, and other optimal modules available soon
- For additional information, call 1-800-825-5886, option 3

The GMAC Commercial Services Group, located in Dallas, Texas, serves business accounts for the entire United States. We have the knowledge and special programs to fit most business transactions that you, as a business customer, depend on to meet your day-to-day requirements. Please contact your local General Motors dealer to inquire about the various plans and programs we offer.

GMAC Commercial SmartLease

(Closed-End Lease Plan) — SmartLease is an affordable way for qualified commercial customers to obtain the new vehicles they need. Terms can be up to 48 months and the residuals can be enhanced for special incentives. With SmartLease, customers pay for the portion of the vehicle they expect to use during the lease term, plus a rental charge, taxes and fees. As a result, SmartLease offers a number of distinct advantages over traditional financing, including potentially lower monthly payments, no resale or trade-in worries, and possible tax benefits. This option also allows customers to lease vehicles with certain specialized upfits. Contact your local GM dealership for additional information.

GMAC ComTRAC Lease

(Open-End Lease Plan) — ComTRAC Lease is an open-end lease plan designed as an alternative to our closed-end Commercial SmartLease. ComTRAC Lease allows customers to take advantage of leasing benefits without the typical security deposit, mileage restrictions and wear-and-tear issues associated with a closed-end lease. In addition, most specialized equipment (upfits) can be financed in the ComTRAC Lease program. Think of ComTRAC as leasing to own; the customer is responsible for the residual value. ComTRAC Lease is available to qualified commercial customers who use their vehicles more than 50% of the time for business purposes. With terms up to 60 months and residuals possibly as low as 0%, the plan is flexible. GMAC owns the vehicle during the lease term, which could give customers potential tax and accounting benefits. If there is a residual balance due to GMAC at the end of the lease term, the customer can purchase the vehicle, trade the vehicle, or sell the vehicle by paying GMAC the residual value plus any unpaid payments and charges. Also, the customer can return the vehicle to GMAC for remarketing for a fee of \$250 for light duty vehicles.

If the net sale proceeds are less than the residual value plus unpaid payments and charges, the customer is responsible for the difference. Contact your local GM dealership for additional information.

GMAC Municipal Lease-Purchase Plan

The Municipal Lease is a retail financing program for use by eligible municipalities or political subdivisions for their essential-use vehicles at favorable tax-exempt interest rates. Essential-use vehicles are those vehicles required for the proper functioning of the municipality. Specifically, this plan is designed for municipalities that intend to own their vehicles. The agreement offered to the municipality is highly specialized and includes requisite clauses that allow municipalities to enter into this type of transaction. Eligible vehicles include any new or used passenger car or light-duty truck up to one model-year old acquired from a dealership with a GM franchise. Upfitted vehicles are also eligible. Municipalities may choose monthly, quarterly, semiannual, or annual payment options. Contact your local GM dealership for additional information.

GMAC Commercial Line of Credit

The Commercial Line of Credit is designed for commercial applications of financing or leasing and is a quick and convenient way for companies to build their commercial fleets. It is flexible enough to meet the individual needs of almost any business. GMAC's Commercial Line of Credit can provide businesses with an additional source of capital designed specifically for the purchase or lease of commercial vehicles. By using the Commercial Line of Credit, customers can preserve any bank credit lines that they may have for

other business needs. Our goal is to provide quick, easy and flexible service. Once the Line of Credit is established with GMAC, a business can build its commercial fleet quickly and easily. Lines of Credit remain in effect for a full year. Talk to your local GM dealership about a Line of Credit now in order to make the buying process more efficient. GMAC's Commercial Line of Credit can be a great tool for your business. A Line of Credit can be established at your local GM dealership.

GMAC Third Party Guaranty

The Third Party Guaranty program is an exceptional selling point for some customers who require a Co-Applicant. The Third Party Guarantor is not an owner of the vehicle and is not named on the contract or title. The Third Party Guarantor is only responsible should the owner default. The Third Party Guaranty provides an alternative for some customers in an effort to meet a wider variety of customer needs.

For more information on our plans and products, please visit our website at www.gmacfs.com and click on GMAC Automotive Financing under Business Customers.

GM FLEET ACCOUNT NUMBERS (FANS)

A Qualified Fleet User is defined as any company which has purchased and registered or leased five (5) or more new cars and/or trucks (any combination of manufacturers) solely for use in its operation during the current or preceding calendar year or model year, or preceding twelve (12) month period, or that owns or leases fifteen (15) or more cars and trucks. Supporting documentation must be retained by the dealer and made available to GM upon request.

Fleet Account Numbers are assigned to qualified fleet companies upon application to General Motors through the GM Fleet Account Number System (GMFANS) in GlobalConnect. All marketing divisions of General Motors utilize a Common FAN for Ordering & Delivery of vehicles. Qualified Fleet customers may be eligible for fleet incentives, fleet programs and/or other incentives in conjunction with the purchase or lease of new cars and trucks.

Fleet users and/or GM dealers who do not comply with the Fleet Program requirements may have their Fleet Account Number terminated and may be charged back incentives or allowances. See the GMFANS website for retention rules and other stipulations.

FLEET ENROLLMENT APPLICATION PROCESSING

Fleet Account Numbers are assigned to qualified fleet companies upon application to General Motors through the GM Fleet Account Number System (GMFANS) in GlobalConnect. Each enrollment screen is reviewed prior to issuing new Fleet Account Numbers. Dealers will be notified of the results of this review via electronic mail. If the dealer or the fleet customer needs further clarification concerning a Fleet Account Number, a call should be placed to the Fleet Action Center at 1-800-FLEETOP (1-800-353-3867).

GENERAL MOTORS DUAL FLEET ACCOUNT NUMBER PROCESS

To process orders and deliveries for passenger cars and trucks for Fleet Leasing and Fleet Management Companies, General Motors requires the use of two (2) Fleet Account Numbers. Orders of this type should be entered in the Order Workbench system using the order type "FLS – Fleet Leasing Company". Deliveries of these types of sales should be reported through the Order Workbench, Deliver Vehicle tab using the delivery type "014 – Fleet Leasing Company". The Primary FAN to be entered is that of the Fleet Management or Fleet Leasing Company (lessor). The Lessee /End User FAN is that of the ultimate user/customer. This procedure allows both the dealers and GM to accurately track orders and deliveries for its fleet customers.

CHEVROLET, BUICK AND GMC PASSENGER CARS AND LIGHT DUTY TRUCKS

2011 Chevrolet, Buick and GMC owners are covered by a New Vehicle Limited Warranty and services that include the following:

Bumper-To-Bumper Coverage

- The 3-year/36,000-mile (whichever comes first) limited warranty covers repairs for all Chevrolet and GMC vehicles, including labor and parts, to correct any defect in materials or workmanship occurring during the warranty period¹
- A 4-year/50,000-mile (whichever comes first) limited warranty covers repairs for Buick vehicles, including labor and parts, to correct any defect in materials or workmanship occurring during the warranty period¹
- The 6.6L Duramax Diesel engine is covered for 5 years or 100,000 miles, whichever comes first¹
- Hybrid vehicles have separate component specific coverage¹

Courtesy Transportation

- If your vehicle requires warranty repairs during the 5-year/100,000-mile coverage period, alternate transportation and/or reimbursement of certain transportation expenses are available under the Courtesy Transportation Program². Several transportation options are available
- Courtesy Transportation is not part of or included in the coverage provided by the New Vehicle Limited Warranty. It excludes vehicles in daily and long-term rental service. General Motors and General Motors of Canada Limited reserve the right to make any changes or discontinue the Courtesy Transportation program at any time without notification

Roadside Assistance

- GM is proud to offer the response, security, and convenience of GM's 24-hour Roadside Assistance Program for a period of 5 years or 100,000 miles, whichever comes first. Consult your dealer for details³

THE BEST COVERAGE IN AMERICA

100,000 MILE
5-YEAR TRANSFERABLE POWERTRAIN
LIMITED WARRANTY¹
 +
100,000 MILE
5 YEARS OF COURTESY TRANSPORTATION
PROGRAM^{1,2}
 +
100,000 MILE
5 YEARS OF ROADSIDE ASSISTANCE
PROGRAM^{1,3}

In addition to the standard 3-year/36,000-mile (whichever comes first) New Vehicle Limited Warranty, all 2011 GM passenger cars, light duty trucks or vans come with a 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty¹ that:

- has a \$0 deductible
- is transferable to another owner at no charge

Plus, 5 years/100,000 miles (whichever comes first) of Courtesy Transportation and Roadside Assistance.^{1,2,3}

CADILLAC OWNER PRIVILEGES

Ownership of a Cadillac encompasses the highest standard of privileges and benefits in addition to the renowned Cadillac Gold Key Delivery System, as listed below

24-Hour Customer Assistance

- Contact Cadillac by calling the Customer Assistance Center at 1-800-458-8006, or through our website at www.cadillac.com. Our trained professionals are available to assist with any question or concern — 24 hours a day, 365 days a year

Cadillac Roadside Service

- Cadillac is proud to offer the response, security, and convenience of Cadillac's 24-Hour Roadside Service Program for a period of 5 years or 100,000 miles, whichever comes first^{1,3}
- Contact Cadillac Roadside Assistance at 1-800-882-1112

Trip-Interruption Protection

- Trip-Interruption Benefits and Assistance: If your trip is interrupted due to a warranty failure, incidental expenses may be reimbursed during the 5 year/100,000 miles (160 000 km) Powertrain warranty period. Items considered are hotel, meals, and rental car¹. Consult your dealer for details

Warranty Protection

- The Cadillac Bumper-To-Bumper new vehicle limited warranty covers the vehicle for 4 years/50,000 miles, whichever comes first, with no deductible
- Sheet metal panels are covered against corrosion and rust-through as follows:
 - Corrosion: Body sheet metal panels are covered against rust for 4 years or 50,000 miles, whichever comes first
 - Rust-Through: Any body sheet metal panel that rusts through, an actual hole in the sheet metal, is covered for up to 6 years, unlimited mileage
- Important: Cosmetic or surface corrosion, resulting from stone chips or scratches in the paint, for example, is not included in sheet metal coverage
- Consult your dealer for details

Gold Key Delivery

- The Sales Consultant will conduct a thorough inspection, then provide a complete tour of the new Cadillac and present a package of ownership materials

Tires: See tire manufacturer's information supplied with vehicle.

1. Consult your dealer for details.
2. Courtesy Transportation is not part of or included in the coverage provided by the New Vehicle Limited Warranty. General Motors and General Motors of Canada Limited reserve the right to make any changes or discontinue the Courtesy Transportation program at any time without notification. (Excludes vehicles in daily and long-term rental service.)
3. Roadside Assistance is not part of or included in the coverage provided by the New Vehicle Limited Warranty. General Motors and General Motors of Canada Limited reserve the right to make any changes or discontinue the Roadside Assistance program at any time without notification.

Warranty coverages are determined by the mileage of the vehicle and the number of months from the delivery date.

STABILITRAK®

Electronic stability control systems, such as GM's StabiliTrak, are becoming increasingly important on today's vehicles. StabiliTrak not only helps to enhance vehicle safety but also increases driver confidence and control.

Electronic Stability Control goes by many names. It's called Active Handling on Corvette and StabiliTrak on most other GM vehicles. In all cases it provides the same benefits.

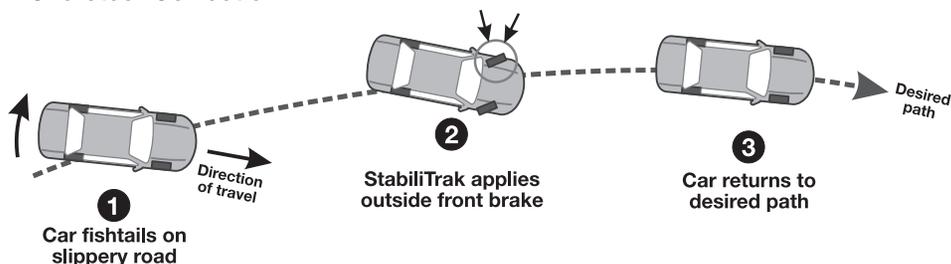

Key benefits include:

- Helping the driver to maintain control of the vehicle during certain low traction driving conditions such as ice, snow, gravel, wet pavement and uneven road surfaces
- Helping the driver to maintain control of the vehicle in emergency lane changes or avoidance maneuvers
- Helping the driver to avoid collisions
- Helping automatically — no driver action to activate the system is required

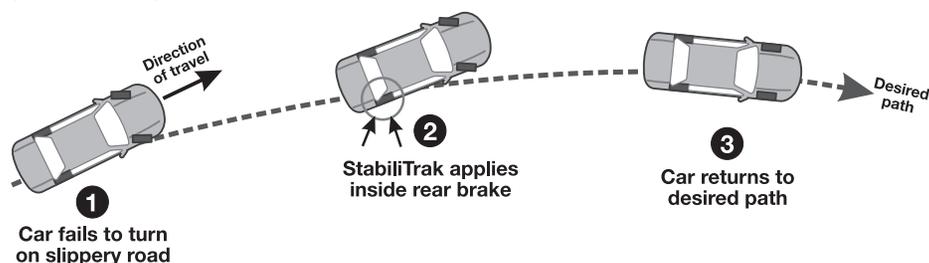

The StabiliTrak system works by recognizing the start of an understeer or oversteer condition. Sensors detect the difference between the direction the driver is actually turning and the vehicle's response by "reading" the steering wheel position, the amount of sideways force in place, vehicle speed, and how the vehicle is turning.

When necessary, the system automatically applies precise amounts of brake pressure at individual wheels and reduces the engine torque to help the driver keep the vehicle on track. These brake and engine interventions help realign the vehicle's path with that being steered by the driver.

Oversteer Correction

Understeer Correction

BRAKE ASSIST

Brake assist monitors the driver's use of the brake pedal, automatically sensing an attempt to stop the car as a result of panic. It then generates very high braking power, even when the driver is only pressing lightly on the brake pedal. When this is used together with antilock braking systems, it results in faster and safer braking.

Brake Assist detects circumstances in which emergency braking is required by measuring the speed with which the brake pedal is depressed. When panic braking is detected, the Brake Assist system automatically develops maximum brake boost in order to mitigate a driver's tendency to brake without enough force.

GRADE BRAKING

The automatic transmissions on Heavy Duty Pickups constantly monitor vehicle speed, acceleration, engine torque and brake pedal use. The transmission control module detects a downhill condition and automatically implements a shift schedule that effectively utilizes the engine and transmission to slow the vehicle and, in turn, reduce wear on the traditional braking system. The method used to slow the vehicle is by automatically preselecting the next lower gear range.

ADVANCED ENGINE TECHNOLOGY

Good fuel economy comes from GM advanced engine technology. GM Powertrain's current lineup reinforces GM's commitment to reducing emissions and improving the efficiency and performance of its internal combustion engines, automatic transmissions and hybrid systems.

Fuel-saving engine technology options include diesel power with the Duramax 6.6L V8 Turbo, innovative direct injection (see right), Active Fuel Management™, Variable Valve Actuation and Variable Valve Timing (VVT).

In addition to improving engine efficiency, GM has a broad portfolio of advanced six-speed automatic transmissions to increase overall powertrain performance. GM six-speed automatic transmissions use a wide gear ratio spread to improve both performance and fuel economy over traditional four-speed automatics.

Duramax Diesel 6.6L V8 Turbo

CHEVY VOLT LAUNCH TARGETED FOR 2010

The Extended-Range Electric Vehicle that is redefining the automotive world is no longer just a rumor. In fact, its propulsion system is so revolutionary, it's unlike any other vehicle or electric car that's ever been introduced.

Chevy Volt is designed to move more than 75 percent of America's daily commuters without a single drop of gas.* That means for someone who drives less than 40 miles per day, Chevy Volt will use zero gasoline and produce zero tailpipe emissions.**

Chevy Volt. Fully charged 2010.

* Source Vol. 3, Issue 4, Oct. 2003 Omnistats – U.S. Dept. of Transportation, Bureau of Transportation Statistics.

** Assumes fully charged battery. Actual range may vary depending on driving habits and conditions. Vehicle features and performance capabilities subject to change without notice.

Pre-production model shown. Actual production model will vary.

SPARK IGNITION DIRECT INJECTION (SIDI)

GM continuously strives to achieve maximum engine performance and efficiency from every droplet of fuel. Direct injection has been used successfully in diesel engines for many years. The application of this technology to gasoline engines is termed Spark Ignition Direct Injection (SIDI).

With direct injection, the fuel is injected directly into the cylinders. Vaporization of the fuel within the cylinder lowers the temperature of the air and fuel mixture which reduces engine knock. Less knock allows increased compression ratio, which in turn increases peak engine power and improves overall fuel efficiency.

GM direct injection engines include:

- Ecotec 2.0L turbo 4-cylinder
- Ecotec 2.4L 4-cylinder
- 3.0L V6
- 3.6L V6

GENERAL MOTORS — DRIVING CHANGE WITH ADVANCED TECHNOLOGIES AND ALTERNATIVE FUELS

As you consider the possibility of adding alternative fuel vehicles to your fleet, consider GM's leadership role in developing vehicles capable of using alternative fuel sources.

Consider these GM facts:

- Wide availability of E85 Ethanol capabilities
- GM's Duramax diesel engines are bio-diesel compatible

E85 ETHANOL

FlexFuel vehicles are helping provide a choice

Energy demands have increased the focus on reducing our dependence on petroleum. You should have the ability to choose an alternative. GM provides that choice by offering many different FlexFuel vehicle models that can run on gasoline, E85 or any combination of the two. With more than 4 million FlexFuel vehicles on the road in the United States, and many more to come, GM is enabling the potential of ethanol to meet our nation's increasing energy needs – today and tomorrow.

Why should we choose to fuel with E85?

E85 ethanol is a mostly renewable biofuel that consists of 85% ethanol and 15% gasoline. It can be made from biomaterial like U.S.-grown crops and waste; and it's cleaner-burning, which can help lower greenhouse gases.

What's next for E85?

E85 is already one of the best near-term solutions, and its potential is just starting to be realized. Studies show that by 2030 ethanol can replace up to 35% of U.S. petroleum use. Prospects are looking bright as breakthroughs in ethanol technology are happening every day. Ever dream that one day garbage could fuel your vehicle?

Where is it?

Because GM FlexFuel vehicles can run on E85, you can choose the fuel that's best for you at more than 1,900 E85 service stations nationwide. That number is growing. Go to www.gmfleet.com/afv to see if there is a station near you.

2011 GM VEHICLES WITH FLEXFUEL CAPABILITY

See specific vehicles sheets for engine availability.

Buick	Lucerne Regal
Cadillac	Escalade Escalade ESV Escalade EXT
Chevrolet	Avalanche Caprice PPV Equinox Express HHR Impala/Impala Police Malibu Silverado Suburban Tahoe/Tahoe Police
GMC	Savana Sierra Terrain Yukon/Yukon Denali Yukon XL/Yukon XL Denali

B20 BIODIESEL

Starting in 2011, all GM Duramax 6.6L Turbo Diesel engines will have biodiesel capability standard. That means fuel-grade biodiesel (B20 or up to 20% biodiesel) — produced to strict industry standards — can be used.

GM Heavy-Duty pickups and full-size vans with the Duramax 6.6L turbo diesel V8 comply with regulations that require the reduction of nitrogen oxide and hydrocarbons by more than 50%, and particulate matter by 90%. Advanced technology and the use of Ultra-Low Sulfur Diesel fuel are combined to deliver the power and torque demanded by commercial customers.

2011 GM VEHICLES WITH BIODIESEL CAPABILITY

Chevrolet	Silverado HD Express
GMC	Sierra HD Savana

For more information, please visit our website at www.gmfleet.com/afv.

With more than 4 million FlexFuel vehicles on the road, GM is the leader in E85 technology.

HYBRID VEHICLES HELP GM IMPROVE FUEL ECONOMY, REDUCE EMISSIONS

With improved fuel efficiency and fewer emissions, GM hybrids are helping to fulfill many fleet requirements.

These full-size Hybrid models use a patented, two-mode, full-hybrid technology that is optimized for both city and highway driving, for a significant fuel consumption improvement over non-hybrid versions. For example, the Silverado 1500 2WD Hybrid offers 40% better city, and 29% better combined mileage than the comparable non-hybrid model.

GM's Two-Mode Hybrid system operates on engine power, electric power, or a combination of both. A sophisticated control module determines the amount of power required at a given moment and seamlessly selects the appropriate operating mode. The system uses regenerative braking to recapture energy naturally lost during braking and coasting so it can be used at a later time.

In Hybrid Mode 1, used mainly at low speeds with light loads, GM two-mode hybrids can operate using electric power alone, supplied by the onboard 300-volt battery. Mode 1 can also use just engine power or a combination of electric and engine power. Fuel consumption is reduced in stop-and-go traffic by operating on electric power alone when your vehicle is stopped, seamlessly restarting when you accelerate.

In Hybrid Mode 2, used as vehicle demands increase in both city and highway driving, electric power supplements the engine to improve fuel economy. Fuel consumption is reduced by providing some of the needed power from the battery, allowing the 6.0L V8 engine to run more efficiently.

A 300-volt battery pack is larger than a typical battery, but fits in without compromising passenger space. No plug-in is required.

2011 GM HYBRID VEHICLES

GM MOBILITYSM

REIMBURSEMENT PROGRAM WITH ONSTAR[®]

For seniors, people with disabilities, and their caregivers.

GIVING YOU THE ABILITY TO GET THERE AND THE CONFIDENCE TO GO.

[Table of Contents](#)

GET UP TO \$1,000, PLUS TWO ADDITIONAL YEARS OF STANDARD ONSTAR SERVICE AT NO ADDITIONAL COST!*

In today's world, the importance of freedom and mobility cannot be overstated. That's why GM Mobility and OnStar have teamed up to bring GM customers with unique transportation needs a special offer that will add greater mobility, security, and freedom to their lives.

Through the GM Mobility Reimbursement Program, customers who purchase or lease a new 2010 or 2011 Chevrolet, Buick, GMC or Cadillac vehicle can receive **up to \$1,000* in reimbursement** (\$1,200 on Chevy Express and GMC Savana) toward the cost of eligible adaptive equipment installed (or reinstalled) on their new vehicle.

In addition, customers of GM vehicles equipped with OnStar may also qualify for **two additional years* of standard OnStar service** at no additional cost.

TO GET AN APPLICATION OR TO LEARN MORE, VISIT US ONLINE AT GMMOBILITY.COM OR CALL 1-800-323-9935.

CADILLAC

GM Mobility has teamed up with OnStar,¹ a safety and security service, to make sure help is there when you need it most. Available on most GM models, OnStar features include:

- A link to Emergency Services
- Automatic Crash Response²
- Roadside Assistance³
- Remote Door Unlock⁴
- And more

For more information about OnStar, call 1-888-4ONSTAR or visit onstar.com.

- ¹ Call 1-888-4ONSTAR/1-888-466-7827 (TTY 1-877-248-2080) or visit onstar.com for details and system limitations.
- ² OnStar acts as a link to existing emergency service providers. Visit onstar.com for vehicle availability, details and system limitations.
- ³ Roadside service provided by Cross Country.
- ⁴ Remote Door Unlock success varies with conditions. Services vary by model and model year.

*Limit \$1,000 per vehicle (\$1,200 for Chevy Express and GMC Savana). See GM Mobility Reimbursement Program Application for complete program details, limitations, and eligibility. Some GM Mobility adaptive equipment may require a physician's validation. General Motors does not assume responsibility for the quality, safety, or efficiency of aftermarket adaptive equipment or installation and cannot guarantee that such modifications comply with all applicable safety standards. Except for OnStar TTY equipment and safety belt extenders, equipment available from General Motors (i.e., regular production options and GM Accessories) is not eligible for reimbursement. This includes, but is not limited to, assist steps/running boards. General Motors reserves the right to modify or terminate this program without notice. The marks of General Motors, its divisions, slogans, emblems, vehicle model names, vehicle body designs, and other marks appearing in this advertisement are the trademarks and/or service marks of General Motors, its subsidiaries, affiliates, or licensors. ©2010 General Motors. 10CRDMOBINS01

OnStar^{®1} is the in-vehicle safety and security system created to help protect your drivers on the road.

PEACE OF MIND.

It's what you get when you have OnStar-equipped vehicles in your fleet. It's a good feeling to know that whatever your drivers encounter on the road, OnStar can be there to provide the human connection to the help they need. They only have to push one button to be connected to a highly trained Advisor. And if they are involved in a crash, OnStar can automatically connect to their vehicle. Whether your driver needs help in an emergency or directions to their next customer's location, we're just a button press away.

SAVE TIME AND MONEY.

OnStar can help you do both. With security services such as Remote Door Unlock and Roadside Assistance, we help your drivers get back on the road quickly. And Stolen Vehicle Assistance provides additional protection for your fleet investment.

NEW FOR 2011 MODELS! All 2011 MY OnStar-equipped vehicles, except Cadillac, come with **six months of Directions & Connections[®] standard.** All Cadillac models come with one year of the Directions & Connections Plan.

OnStar is available on these 2011 models:

New packaging for 2011 model year vehicles

Directions & Connections is now standard for six months on all 2011 model year vehicles (12 months on Cadillac).

OnStar Services

HOW TO FIND THE SERVICE PLAN THAT'S RIGHT FOR YOU.

After the first year, you can renew your OnStar³ service for as low as \$18.95/month.

Safe & Sound[®]
Directions & Connections

	Automatic Crash Response In a crash, built-in sensors can automatically alert an OnStar Advisor who is immediately connected into your car to see if you need help.	●	●
	Emergency Services One push of the red emergency button gives you a priority connection to an Advisor who can direct emergency service providers to you.	●	●
	Crisis Assist During severe weather and other natural disasters, OnStar can provide evacuation routes, shelter locations, updates and a connection to loved ones.	●	●
	Stolen Vehicle Assistance We use GPS technology to provide authorities with the exact location of your stolen vehicle to help recover it. On select '09 and newer vehicles, the Advisor can further assist authorities with Stolen Vehicle Slowdown[®] and send a remote signal to slow down a stolen vehicle.	●	●
	Remote Door Unlock If you're locked out, a quick call connects you to an Advisor, who can send a remote signal that usually unlocks your doors within minutes.	●	●
	Roadside Assistance If you're stranded or out of gas or if you have a flat tire, push the blue OnStar button and an Advisor can direct a nearby service provider to your exact location.	●	●
	Remote Horn and Lights If you can't locate your vehicle, an Advisor can help you find it by sending a remote signal to sound your horn and flash your lights.	●	●
	OnStar Turn-by-Turn Navigation Even when you kind of know the way, you can know for sure with voice-guided directions to your destination.		●
	Hands-Free Calling A wireless service built into OnStar-equipped vehicles, in case your cell phone is unavailable or out of range or has a low battery.	●	●
	Vehicle Diagnostics Every month, your vehicle can run automatic checks of your engine, transmission, antilock brakes and more, and email you the results.	●	●

OnStar Business Vehicle Manager

YOUR FLEET MANAGEMENT SOLUTION.

Each month, vehicles enrolled in OnStar Business Vehicle Manager (BVM) automatically send OnStar the current odometer reading, oil life, and any open recalls. Two consolidated reports (summary, detail by VIN) are sent to participating fleets each month. To receive BVM, fleets must order code **RFA**. RFA is a **no-additional-charge option**.

The benefits of BVM include:

- Timely and optimal maintenance
- Reduction of unnecessary maintenance costs
- Accurate vehicle mileage logs

OnStar Factory Option Packages For Fleet

Package Description*	Option Code*	Package Price*

OVERVIEW

Aveo — Chevrolet's entry-level vehicle — is available in the 4-door sedan model or the Aveo5 hatchback model. Both models comfortably seat five, and include plenty of extra features. The Aveo5 interior, with the cargo flexibility of a hatchback, includes up to 37.2 cubic feet of cargo space.⁴ The fuel-efficient Ecotec 1.6L DOHC engine offers EPA-estimated miles per gallon of 27 city and 35 highway with the manual transmission. Aveo includes standard OnStar® 6-months Directions & Connections Plan² with Turn-by-Turn Navigation³ and available XM® Radio,³ features that are usually expected in larger, more expensive cars.

NEW FOR 2011

- Cabin air filtration on LT model
- OnStar® 6-months Directions & Connections Plan² with Turn-by-Turn Navigation³ (fleet delete available)

Approx. fuel capacity (gallons)	12	12

SELECTED STANDARD FEATURES

Safety and Security

- Advanced dual-stage front air bags with Passenger Sensing System¹
- Side-impact air bags¹ for driver and front passenger
- 3-point safety belts, all positions, with front seat height adjustment
- Child security rear door locks
- LATCH (Lower Anchors and Top tethers for CHILDREN) system
- Daytime Running Lamps
- OnStar® 6-months Directions & Connections Plan² with Turn-by-Turn Navigation³ (fleet delete available)
- Tire Pressure Monitoring System⁹

Interior

- Reclining cloth front bucket seats with driver height adjustment
- 60/40 split-folding rear seat; flip-and-fold on Aveo5
- Floor console
- Full instrumentation including tachometer
- Tilt adjustable steering column
- Padded visors with vanity mirrors
- 12-volt power outlet

- AM/FM stereo with digital clock and auxiliary input jack
- Air conditioning (LT)
- Rear-window defogger
- Carpeted floor mats (LT)
- Rear cargo shade (Aveo5)

Mechanical

- Front-wheel drive
- Ecotec II 1.6L DOHC 16-valve 4-cylinder engine with 108 hp and 105 lb.-ft. of torque
- Oil Life Monitoring System
- Electronic throttle control
- 95-amp alternator
- 5-speed manual transmission
- Power front disc/rear drum brakes
- Independent front/semi-independent rear suspension
- Power rack-and-pinion steering
- Stainless steel exhaust system

Exterior

- Variable intermittent front windshield wipers
- Fold-away rearview mirrors
- P185/60R14 all-season tires
- Full bolt-on wheelcovers

SELECTED OPTIONAL FEATURES

- Antilock brake system
- Leatherette seating surfaces
- Leather-wrapped steering wheel
- Driver Convenience Package includes Driver Information Center and steering wheel-mounted audio controls (LT)
- Air conditioning provisions and kit for dealer install (LS)
- Cruise control
- Power and Convenience Package includes Remote Keyless Entry, power door locks, power trunk release, power windows, content theft-deterrent system, power outside mirrors
- Power sunroof
- Audio: CD/MP3 player, 6-speaker premium sound system, XM® Radio³ 3-month trial
- Oil pan heater
- 4-speed automatic transmission with hold control mode
- Front fog lamps
- 15-inch steel or aluminum wheels
- P185/55R15 all-season tires
- Rear spoiler

OVERVIEW

The all-new 2011 Chevrolet Cruze (coming Fall 2010) delivers many features and details that challenge preconceived notions about what a compact car can be in North America. It also confirms Chevrolet's commitment to building refined vehicles using new, small-displacement, four-cylinder engines. Cruze brings a progressive, globally influenced design complemented by quietness, quality and attention to detail.

Cruze offers many features including standard OnStar^{®2} for 6 months and available XM Radio³, USB port¹⁸, Bluetooth¹⁷ and Pioneer sound system.

Shown with optional equipment

SELECTED STANDARD FEATURES
Safety and Security

- Ten standard airbags¹ including front, front and rear side-impact, head curtain side-impact and front knee
- OnStar[®] 6-months Directions & Connections Plan² with Turn-by-Turn Navigation⁸
- Daytime Running Lamps and automatic headlamps
- Tire Pressure Monitoring System⁹
- StabiliTrak[®] stability enhancement system with traction control and rollover mitigation

Interior

- Front bucket seats with integrated center stack design
- 60/40 split-folding rear seatbacks with fold-down center armrest
- Air conditioning
- Upper instrument panel storage bin
- 3-gauge instrument cluster with Driver Information Center
- Ice Blue LED backlighting
- Remote Keyless Entry

- Power door locks
- Power windows with express-down
- AM/FM stereo with 6 speakers and auxiliary input jack
- 2 auxiliary power outlets

Mechanical

- Front-wheel drive
- 1.8L I-4 engine with 136 hp (LS)
- 1.4L Turbocharged I-4 engine with 138 hp (LT and LTZ)
- 6-speed manual transmission
- Power front disc/rear drum antilock brakes
- Front independent MacPherson and rear Z-link torsion beam suspension
- Electric power rack-and-pinion steering

Exterior

- Acoustic laminated windshield
- 16-inch steel wheels
- P215/50R16 low-rolling resistance tires

SELECTED OPTIONAL FEATURES

- Packages: Connectivity, Connectivity+, Convenience, Convenience+, Appearance
- Audio: USB port¹⁸, XM Radio,³ Bluetooth[®] wireless technology for select phones,¹⁷ Pioneer audio system, DVD-based navigation system,¹¹ steering wheel controls
- Seats: leather seating surfaces, heated, 6-way power driver
- Leather-wrapped steering wheel
- Automatic climate control
- Cruise control
- Remote Vehicle Starter System
- Floor mats
- 6-speed automatic transmission
- 16-, 17- or 18-inch aluminum wheels
- Power outside heated rearview mirrors
- Rear park assist
- Sunroof
- Rear decklid spoiler

Featuring a 1.4L Ecotec turbocharged engine with variable valve timing, the Cruze Eco is designed to be the most fuel-efficient model in the lineup, offering an estimated 40 mpg on the highway (based on GM testing, official EPA estimate not yet available) with the standard six-speed manual transmission.

Specific Eco features enhance its aerodynamics, minimize weight and reduce rolling resistance. The Cruze Eco will be available in the fourth quarter of 2010.

- Universal Home Remote
- Luxury Edition Package (LT only)
- 17- and 18-inch aluminum wheels
- Power sunroof

Impala's standard V6 engines have E85 FlexFuel capability that allows the vehicle to run on either gasoline or E85 — a blend of 85% ethanol and 15% gasoline or a combination of both. E85 is a cleaner-burning, mostly renewable fuel source that can be made from U.S.-grown organic materials. It helps reduce greenhouse gases and can enhance the nation's economy and energy independence. Visit gm.com/biofuels to see if there is an E85 station near you.

AVAILABLE EXTERIOR COLORS¹⁵

OVERVIEW

Chevrolet HHR has become a favorite of fleet buyers because of its large, configurable interior. Its economical 4-cylinder engine delivers best-in-class EPA-estimated fuel economy of 32 miles per gallon highway, providing a range of 512 highway miles from a full tank of gasoline. HHR Panel models make cargo less visible to passersby and provide an ideal exterior surface for displaying company logos.

The Chevrolet Volt is an electric vehicle with extended-range capability. It is designed to drive up to 40 miles (assumes fully charged battery) on electricity without using gasoline or producing tailpipe emissions. When the Volt's lithium-ion battery is depleted, an engine/generator seamlessly operates to extend the total driving range to about 300 miles. Production begins late this year.

Please visit Chevy.com/Volt or ChevroletVoltAge.com for more information.

Preproduction model shown. Actual production model will vary.

PRELIMINARY SPECIFICATIONS

Overview

Body style/driveline:	Five-door, front-wheel-drive sedan
Description:	Electric vehicle with extended-range capability
Assembly location:	Hamtramck Assembly, Hamtramck, Mich.
Battery manufacturing location:	Brownstown Township, Mich.

Performance

Top speed (kph):	100
EV range (city):	Up to 40 miles * (based on EPA city cycle); actual mileage may vary depending on driving habits/conditions, weather and battery age
Extended range:	300 miles on a full tank of gasoline

Battery System

Type:	Lithium-ion
Energy:	16 kWh

Electric Drive Unit

Power (kW/hp):	111/150
Torque (lb.-ft. /Nm):	273/370

Charging Times

120 V:	About 8 hours (actual charge times may vary)
240 V:	About 3 hours (actual charge times may vary)

Chassis/Suspension

Front:	Independent McPherson struts
Rear:	Compound crank twist axle
Steering type:	Electric power assist

Brakes

Type:	Four-wheel disc, fully regenerative to maximize energy capture
-------	--

Wheels/Tires

Wheel size and type:	17-inch forged aluminum
Tires:	Specially developed low rolling-resistance

DIMENSIONS

Exterior (in.)

Wheelbase:	105.7
Length:	177.0
Width:	70.8
Height:	56.3

Interior

Seating capacity (front / rear):	4
----------------------------------	---

Capacities

Cargo volume ⁴ (cu.ft.):	10.6
-------------------------------------	------

* Assumes fully charged battery. Actual range depends on driving habits, weather conditions, terrain and the operation of electrical features in the vehicle. Vehicle features and performance capabilities subject to change without notice.

Please visit Chevy.com/Volt or ChevroletVoltAge.com for more information.

ESCALADE 2-MODE HYBRID

HYBRID

SELECTED STANDARD FEATURES

Safety and Security

- Dual-stage front and side-impact air bags¹ with Passenger Sensing System
- Head curtain side-impact air bags¹ with rollover sensor
- StabiliTrak[®] stability enhancement system with Rollover Mitigation
- OnStar[®] 1-year Directions & Connections Plan² with Turn-by-Turn Navigation[®]
- Daytime Running Lamps and Twilight Sentinel[®]

Interior

- Front bucket seats with 14-way power, heated and cooled, leather seating surfaces and memory
- 2nd-row 60/40 split-folding heated seat
- 50/50 removable 3rd-row seat
- Floor console with rear seat audio and climate controls
- Auto-dimming mirror with outside temperature
- Driver Information Center
- Tri-zone automatic climate control
- Remote Vehicle Starter System

Mechanical

- Strong hybrid automatic transmission
- 4-wheel disc antilock brake system
- Automatic rear locking differential
- Magnetic Ride Control suspension
- Full-function traction control
- Trailering equipment

Exterior

- Xenon HID headlamps
- P285/45R22 all-season tires
- 22-inch aluminum wheels¹⁴
- Power folding rearview mirrors with ground illumination, turn signals, curb-tilt, driver auto-dimming
- Ultrasonic Rear Parking Assist
- Rear power liftgate with liftglass

2-MODE HYBRID FEATURES

The 2-Mode is a patented hybrid technology with two modes optimized for city and highway driving.

- First mode: At low speed and light loads, the vehicle can operate by electric power or engine power or any combination
- Second mode: Primarily for highway speeds providing electric assist and full V8 power when needed. It integrates sophisticated electronic controls, Active Fuel Management[™], cam phasing and late-intake valve closure for efficient engine operation
- 2-Mode system allows for more compact packaging because powerful electric motors are designed to fit within the space of a conventional automatic transmission
- 300-volt battery pack is larger than typical battery, but fits in without compromising passenger space. No plug-in is required

OVERVIEW

Escalade Hybrid combines power and strength with trademark Cadillac styling and technology. Inside, there is room to seat up to 8 people comfortably and carry all their cargo⁴ too. And an Escalade Hybrid model is available in both Hybrid and Platinum Hybrid models, 4WD and 2WD. Available at participating dealers.

The 2-Mode is a patented hybrid technology with two modes optimized for city and highway driving.

- First mode: At low speed and light loads, the vehicle can operate by electric power or engine power or any combination
- Second mode: Primarily for highway speeds providing electric assist and full V8 power when needed. It integrates sophisticated electronic controls, Active Fuel Management[™], cam phasing and late-intake valve closure for efficient engine operation
- 2-Mode system allows for more compact packaging because powerful electric motors are designed to fit within the space of a conventional automatic transmission
- 300-volt battery pack is larger than typical battery, but fits in without compromising passenger space. No plug-in is required

AVAILABLE EXTERIOR COLORS¹⁵

OVERVIEW

Tahoe Hybrid (available at participating dealers), with GM's unique 2-Mode Hybrid Technology, provides efficient performance – plus full-size towing and payload capability. Available with both 4WD and 2WD.

FOR OTHER TAHOE MODELS, SEE SPORT UTILITY/CROSSOVER SECTION.

NEW FOR 2011

- Municipal Package:
 - Optional Single Power Distribution Center
 - Optional Dual Power Distribution Center

AVAILABLE EXTERIOR COLORS¹⁵

OVERVIEW

The new 2011 Silverado HD is ready for enormous undertakings. It starts with an available Duramax 6.6L Turbo-Diesel V8 that generates more horsepower and torque, yet is more fuel-efficient than before (based on GM testing). To transfer all that power to the rear axle, the legendary Allison six-speed automatic transmission is available. And the foundation on which it all rests is an all new chassis — giving an improved ride and outstanding payload and towing capabilities.

Silverado. The most-dependable, longest-lasting full-size pickups on the road (dependability based on longevity: 1981-July 2009 full-size pickup registrations).

Engine Availability

- Vortec 6.0L V8 with 360 hp
- Duramax 6.6L Turbo Diesel V8 with 397 horsepower, 765 lb.-ft. of torque; B20-Diesel compatible

The high-strength, fully-boxed steel frame has torsional stiffness that's five times greater than before, helping Silverado HD haul more payload while improving ride quality. A new front suspension, with massive control arms and torsion bars, means every 4WD Silverado HD can accommodate a snow plow, when equipped with the available Snow Plow Prep Package.

Shown with optional equipment

SELECTED STANDARD FEATURES

Safety and Security

- Frontal air bags¹
- StabiliTrak[®] stability enhancement system
- Daytime Running Lamps and automatic lamp control
- Tire Pressure Monitoring System[®] (not available with dual rear wheels)

Interior

- Reclining front 40/20/40 split-bench seat
- Rear bench fold-up seat (Extended and Crew Cab)
- Driver Information Center
- Air conditioning
- 2 power outlets
- Tilt-wheel adjustable steering column
- Front passenger assist handle
- AM/FM stereo with digital clock

Mechanical

- 6-speed automatic transmission
- 4-wheel disc antilock brake system
- Independent front and multileaf rear suspension
- Heavy-duty battery with rundown protection and retained accessory power
- External auxiliary transmission oil cooler
- External engine oil cooler

Exterior

- Intermittent windshield wipers
- Foldaway rearview mirrors
- All-season or all-terrain tires
- 8-lug steel wheels with center caps
- Front frame-mounted recovery hooks
- Front and rear chrome bumpers
- Dual halogen headlamps
- Dual cargo area lamps

SELECTED OPTIONAL FEATURES

- Side-impact and head curtain side-impact air bags¹
- Seating options: power, buckets, leather seating surfaces, heated
- Power adjustable pedals
- Power rear sliding window
- Audio options: 6-disc CD changer, navigation system,¹¹ Bose system, DVD entertainment system
- OnStar[®] 6-months Directions & Connections Plan² with Turn-by-Turn Navigation³
- XM[®] NavTraffic³
- Bluetooth[®] wireless technology for select phones¹⁷
- Rearview camera system
- Allison 1000 6-speed automatic transmission (with Duramax)
- Z71 Suspension
- Electronic shift 4WD
- Automatic locking rear differential
- Trailering packages
- Outside mirror options: camper, power, heated, curb-tilt
- Remote Vehicle Starter System
- EZ-Lift Tailgate Package
- Ultrasonic Rear Parking Assist
- Skid Plate Package
- Snow Plow Prep Package

Confident trailering, on single-rear-wheel models, is helped with **StabiliTrak and a new Trailer Sway Control (SRW models only) that senses trailer sway and automatically applies the truck's brakes and reduces engine power. Additionally, the new exhaust brake system (requires available Duramax Diesel engine) works with the transmission, reducing the amount of conventional braking needed.**

AVAILABLE EXTERIOR COLORS¹⁵

OVERVIEW

GMC Sierra continues its Professional Grade capability, along with a luxurious interior and broad lineup of body styles and powertrains.

Engine Availability

- Vortec 4.3L V6 with 195 horsepower
- Vortec 4.8L V8 with 302 horsepower with FlexFuel¹³
- Vortec 5.3L V8 with 315 horsepower, Active Fuel Management™ and FlexFuel¹³
- Vortec 6.2L V8 with 403 horsepower and FlexFuel¹³

NEW FOR 2011

- OnStar® 6-months Directions & Connections Plan² with Turn-by-Turn Navigation⁸ (fleet delete available)

AVAILABLE EXTERIOR COLORS¹⁵

OVERVIEW

The new 2011 Sierra HD is ready for enormous undertakings. It starts with an available Duramax 6.6L Turbo-Diesel V8 that generates more horsepower and torque, yet is more fuel-efficient than before (based on GM testing). To transfer all that power to the rear axle, the legendary Allison six-speed automatic transmission is available. And the foundation on which it all rests is an all new chassis — giving an improved ride and outstanding payload and towing capabilities. For 2011, Sierra HD continues to be Professional Grade.

Engine Availability

- Vortec 6.0L V8 with 360 hp
- Duramax 6.6L Turbo Diesel V8 with 397 horsepower, 765 lb.-ft. of torque; B20-Diesel compatible

AVAILABLE EXTERIOR COLORS¹⁵

OVERVIEW

The new 2011 Silverado 3500HD chassis cab trucks deliver outstanding capability, efficiency and refinement – including an increased GVWR⁶ of up to 13,200 pounds and a GCWR of up to 27,500 pounds on.

All models feature a new, stronger independent front suspension with a front axle weight rating that increases up to 25 percent, which expands the range of upfit capabilities – including a new Ambulance Prep Package – and enables snow plow use on all 4WD models. Also new for chassis cabs are 2WD and 4WD crew cab configurations.

Engine Availability

- Vortec 6.0L V8 with 322 horsepower and 380 lb.-ft. of torque
- Duramax 6.6L Turbo Diesel V8 with 335 horsepower, 685 lb.-ft. of torque; B20-Diesel compatible

A completely redesigned independent front suspension system offers up to a 25 percent greater front axle weight rating – up to 6,000 pounds (2,721 kg) front gross axle weight rating (FGAWR) – so a snow plow can be used on all 4WD cab configurations with the available Snow Plow Prep Package. Silverado’s signature short-long arm/torsion bar front suspension design is retained, but now features new, forged steel upper control arms that are stronger and lighter than their predecessors.

OVERVIEW

The 4500 Cutaway delivers many medium duty benefits in a light, efficient package. Although it is not able to perform the entire range of tasks of all medium duty trucks, it may be able to meet many of your medium duty needs. The 4500 Cutaway is designed for medium duty capability, maximum efficiency and low operating cost.

NEW FOR 2011

- Audio options available now include USB port¹⁸ and XM[®] Radio³
- Bluetooth[®] wireless technology for select phones¹⁷ available
- OnStar[®] 6-month Directions & Connections Plan² with Turn-by-Turn Navigation⁸
- LGH 2010 Diesel emission engine

VOCATIONAL BODY APPLICATIONS

The new 2011 Silverado 3500HD chassis cab trucks deliver outstanding capability, efficiency and refinement – including a GVWR⁵ of up to 13,200 pounds and a GCWR of up to 27,500 pounds on dual rear wheel models.

All models feature a new, stronger independent front suspension with a front axle weight rating increase of up to 25 percent, expanding the range of upfit capabilities – including an Ambulance Prep Package and snow plow use on all 4WD models. Also new for chassis cabs are 2WD and 4WD crew cab configurations.

3500HD SPECIFICATIONS

Model	Drivetrain	Model Number	Wheelbase (inches)	Maximum GVWR ⁵ (pounds)	Maximum Payload ⁶ (pounds)	Maximum Trailer Weight ⁷ (pounds)	Seating
Regular Cab	RWD	C31003	137.5	13200	7293	NA	3
	4WD	K31003	137.5	13200	6999	NA	3
	RWD	C31403	162.0	13200	7205	NA	3
	4WD	K31403	162.0	13200	6894	NA	3
Crew Cab	RWD	C31043	171.5	13200	6750	NA	6
	4WD	K31043	171.5	13200	6434	NA	6

AMBULANCE PACKAGE (C/K 31403)

The YF2 Ambulance Package is offered on Chevrolet Silverado and GMC Sierra 3500HD Regular Cab Chassis Cab models. When lives are on the line, a robust equipment combination is key — and that's what GM provides.

Features include:

- 3500HD Regular Cab models with 13,200-pound GVWR⁵
- Front bucket seats with 6-way power driver and passenger adjusters, passenger seat recline and manual lumbar control
- Duramax 6.6L Turbo Diesel V8 engine with High Idle Switch
- Allison 1000 6-speed automatic transmission (no PTO provisions)
- Heavy-duty dual 730 cold-cranking amp batteries
- Dual 125-amp alternators
- Engine block heater
- Requires single-zone manual air conditioning (standard on Regular cab models)
- Requires Ebony Premium Cloth or Ebony Custom Leather Appointed trim

BOX DELETE WITH BODY

A Box Delete configuration is also available on Silverado and Sierra 2500HD and 3500HD pickups. Regular, Extended or Crew Cabs are offered and provide 55.9-inch cab-to-axle dimension that allows buyers to add almost any of a variety of bodies to meet their specific needs.

Equipment from independent suppliers is not covered by the GM New Vehicle Limited Warranty. GM is not responsible for the safety or quality of independent supplier alterations.

3500HD CHASSIS CAB APPLICATIONS

Here are some applications perfectly suited for the 3500HD Chassis Cab:

- **Van body** — if cargo needs weather protection, this is the answer
- **Platform/stake body** — for carrying anything from livestock to lumber and scrap metal
- **Dump body** — these durable vehicles can handle the severe service, on- and off-road ability and heavy loads
- **Snow plow/spreader applications** are easy to configure with the available Snow Plow Prep Package
- **Utility/service body** — providing for compartment storage and additional duties such as cherry-picker buckets and rescue equipment
- **Catering body** — perfect for meals-on-wheels applications for visiting factories, construction sites or events

A WORD ABOUT THIS GUIDE

This material is not legally approved for use in any advertising.

We have tried to make this guide comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this guide and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of release, please check with your GM dealer for complete details. Competitive comparison claims are based on most current competitive information. GM reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

The vehicles described in this guide are equipped with engine and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers, and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly. Some of the equipment shown or described throughout this guide may be available at extra cost, and/or supplied by an independent supplier.

See your local General Motors Fleet Account Executive or Dealer Fleet/Commercial Sales Manager for up-to-date information, or see the GM Online Order Guide at gmfleet.com.

An important note about alterations and warranties

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials, or workmanship of any alterations by such suppliers.

Detailed Notes, as applicable to references on individual vehicle pages

1. Always use safety belts and the correct child restraint for your child's age and size, even in vehicles equipped with air bags. Even in vehicles equipped with Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner Manual and child safety seat instructions for more information.
2. Visit OnStar.com for coverage map, system limitations and details.
3. XM Radio requires a subscription, sold separately by XM after the trial period. Not available in Canada, Alaska or Hawaii. For more information, visit gm.xradio.com.
4. When properly equipped. Cargo and load capacity limited by weight and distribution.
5. Maximum Gross Vehicle Weight Rating (GVWR). When properly equipped, includes vehicle, passengers, cargo and equipment.

6. Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. Cargo and load capacity limited by weight and distribution.
7. Maximum Trailer Weight ratings are calculated assuming a base vehicle, except for options necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See Order Guide for additional information.
8. For Turn-by-Turn Navigation, antilock braking system and Directions & Connections Plan required. Turn-by-Turn Navigation not available in certain areas. Visit OnStar.com for coverage map.
9. Tire Pressure Monitoring System does not apply to spare tire.
10. Premium paint — available at extra cost.
11. Navigation Systems — map coverage includes only the 48 contiguous United States and portions of Hawaii and Canada. Not available in Alaska, Puerto Rico or the Virgin Islands.
12. RDS functions only where stations broadcast RDS information.
13. E85 is 85% ethanol, 15% gasoline. Visit gm.com/biofuels to see if there is an E85 station near you.
14. Use only GM-approved wheel/tire combinations. See your GM dealer for more details.
15. Actual colors may vary.
16. Unless you option into a spare tire, there is no jack or spare tire in this vehicle. If you do not option into the spare tire, your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a 1/4-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than 1/4-inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date.
17. The Bluetooth word mark is a registered trademark owned by Bluetooth SIG, Inc. and any use of such mark by GM is under license. Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle.
18. Not compatible with all devices.
