

PRICE LIST of PARTS And Accessories for FORD Cars

BALTIMORE HUB-WHEEL & MFG. CO.

JOBBER...DISTRIBUTOR...MANUFACTURER

AUTOMOBILE ACCESSORIES

OFFICE AND STORE

GAY STREET & FALLSWAY

BALTIMORE, MD.

DECEMBER 1ST, 1917

FEB 5 - 1918

A WORD TO DEALERS—

With the publication of this list of Ford parts, all previous quotations are withdrawn.

In issuing this list it is our aim to have it so complete that our customers can practically buy all necessary Ford repair parts from us. We have all parts in stock, which are listed, and can promptly fill your order. All parts listed have been selected only after their quality has proved to be the best obtainable—the price being the second consideration.

All parts are guaranteed to be made of the best quality material, heat treated, and to be accurate in size and machining. Any part not so found may be returned for full credit.

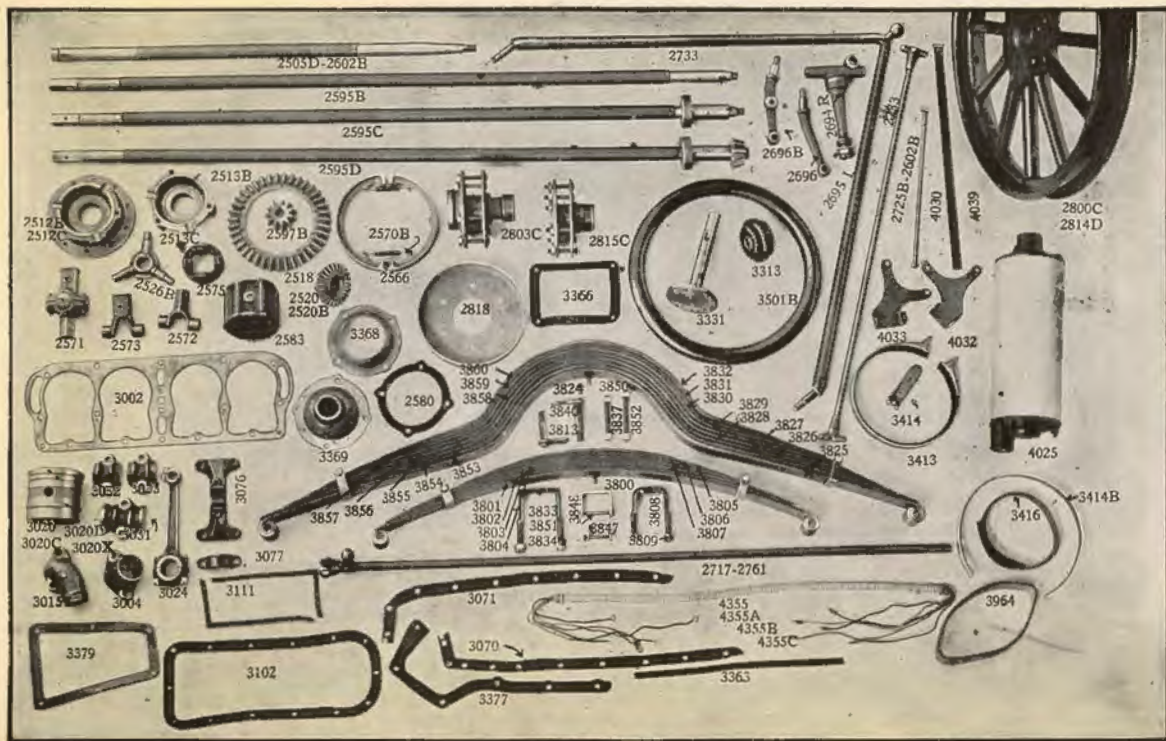

These parts are not made by the Ford Motor Co., with whom we have no connection.

We can furnish any part not shown on this list that is in the Ford Motor Co. Part Book at the Ford list price.

Our Prices—The prices in this list are wholesale net dealer prices, all discounts having been taken off. Car owners or consumers will be charged the highest list prices on both parts and accessories. All prices are F. O. B. Baltimore, Md. No freight, expressage or postage will be paid by us, but where necessary to be prepaid, said amount will be added to the invoice.

Terms—We extend credit to those having a satisfactory or good rating in Bradstreets' Commercial Agency, or who can give us satisfactory reference, and who pay in accordance with our terms, which are strictly net 30 days. To avoid delay, in case you are not rated, send cash with the order.

**BALTIMORE HUB-WHEEL & MFG. CO.,
BALTIMORE, MD.**

Orders for less than \$1.00 will be charged at Ford List.

WHEELS

WHAT'S IN A NAME?

Our name in itself would indicate only that we were hub and wheel manufacturers, but for the benefit of those not familiar with us and the various lines of goods we handle, let us tell you something about ourselves.

This firm was established way back in 1870 as a hub and wheel factory, and from that date we have been constantly growing and adding new lines of merchandise to our business. Our factory is completely equipped to manufacture carriage, wagon and automobile wheels, any size or style. We also make a specialty of repairing auto wheels of all sizes; you can send us your broken wheels and we will rebuild or repair same for less money than you can buy a new one, and we do it the same day we get your wheel—we pay expressage one way on same. In addition to our factory, we have a jobbing department in which we carry a complete stock of the following lines:

Automobile supplies and accessories.
Carriage and wagon material tire to top.
Blacksmith and wheelwright supplies.
Coach painters' supplies.
Auto and wagon trimming materials, etc.

Write us for prices on anything you want to buy for a carriage, wagon or automobile.

Demountable Rim Wheels

FOR

FORD CARS

FOUR
NEW
WHEELS

FIVE
DEMOUNTABLE
RIMS

These wheels are artillery spoke wood wheels, made of Maryland Second Growth Hickory, and equipped with demountable rims. These wheels are made in our own wheel factory, and the quality is of the best. The rim is acknowledged to be the best light demountable rim on the market.

Set consists of four wheels bored to fit hub and with hub flange bolt, holes bored so that the hubs can be taken from the old wheels and put in the new ones in a few moments, and this can be done by anyone with a wrench in an hour's time.

One extra spare rim, one brace wrench and 24 hub flange bolts complete the outfit. Our wheels are painted black or varnished. Our natural wood wheels have an exceptionally fine finish, as they are run over an extra sand belt to insure a fine finish.

Write us for prices, stating how many sets you want to buy. Our Prices will save you money.
