

NEW IMPALA SS SUPERCHARGED!

240-HP SUPERCHARGED RIDE

THE SCIENCE OF SUPERCHARGED PERFORMANCE

A supercharger forces a concentrated charge of air into the intake manifold, resulting in a more powerful combustion stroke. The benefit is increased torque and horsepower. The 3800 supercharger is belt-driven for smooth, linear power with virtually no lag.

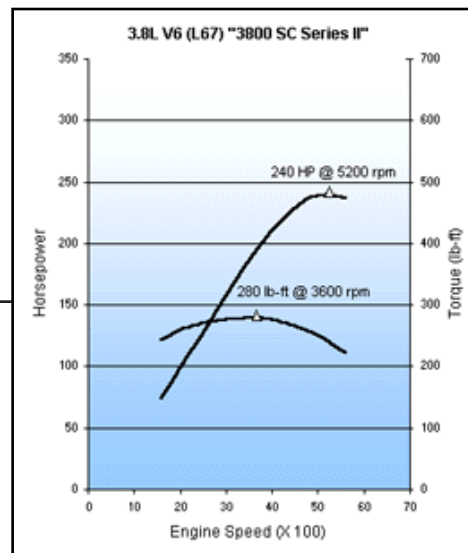

MASSIVE TORQUE, EXTREME FUN

The 280 lb.-ft. of torque means awesome off-the-line power. Peak horsepower is 240 at 5200 rpm.

IMPALA SS PERFORMANCE PACKAGE FEATURES:

- 240-hp supercharged 3800 V6 engine
- Performance suspension with larger stabilizer bars and tuned spring rates
- P235/55R-17 Goodyear Eagle RS-A speed-rated Performance tires
