

CTS shown in Black Raven with optional equipment.

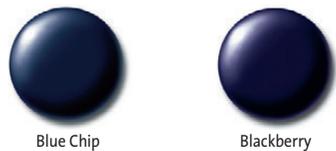

2006 CADILLAC CTS CTS boldly embodies Cadillac's styling edge with sharp, dramatic lines and advanced engineering. Select from a 2.8 Liter V6 with 210 hp, or opt for the 3.6 Liter V6 with Variable Valve Timing and 255 hp. Transmission choices: a six-speed manual or available five-speed automatic with Driver Shift Control. The CTS rear-wheel-drive chassis, advanced engineering, and premium components were developed, validated, and tested at the Nürburgring race circuit in Germany, the ultimate proving ground for vehicle dynamics.
