

## MUCH MORE THAN MOST.

Some automobiles merely satisfy. A rare few overachieve, exceeding your expectations in every measurable way. Mercury Grand Marquis is just such an automobile.

## THE 2006 MERCURY GRAND MARQUIS.

With liquid-smooth V-8 power, an abundance of interior room, and exterior styling that's new for 2006, Grand Marquis is an automobile designed to please.

## THE UNLIMITED DELIGHTS OF EXPANSIVE LIVING SPACE.

The Mercury Grand Marquis passenger cabin is the most spacious of any car in its class,\* easily accommodating six adults. Those fortunate six will travel in a sumptuously appointed automobile. Distinctive wood-grain accents combine with available leather trim to create a richly elegant environment. Yet this vehicle's most endearing feature may well be its outstanding safety record. Grand Marquis is the only vehicle in its class to achieve the government's five-star front crash-test rating for 11 years in a row. What could be more pleasing?

\*Standard six-passenger Large Car class.

## THE IMPECCABLE MANNERS OF A FINELY CRAFTED SEDAN.

Mercury Grand Marquis is engineered to transport a driver and five passengers in quiet comfort. Yet this automobile is at once very capable. Its 4.6-liter SOHC V-8 pours 224 liquid-smooth horsepower into a four-speed electronic automatic overdrive transmission. Rear-drive configuration ensures steering precision and handling confidence. Should slippery roads cause a loss of adhesion, available All-Speed Traction Control regulates the throttle and brakes as required to help regain traction. In brief, Grand Marquis excels at those things that please drivers most.

### **EIGHT WAYS COMFORTABLE.**

An eight-way power driver's seat helps ensure a comfortable driving position. The controls are designed in the shape of a seat for simple and intuitive operation.

### **AT YOUR SERVICE.**

Grand Marquis' available overhead console incorporates dome/map lamps, an electronic digital compass and a universal garage door opener that can operate three remote devices.
