1 Cargo and load capacity limited by weight and distribution. **2** Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. **3** Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Cadillac dealer for additional details. **4** Always use safety belts and the correct child restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the vehicle Owner's Manual and child safety seat instructions for more information. **5** Head-curtain side-impact air bags are designed to help reduce the risk of head injuries to outboard front- and rear-seat occupants during certain side-impact collisions. **6** Call 1-888-4ONSTAR (1-888-466-7827) and visit onstar.com for system limitations and details. **7** Does not operate with spare tire. **8** XM is available only in the 48 contiguous United States. Services fees extra. Visit gm.xmradio.com for more details. **9** RDS functions only where stations broadcast RDS information. **10** Requires Information Package. **11** Use only GM-approved wheel/tire combinations. See dealer for details.
