

2007 MONTEREY

MERCURY | NEW DOORS OPENED

mercuryvehicles.com

SO MUCH MORE THAN USEFUL.

A glance reveals that Monterey is much more than an ally in the daily quest to get things done. That first look reveals it to be a sophisticated, stylish vehicle. Further investigation demonstrates that it can handle a tight curve and a long to-do list with uncommon skill. In short: The 2007 Mercury Monterey can take you well beyond the humdrum world of typical minivans. It's a singularly distinctive choice that defies category stereotypes. So too, those who choose to drive it.

THIS SPACE AVAILABLE.

THIS SPACE IS “AVAILABLE” IN MORE WAYS THAN YOU CAN IMAGINE. Those second-row seats fold and tumble for easy access to the third row. The third-row seat folds into the floor, and the second-row seats are easily removed. The happy result is 134.3 cu. ft. of do-anything space. That’s big.

IT’S ALSO COMFORTABLE AND ATTRACTIVE. The driver and front-passenger seats can be

heated or cooled.* First- and second-row seats can be trimmed with a two-tone blend of fine leather and Preferred Suede® inserts.* The third-row seatback can be tipped back to create a tailgating bench.** In short, the Monterey cabin is engineered to offer a range of choices for those who prefer to do things their way.

*Available feature.

**Rear-facing third-row seat is not intended for passenger seating while the vehicle is in motion.

GET IN AND GO.

THE IDEA THAT A MINIVAN SHOULD PERFORM IN A WAY THAT IS ANYTHING LESS THAN RESPONSIVE IS FOREIGN TO MONTEREY DRIVERS. With the largest engine of any minivan built today,* Monterey is quick from the get-go. A refined suspension system delivers precise handling and a comfortable, controlled ride.

A FULL MENU OF SAFETY EQUIPMENT, including a Safety Canopy™ featuring side-curtain airbags,** a rollover sensor and front-seat-mounted side-impact airbags, helps ensure peace of mind. No wonder Monterey has received the government's highest five-star front crash-test rating four years in a row***. The available AdvanceTrac® electronic stability enhancement system adjusts braking and throttle as necessary to keep you moving in your intended direction, even in slippery conditions.

*Based on comparison of 2007 Monterey vs. 2006 class competitors.

**Always wear your safety belt and secure children in the rear seat.

***2004–2007

MORE OF THOSE THINGS YOU WANT MOST.

Keep the gang happy with Monterey's available **Rear-Seat Entertainment System**. Play DVDs or video games on a seven-inch, flip-down LCD screen. Two sets of wireless headphones are provided for quiet listening.

Everyone can use a helping hand. Monterey's available **power liftgate** opens automatically when a button is pressed on the key fob or the overhead console.

An available **cargo management system** can help keep your things organized. The compartmentalized system can be removed from the rear cargo well when it's not needed.

Everyone is comfortable thanks to **tri-zone temperature control**. The system allows the driver, front-seat passenger, and second- and third-row passengers to independently control cabin temperature. Those in the rear can control fan speed as well.
