# xB Standard

No one really likes to be confused by a vast array of option packages. So, Scion made things simple. We took all the popular equipment and made it standard. No need to worry about whether your car has Anti-Lock Brakes (ABS) or power windows. They all do! And that's only the beginning. The list of standard features for all Scions is extensive. Take a look at xB.

### Interior Features

- Air conditioner
- Power windows (with one-touch Auto Down on driver's window)
- Power door locks with remote entry
- Power outside mirrors
- Rear window defogger
- Digital clock
- Tilt steering wheel
- Rear privacy glass
- Tachometer and trip meter
- Driver's sun visor mirror
- Sport front bucket seats with fabric upholstery
- Cargo area under-floor storage
- 60/40 split-folding and removable rear seat
- Amber instrument panel illumination

### Exterior Features

- Choice of three wheel cover designs
- Multi-reflector halogen headlamps
- Fender mounted turn indicators
- Intermittent front wipers
- Rear wiper
- Chrome exhaust tip
- Exterior ground effects kit (includes front air dam, rocker panel extensions, and rear valance panel)

### Audio

- Pioneer AM/FM/CD head unit (MP3 and satellite controller capable)
- Scion Sound Processing
- Six speakers (including two tweeters)
- In-glass audio antenna

### Safety Features

- Driver and passenger front airbags\*
- Driver and passenger three-point seat belts
- Anti-Lock Brakes (ABS) and Vehicle Skid Control (VSC)\*\*
- Three-across rear headrests
- Three-across three-point rear seat belts
- First-Aid kit

**Standard equipment includes your choice of 1 wheel cover set from among the 3 shown.**

*Standard equipment, options, accessories, and other information is pre-production tentative and is subject to change before Scion launch.*

*\*The Scion driver, front passenger, front seat-mounted side airbags and side curtain airbags are Supplemental Restraint Systems (SRS). The driver and front passenger airbags are designed to deploy in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceeds the design threshold level. The side airbags and side curtain airbags are designed to inflate in severe side-impact collisions. In all other accidents, the airbags will not inflate. To decrease the risk of injury from a deploying airbag, always wear seat belts, sit upright in the middle of the seat as far back as possible from the airbag modules and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying airbag SRS may cause serious injury or death. Please see our Owner's Manual for further instructions.*

*\*\*Scion Vehicle Skid Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further instructions.*

## SSP AUDIO

For audio components, Scion went to well-known supplier, Pioneer. Every Scion vehicle will come equipped with a standard Pioneer AM/FM/CD sound system featuring 6-speakers and Scion Sound Processing (SSP). This digital sound processing feature offers three settings:

1. SSP Neutral keeps the music in the background
2. SSP Hear enhances the sounds with crisp highs and lows
3. SSP Feel goes all the way, with a

sound curve that lets passengers not only hear the music, but feel it

The CD player in this system recognizes downloaded MP3 files. And the head unit is set up to act as a satellite radio controller, for those Scion owners who choose to add the accessory receiver and antenna, available from their Scion dealer.

There's even an optional Pioneer system with an in-dash 6-CD Changer. This head unit has the same features as the standard

system, but adds an illumination feature that changes among 10 colors at the touch of a button. Even the radio can be personalized to your mood or your lifestyle.

And for real audiophiles, you can add an accessory subwoofer to either of the Pioneer audio systems.

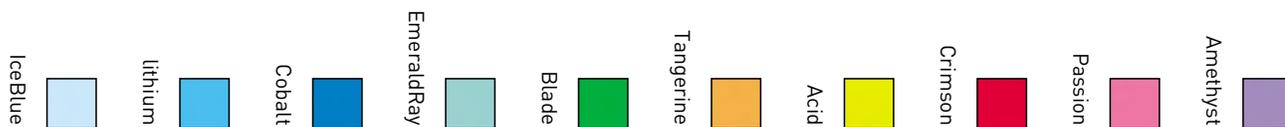

Extra sound absorption materials in every Scion vehicle assure the listener of a pure sound experience, in an environment that was made for music.

## SCION ACCESSORIES

Standard features are great, but to make a car your own, it's nice to have some choices. Scion created an impressive list of Accessories that can be selected individually at the time of purchase. Your dealer can install them, or your car can be ordered from one of our centralized locations with the equipment you specify. In a very short time, you'll have exactly the car you want!

Select the model and color you want, and then begin exploring various ways of customizing your Scion to their personal lifestyle. Scion offers a variety of opportunities for personalization, ranging from a choice of cup holder lighting to three types of wheels.

## Interior / Convenience Features

- > Leather wrapped steering Wheel (choice of colors)
- > Center console
- > Cup Holder Illumination
- > Cargo area net
- > Cargo area tote
- > Tonneau cover

### **Interior**

The interior of the xB offers room for five, in an environment where tactile impressions are a priority and innovative style is a given. The sport front bucket seats provide firm support to both driver and passenger, while the 60/40 split-folding rear seat maximizes the spacious interior's flexibility. The second row seating is fully removable, making the xB even more versatile.

Standard front airbags for driver and passenger, three-point seat belts for all five passengers and three-across rear headrests help ensure a safe ride.

And just the right amount of metal-tone trim completes the innovative look. Instrumentation is centrally located, with stylized black-on-white gauges and amber illumination for all audio and ventilation controls to make visibility easy both day and night.

### **Storage**

Being in control of your own life is important. Carrying the things you need at any given moment is essential. Scion made sure that all its cars offer a high degree of versatility, so you can choose a configuration that suits your changing needs. Under-floor storage in the cargo area, multiple storage locations in the instrument panel and door panels, and cargo areas that are enhanced by split-folding rear seats put the choice in your hands. Carrying extra cargo? Or a couple extra friends? You're covered either way.
