

# xA

The xA redefines the concept of compact cars with its long list of Standard Features, not to mention maneuverability, interior versatility and impressive fuel economy. Driving the xA is all the proof you'll need that big things do indeed come in surprising packages.

**Compact is better**—a phrase modern technology lives by. Why then, when it comes to automotive technology, do people perceive the opposite? The xA reaffirms the concept scientists have known all along: it doesn't necessarily have to be bigger to be better.

Standard Equipment Includes  
Your Choice of One Wheel Cover  
Set from the Three Choices

# INTERIOR

xA Full Interior Dash Shown with Standard Air Conditioning,  
Pioneer Audio with Optional 6-Disc Changer and Automatic Transmission

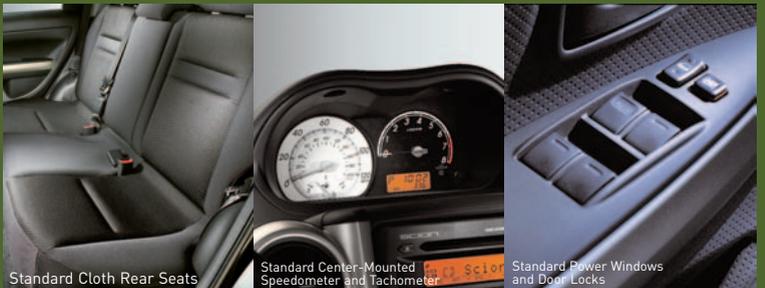

## xA

The xA comes with an exceptional array of standard features, all at no extra charge—features which might cost thousands more on other cars. Though it may carry the lowest base price of any Scion, there's nothing entry-level about this xA. On the inside, standard features include power windows, locks and mirrors, a Pioneer CD audio system with six speakers and Scion Sound Processing, air conditioning, tilt steering wheel, sport front bucket seats, and even a handy-dandy first aid kit. On the outside, halogen headlamps, and anti-lock brakes (ABS) help keep you safe while a chrome exhaust tip adds the exclamation point.

# INTERIOR

Standard Bucket Seats with Optional Automatic Transmission

TRD Struts/Shocks Kit\*\*\*

TRD Spot Muffler\*\*\*

Standard equipment, options, accessories, and other information is subject to change.

\*The Scion drivers and front passengers airbags and drivers knee airbag are Supplemental Restraint Systems (SRS). The drivers, front passengers and drivers-knee airbags are designed to deploy in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceeds the design threshold level. In all other accidents, the airbags will not deploy. To decrease the risk of injury from a deploying airbag, always wear your seatbelt, sit upright in the middle of the seat, and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of a deploying airbag SRS may cause serious injury or death. Please see your Owners Manual for further instructions.

\*\*The AEM Cold Air Induction Systems are to be sold only as a dealer installed or over the counter option after retail sale of the vehicle. The induction system may not be sold to the customer at the same time as the new vehicle and may not be financed together with the new vehicle.

\*\*\*TRD USA, Inc (Toyota Racing Development), an aftermarket performance parts company, markets a line of parts through some Scion dealers. These aftermarket parts are not Genuine Scion parts, and cannot be utilized for Scion warranty replacement. TRD parts are warranted by TRD, not Scion. See the TRD warranty for details. Note that certain aftermarket equipment may not be street legal in all states and may impact your vehicle's performance or safety.
