

2006 LEXUS SC

 LEXUS

2006 LEXUS SC Exterior

Besides its sleek lines and alluring curves, the distinctive beauty of the SC exterior design is also dedicated to your comfort. A higher cockpit cowling, windshield position and rear wind deflector reduce drafts for a more comfortable ride. At the touch of a button, it converts from a sporting roadster to a stylish convertible in a mere 25 seconds. Without latches, snaps or covers, the aluminum-alloy roof folds itself neatly into the trunk, a process that occurs in near silence. When it is safely tucked away, a chime lets you know when to take your finger off the button. Perhaps equally impressive is the fact that the SC, when equipped with available run-flat tires,¹ offers a trunk with enough room for a full-sized golf bag, beach tote or picnic lunch.

¹See page 17 for more information.

2006 LEXUS SC : Interior Surroundings

When the top of the SC is down, its audio and climate-control systems automatically compensate for a variety of factors. The Mark Levinson® stereo² subtly raises its volume to allow for outside noise. Conversely, when you raise the roof, the stereo volume will lower to its previous level. The SC features Intuitive Climate Control that senses how much sun is shining on you, how fast you're traveling and whether the top is up or down. Depending on these factors, it will activate lap-level vents to provide a bit of extra cooled air. The same goes for driving at night, when lap vents will automatically help keep you warm.

²See page 17 for more information.

2006 LEXUS SC Performance

Vehicle shown with available equipment.

With an abundance of intuitive technologies, the SC is able to monitor and adjust over seven different systems of its operation. Variable Valve Timing with intelligence (VVT-i) allows the engine to sense its own speed and set valve timing for the best possible performance. Intuitive Powertrain Control manages throttle operation by computer, linking the engine and Electronically Controlled Transmission with intelligence (ECT-i) for nearly seamless operation. This system automatically compensates for uphill, downhill and headwinds, and even learns how you drive, giving more rpm in each gear to sportier drivers. And with the addition this year of a sixth gear, the SC provides quicker acceleration and virtually seamless shifting.

2006 LEXUS SC Interior

The interior of the SC features fine wood trim throughout the cabin and hand-stitched, leather-trimmed seating. Both front seats are heated and power-adjustable, with two-position memory systems that actually conform to your body for a custom fit. The memory system will even restore the steering wheel and side-view mirrors to your preferred positions. In addition, the handsome wood- and leather-trimmed steering wheel is equipped with audio controls and cruise-control switches in the interest of keeping your attention on the road ahead.

2006 LEXUS SC Interior (Continued)

The cockpit features rich wood consoles, with walnut-trimmed or espresso bird's-eye maple trimmed doors which can hide the audio and navigation systems. Every effort has been made to match the grain in adjacent pieces of wood, and the compartments open and close at the same rate of speed, resulting in a pleasing harmony within the cabin.

2006 LEXUS SC DVD Navigation System

Get lost in luxury, not on the way to the destination, since the SC guides you with its GPS satellite-linked DVD Navigation System³. It can direct you to over five million preprogrammed points of interest in the U.S. and Canada—including gas stations, ATMs, hotels, museums and restaurants. When using the system while the top is down, the display screen power-tilts to three different angles, helping to reduce glare. So it's easy to receive excellent directions without having to stop for them.

³See page 17 for more information.

2006 LEXUS SC Mark Levinson® Audio System

For those particular about audio equipment, the SC features a sound system from Mark Levinson², a company known for designing six-figure home audio systems. This custom-designed, nine-speaker, seven-channel, DSP-amplified system is exclusive to the SC, complete with an in-dash, six-disc CD auto-changer. The listening experience is so rich, it evokes the resonance of a live performance even while the top is down.

²See page 17 for more information.

2006 LEXUS SC Adaptive Front Lighting System

With an Adaptive Front Lighting System (AFS), the SC is able to illuminate more of the road around a curve for advanced visibility. In a left turn, the left headlamp will rotate up to 15 degrees into the turn. In a right turn, the right headlamp will pivot up to five degrees. The lighting system is equipped with High-Intensity Discharge (HID) headlamps, beaming whiter, brighter light than conventional halogen lamps.

2006 LEXUS SC Safety

Vehicle shown with available equipment.

The SC features an array of computerized handling features for added safety. Vehicle Stability Control (VSC)⁴ senses, and helps correct, a loss of traction in turns by applying brakes and throttle selectively to keep you on your intended course. Traction Control (TRAC) helps control wheelspin on surfaces like mud, sand and ice. Both work in harmony with anti-lock disc brakes (ABS), Brake Assist⁵ and Electronic Brakeforce Distribution (EBD) to help you maintain control.

^{4, 5} See page 17 for more information.

2006 LEXUS SC Safety (Continued)

With a rigid, steel-reinforced chassis, the SC is able to resist bending and twisting in hard cornering or while running over bumps and potholes. Special bracing behind the front wheels and in the rear cabin structure helps protect the cabin from deformation in front or rear impacts. And each door has been reinforced with two separate beams for added side-impact protection. A front airbag Supplemental Restraint System (SRS)⁶ is designed to help protect the driver and front passenger in the event of a severe frontal collision. Front seat-mounted airbags⁶ can help reduce the effect of certain types of severe broadside collisions. Furthermore, three-point seatbelts, equipped at the front with pre-tensioners and force limiters, as well as a collapsible steering column, crumple zones and impact-dissipating upper interior trim all help manage impact energy. And to help you avoid the inconvenience of a flat, the SC is equipped with a Tire Pressure Monitor System⁷ and is available with run-flat tires.¹

Model year 2005 crash test vehicle shown.

2006 LEXUS SC Ownership Experience

And now your journey is ready to begin. The Lexus ownership experience is a magnificent journey within itself. Measured not in mileage, but in moments. Flashes in time that delight you, inspire you. That in whatever small way, enrich your life. You'll feel it in the peace of mind you get from our well-earned reputation for unparalleled vehicle quality and dependability. You'll feel it in the pride of knowing that Lexus puts a high priority on the wise use of natural resources as shown in the certification of every vehicle we build. And you'll feel it in our award-winning customer service, where every dealership goes to great lengths to accommodate you. This journey of Lexus ownership is the reason our owners are some of the most satisfied drivers on the road today. And why so many of them continue to return again and again. Because we understand that whether your travels take you to the vineyards for a weekend or simply around the block for errands, the miles of road left behind you will be a distant memory. But the moments along the way will last a lifetime.

CUSTOMER SATISFACTION

Your total and complete satisfaction is our highest priority. Which is why you may find our dealerships provide such amenities as offices you can use for business, free pickup and delivery, service loaner vehicles, complimentary car washes, concierge services and even 24-hour emergency Roadside Assistance* for your first four years of ownership.

RESPONSIBLE THINKING

As part of an effort to reduce emissions whenever possible, every Lexus vehicle built since 2004 has been certified as either a Low-Emission Vehicle (LEV), Ultra-Low Emission Vehicle (ULEV or ULEV II), or Super Ultra-Low Emission Vehicle (SULEV).

VALUE/DEPENDABILITY/QUALITY

Our commitment to build the finest vehicles in the world has not wavered since our inception. Seen in such ways as projected low repair costs and high retained value, our pursuit of perfection has never been stronger.

*Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details on our Roadside Assistance program.

2006 LEXUS SC Options & Accessories

Of all the possible adjectives that could be used to describe the 2006 SC, *indulgent* just might top the list. After all, name another car that has such an abundance of standard features such as a DVD NAV system³, fine Bader leather, genuine walnut or espresso bird's-eye maple trim, a Mark Levinson® Premium Audio System² and 18-inch alloy wheels⁸. Something tells us you're not likely to find a close competitor. However, just for fun, we do offer a few extras. Like all season run-flat tires¹ to keep your SC on the road after a flat, no matter what the weather conditions. Or a rear spoiler, which not only adds a nice character line to the SC, but makes it even more aerodynamic.

INDIVIDUAL OPTIONS AND ACCESSORIES

Summer run-flat tires¹ • All-season run-flat tires¹
• Rear spoiler • Trunk mat • Cargo net • Paint protection film • Car cover • Wheel locks

2006 LEXUS SC Specifications

BODY, DIMENSIONS

Type	Four-passenger retractable hardtop luxury convertible
Construction	Welded-steel unibody
Overall Length	178.5 in (4,533 mm)
Width	72.0 in (1,825 mm)
Height	53.1 in (1,348 mm)
Wheelbase	103.1 in (2,620 mm)
Ground Clearance	5.6 in (142 mm)
Curb Weight	3,840 lb (1,741 kg)
Fuel-Tank Capacity	19.8 gal (75 L)
Trunk Capacity	8.8 cubic feet (249 L)* 9.4 cubic feet (266 L)* (with available run-flat tires)
Headroom	37.2/33.9 in (945/861 mm) (front/rear)
Legroom	43.6/27.1 in (1,108/689 mm) (front/rear)
Shoulder Room	53.8/46.6 in (1,366/1,182 mm) (front/rear)

ENGINE

Type	90° V8, aluminum block and heads, certified Ultra-Low Emission Vehicle (ULEV)
Displacement	4.3 liters (262 cubic inches)
Valvetrain	Four cam, four valves per cylinder, with Continuously Variable Valve Timing with intelligence (VVT-i)
Compression Ratio	10.5:1
Horsepower at RPM	288 hp @ 5,600 rpm†
Torque at RPM	317 lb-ft @ 3,400 rpm†

PERFORMANCE

0 - 60 MPH Acceleration	5.8 seconds†,‡
1/4-Mile Acceleration	14.3 seconds†,‡
Top Track Speed	149 mph (electronically limited)†,‡
Fuel Consumption (estimated)	19/25 mpg (city/highway)†, **
Aerodynamic Drag Coefficient	0.31 (0.30 with optional rear spoiler)
Turning Circle	35.4 ft

DRIVETRAIN

Transmission	Six-speed sequential-shift automatic Electronically Controlled transmission with intelligence (ECT-i)
Drive Wheels	Rear, with standard Vehicle Stability Control (VSC)⁴
Final Drive Ratio	3.76:1

*When equipped with available run-flat tires.

†Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease.

‡These performance capacity figures are for comparison only, and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt.

**EPA-estimated ratings: 19 city/25 highway mpg. Actual mileage may vary.

⁴See page 17 for more information.

2006 LEXUS SC Specifications (Continued)

CHASSIS

Vehicle Stability Control (VSC) ⁴	Electronic system that monitors and helps control the loss of traction in a turn by using yaw-rate, deceleration, vehicle-speed and steering-wheel-angle sensors. Modulates engine power and applies individual brakes as necessary. Integrates Anti-lock Braking System (ABS), BrakeAssist ⁵ and Traction Control (TRAC).
Suspension	Front: Independent, double-wishbone with coil springs, gas pressurized shock absorbers with internal rebound springs and stabilizer bar. Rear: Independent, double-wishbone with coil springs, gas-pressurized shock absorbers and stabilizer bar.
Steering	Vehicle-speed-sensing, progressive power-assisted rack-and-pinion. 3.3 turns, lock to lock.
Brakes	Four-wheel power-assisted discs with four-sensor, four-channel Anti-lock Braking System (ABS), Electronic Brakeforce Distribution (EBD) and Brake Assist, ⁵ 11.7-in ventilated front, 12.1-in solid rear discs.
Wheels and Tires	18 x 8.0-in alloy wheels with 245/40ZR18 summer tires. ⁸ Temporary spare tire on steel wheel. Optional tires: 245/40VR18 summer or all-season run-flat tires. ¹

SAFETY & SECURITY

Driver's and front passenger's dual-stage airbag system (SRS)⁶ • Front seat-mounted side airbags (SRS)⁶ • Three-point seatbelts for all seating positions, pre-tensioners with force limiters for front seats • Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for all front-passenger seating positions • Emergency Locking Retractor (ELR) for driver's seat • Child Restraint Seat (CRS) tether anchor brackets for rear seating positions • Four-wheel power-assisted disc brakes • Four-sensor, four-channel Anti-lock Braking System (ABS) • Vehicle Stability Control (VSC)⁴ • Traction Control (TRAC) • Brake Assist⁵ • Electronic Brakeforce Distribution (EBD) • Lexus four-sensor tire Pressure Monitor System⁷ • Highly rigid body structure with front and rear crumple zones • Dual side-impact door beams • Reinforcements in pillars and doorsills • Impact-dissipating upper interior trim • High-Intensity Discharge (HID) headlamps with dynamic auto leveling • Adaptive Front Lighting System (AFS) • Headlamp washers • Daytime running lights • Integrated foglamps • LED taillamps • Water-repellent door glass • Variable intermittent windshield wipers with mist cycle • Rear-window defogger with auto-off timer • Power-adjustable outside mirrors with timed defoggers • Vehicle theft-deterrent and engine immobilizer system with in-key transponder • First aid kit • Tool kit

LUXURY

Walnut or espresso bird's-eye maple wood interior trim and shift knob • Leather-trimmed interior • Wood- and leather-trimmed steering wheel • Steering-wheel-mounted cruise control, audio and display controls • Power tilt-and-telescopic steering column with automatic tilt-away • Lexus voice-activated DVD Navigation System³ with Bluetooth[®] technology⁹ • Mark Levinson[®] nine-speaker 240-watt* Premium Audio System² with Automatic Sound Levelizer (ASL) and single-feed, six-disc CD auto-changer • Power mast antenna with FM-diversity system • 10-way driver's and front passenger's (including lumbar) power seats • Heated front seats • Height-adjustable headrests for all seats • Lexus Memory System to control power driver's and front passenger's seat (except lumbar), outside mirrors and steering wheel • Intuitive climate control with lap-level vents, interior air filter, smog sensor and automatic recirculation • Power-retractable aluminum-alloy roof • Power windows with one-touch auto open/close feature • Remote-linked window opening • Retained accessory power for windows • Electrochromic (auto-dimming) inside mirror with compass and outside mirrors • Power door locks with driver's two-turn unlock feature • Multifunction, in-key remote entry system with rolling dash code technology • Dual-compartment center console with accessory power outlet • HomeLink[®] universal transceiver to operate compatible garage, gate, home lighting and home security systems • Illuminated entry system and scuff plates • Electroluminescent instrumentation • Interior electronic trunk-lid and fuel-filler door releases • Lexus Personalized Settings (LPS)¹⁰ to personalize electronic functions • Automatic on/off projector-beam headlamps with 30-second delay • Outside temperature gauge • Scheduled maintenance indicator light • Carpeted floor mats

*Continuous average power, all channels driven, at 0.01% THD; 20-20,000 Hz.
