## • DRIVING COURSES

The Master Maserati Driving Courses offer you the chance to learn how to drive exclusive high-performance cars with the same kind of confidence and gusto as a professional driver. The relationship between man and machine makes all the difference when it comes to road safety. Maserati has always focused on dynamic handling in the development of its cars and is equally attentive to the needs of its existing and future customers. Maserati's aim with these courses is to achieve an absolutely fluid relationship between driver and car and to add that extra flourish of professionalism to the driving style of even its most expert clients.

The result is the Master Maserati range of courses which take place on the highly technical Varano de' Melegari track, situated near the delightful town of Parma. The courses offer instruction in safe sporty driving. Participants do their training at the wheel of various Maserati models under the watchful eye of former professional F1, Rally, DTM and Indy drivers who are also expert instructors. The courses are carefully structured to guarantee participants the chance to experience the true performance of the various models in complete safety, both in the track sessions and emergency situation simulations.
